Has long been a reproach to the Republican party, and has now happily gone over to the Democrats." Gen. Kilpatrick, on arriving in New York on Wednesday, at once made an affidavit before Judge Hogan that the subject matter of the article was false, and a "wicked, wilful and atrocious libel," and requested that a warrant be issued immediately for the arrest of the offender. In vindication of his conduct, Gen. Kilpatrick says that in 1868 the Times, then under the management of Henry J. Raymond, warmly supported him as a soldier and a diplomat, and it was not until he withdrew from the and it was not until he withdrew from the Administration party that he was de nounced by that journal. That the Times was willing to acknowledge him as a man of honor is plainly seen by the editorials which it contained four years ago, not only repudiating the libel just published, but also upholding him in his policy while Minister at Chili. Gen. Kilpatrick admits that a lady accompanied him to Chili, but she was his mother-in-law, who had been advised by her physician to take a sea voy she was his mother-in-law, who had been advised by her physician to take a sea voyage. While to Chili he merried a lady who was the niece of the Archbishop of Chili and also of the president of that time. Mr. Jennings has been liberated, at the request of the prosecutor, upon his own recognizances, and on Monday the case will come before the Grand Jury.

Watchmaking in Switzerland.

WE have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de Saus ure, and are now able to furnish some further details.

Professor Soret, in delivering a most interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the manufacture of chronometers. This competition was instituted with the object of testing the workmanship and precision of chronometers turned out by Genevese manufacturers, and none but those adopted for pocket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enthusiastic applause, and Professor Humbert, President of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department.
