Cariboo
Sir,

I have the honour to call your attention on the fact that several Indians have been asking for permission to cut a few logs and make a few railway ties to help them along, as they have now no work on hand, and also because it is the best time now, before the snow is too deep to gather all the fallen trees and cut a few logs and yard them, before the snow bothers too much.

There is no doubt that some of them who are unable to leave, for home to work out, are in need of earning something otherwise they will soon be begging for help from the Department.

Yours obedient Servant
J. Pite
Indian Agent

The Secretary
Department of Indian
Affairs
