

- Myoma, corpus luteum cysts with, 346
 cystic, abdominal myomectomy for, 512
 cystic degeneration of, 83. See also *Hyaline degeneration*,
 cystitis with, 377
 cysts of ovary with, 344
 of urachus with, 463
 of utero-ovarian ligaments with, 356
 dead fetus resembling, 473
 death due directly to, 426
 degeneration in, found at autopsy, 395
 dermoid cyst with, 349, 396
 diagnosis of, differential, 467-503
 dilatation of cervical glands with, 298
 of deep uterine lymphatics associated with, 76
 of renal pelvis with, 397
 of superficial uterine lymphatics associated with, 72
 of ureters with, 378
 of uterine glands with, 323
 of vessels of broad ligaments with, 354
 dilated lymph-channels in, 123
 lymph-spaces in broad ligament with, 355
 disappearance of, after pregnancy, 646
 discrete, 3
 duration of, before operation, 435
 edema of, 88
 effect of removal of ovaries on, 504
 electrical treatment of, 588
 elongation of supravaginal portion of cervix with, 442
 of vaginal portion of cervix with, 441
 emulsification of hyaline material in, 92, 124
 encysted peritonitis suggesting a full bladder with, 371
 endometritis with, 334
 extending into uterine muscle, 9
 extra-uterine pregnancy and, 477
 Fallopian tubes and, 338, 340
 family history and, 430
 femoral hernia associated with, 462
 fertility and, 457
 fibroma of ovary and, 351, 493
 free in broad ligament, 51, 187
 gall-bladder with, 464
 giant cells in, 250
 gland hypertrophy of mucosa with, 316, 325
 glands, unusual shapes of, associated with, 321
 running parallel to surface of uterine mucosa with, 316
 glycosuria with, 465
 goiter with, 460
 Graafian follicle cysts with, 344
 gritty particles in, 126
- Myoma, heart in cases of, 421, 451
 heart-shaped, 5
 hematosalpinx with, 338, 396
 hemoglobin percentage with, 451, 453, 455, 517
 hemorrhoids associated with, 446
 heredity and, 430
 histologic appearances of, 7
 changes in, suggesting carcinoma, 491
 hyaline degeneration of, 83. See also *Hyaline degeneration*,
 hydatid mole and, 480
 hydronephrosis with, 397
 hydrosalpinx with, 338, 396
 hydroureter with, 381, 396, 399, 414
 hypertrophy of bladder wall with, 370
 of cervical mucosa with, 297
 of cervix uteri with, 441
 of round ligaments with, 363
 of uterine glands with, 325
 hysterectomy for. See *Hysteromyomectomy*,
 in contour resembling a fetus, 469
 in old age, 395
 incarcerated, 365
 incontinence of urine with, 376
 induration of vaginal vault with, 440
 inguinal hernia associated with, 462
 inoperable, treatment of, 636
- Myoma, interstitial, 1
 abdominal myomectomy for, 508
 intestinal obstruction associated with, 447
 intraligamentary, 1, 365
 irregular growth of, 10
 kidney, miliary abscesses in, complicating, 397
 misplaced, with, 465
 nodules in, associated with, 465
 kidney-shaped, 4
 labial cyst with, 438
 large ovary with, 352
 leukocytosis with, 152
 lipoma of abdominal wall with, 461
 liquefaction of, 88, 89
 liver and, 464
 loss of weight with, 456, 572
 macroscopic appearances of, 1
 malformation of uterus with, 155
 menstrual history in cases of, 443
 merging of, into an ovary, 353
 mesentery, findings in, associated with, 464
 microscopic appearances of, early, 431
 miscarriages with, 458
 mobility of, 444
 mulberry-shaped, 1, 2, 5
 multicystic, 112
 myoglia in, 9
 nausea associated with, 447
