P. SMITH R. R. NO. 3. STRATFORD, CONN.

To the Breeder

who will have nothing

who will have nothing

But **The Best---**

THE young Sire we offer this week is, we believe, one of the finest ever turned out from our herd. In Breeding, Records, and make-up he

stands foursquare. He carries the finest in both Canadian and American Breeding, his dam being for three years supreme in R.O.F. utility work. His sire and gd-dam carry the richest R.O.M. blood. This young bull combines them in one of the best young fellows we have produced. He is just 5 months old-to-day. In three months he will be ready for light fall work. He is the kind of a fellow that will put 24 M. lb. blood—and the best of short term blood into your herd. Don't delay about it if you want this fellow.

We have a few females bred to King Segis Pontiac Posch which we can spare at the present.

THE CALF—Look me over—then just look over my relatives on this page. I'm a combination of them all. Buy me. I'll be even a better investment than Victory Bonds.

TOITILLA DE KOL SARCASTIC—a 23 lb. cow, who has 3 R. O. M. and 3 R. O. P. daughters, one of the latter having a milk record of 24,004 lbs. Dam of Toitilla of Riverside, also dam of the \$2,000 bull at the Hamilton sale, June 25th—sired by Johanna Ru 4th's Lad.

MAY ECHO SYLVIA—Known the world over. But-
ter—7 days 41.01 lbs., milk 1,008.8 lbs. Milk 1 day
53 lbs. ¼ sister to sire of this calf, also dam of the
104,000 bull at Milwaukee.

A black and white photograph of a cow with dark spots, standing in a field. The cow is facing right, and its body is covered in numerous dark spots of varying sizes. The background is a light, textured surface, possibly a field or a wall. The photograph is framed by a thin black border.

TOTILLA OF RIVERSIDE—Milk 24,094 lbs.—1,057 lbs. butter-former. Canadian Champion H.O.P. cow (Mature Class)—a record—she has consecutively for three years. She is a very long dan dance producer, although her dam stands at \$500.00 mark in 1 day work. She is the dam of the young we offer—a cow that is able to transmit to her offspring the wonderful qualities that have been concentrated in her from her ancestors.
