

Boog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Orb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misapplied. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

FLEMING BROS., Chemists
75 Church St., Toronto, Ontario

CALVES Raise Them Without Milk. Booklet free. The Steel, Briggs Seed Co., Toronto, Ont.

Alexander Ure, the Lord Advocate of Scotland, is a keen golfer, and he has a good store of golfing tales. These he is always ready to relate, even if they tell against himself.

Playing on a certain course in Scotland, he remarked, incidentally, to his caddie:

"By the way, I played a round with Todd McGregor the last time I was here. Grand player, McGregor!"

"Ay," said the caddie, "but ye could bate McGregor the noo."

"Do you think so?" exclaimed the gratified Lord Advocate, being well aware of McGregor's prowess.

"Ay," drawled the caddie. "McGregor's deid."

To God, thy country, and thy friend be true.

—Henry Vaughan.

How often do you eat this food?

A short time ago there appeared in the columns of one of the prominent magazines an article on building brain and muscle by the proper selection of the foods you eat.

A good many people were surprised to find oatmeal placed at the top of the list of foods recommended; but if the article had appeared in an English or Scotch paper every reader would have expected to see first place given to good oatmeal.

As a matter of fact Great Britain and Europe come to us for tremendous quantities of Quaker Oats because it represents to them perfect food, being the richest in flavor and best in cleanliness and purity, of all oatmeals.

Americans should eat more Quaker Oats; the results would soon show themselves in improved conditions of health and strength.

QUESTIONS AND ANSWERS. Miscellaneous.

REGISTERING SHORTHORNS.

I want to join the Dominion Shorthorn Breeders' Association, and I would like to know, through your columns, their rules and regulations; also price of joining, and who to apply to for the same.

E. G.

Ans.—Write to "Accountant, National Live-stock Records," Ottawa, asking for application form for registering Shorthorns. The rules and terms are printed on back of these forms.

RATION FOR SOWS.

Three sows will farrow in about four weeks. They are fed entirely on pulped sugar beets and boiled potatoes. Will their young pigs be as strong and thrifty at time of farrowing as if sows had received a portion of grain? If not, what kind and quantity of grain should each receive?

H. McB.

Ans.—We would scarcely expect the pigs to come as strong as they should from a sow fed only on pulped sugar beets and boiled potatoes, nor do we consider this in any sense an economical ration. A certain quantity of roots, together with clover or alfalfa hay (preferably the leafy portions, steamed and mixed with a very little meal), makes an excellent ration. Aim to keep the sow in fair, thrifty condition, but not fat. If no clover or alfalfa hay is available, some bran or shorts should be fed along with the roots, or a few oats and peas, either ground or soaked, would answer.

ADDITIONAL PERCENTAGE CHARGE FOR NON-PAYMENT OF TAXES.

1. Has a tax collector the right to charge five cents on the dollar interest for taxes paid two days after due?
2. Is same charge legal in Ontario?
3. If not legal, how could I recover same?

A SUBSCRIBER.

Ans.—1 and 2. Yes; if the Council of the municipality has enacted a By-law, under Sec. 60, of the Assessment Act, R. S. O., Ch. 224, as amended by 62 Vic., Ch. 27, Sec. 4, imposing an additional percentage charge for non-payment of taxes by a day named in such By-law, and if the proper notice, required by Sec. 134, of the said Assessment Act, has been given, and more than 14 days had elapsed after such notice was given before payment was tendered, but not otherwise.

3. Demand refund from the Collector; if he refuses, then demand it from the Council; if the Council refuses to refund the additional percentage, then bring an action against the municipality to recover it.

A "CRIBBER."

A sells a horse to B. A sells him as a sound horse. A was to deliver him at a certain time and place, which he did, but B was not at home; when B returned, he found out the horse was a cribber. B did not say or do anything for four days. B then came and admitted to A that the horse was sound, but not all right, and asked A to throw off five dollars. But A said he had had plenty of time to have returned the horse and wanted full amount. B would not pay, and went off saying he would turn the horse out when he went home, but he did not, and four days more passed and A went and asked B for his money, but B still refused.

1. Can B make A take the horse back?
2. Can A make B pay full amount that the horse was sold for?
3. Can a horse be sound and be a cribber?
4. Can you give any reason or cause for a horse being a cribber?

A SUBSCRIBER.

Ans.—1. No.
2. Yes.
3. Legally, yes; it would appear to be only a vicious habit. Practically, such a horse should be considered unsound, and the fact of his being a cribber should be mentioned in a veterinary certificate.

4. Authorities have suggested that the habit may be induced by idleness and ennui, irritability while grooming, licking the manger from hunger, and such construction of manger as facilitates cribbing. It is also thought to be induced by hereditary tendency transmitted.

DISPERSION SALE

OF OVER

40 Head Holstein - Friesian Cattle

AT MADOC, MARCH 25th, 1910.

Including the great bull, Sara Jewel Hengerveld's son, whose dam has an A. R. O. butter record: In 7 days, of 28.12 lbs.; in 30 days, of 110.18 lbs. The only cow in Canada that ever produced in official test 100 lbs. milk in one day. All females old enough are bred to this great bull, and by the time of the sale there should be 20 calves sired by him. Catalogues will be ready March 1. Positively no reserve. Sale will commence at 1.30 p. m. Stages connect with C. P. R. at Ivanhoe and C. O. R. at Eldorado, for Madoc, and will convey intending purchasers to the farm on day of sale. The G. T. R. runs into Madoc, and arrangements have been made for transportation to the farm. Cheap rates on all railways.
