Be Up-to-date and Equip Your Stables With

"BT" Sanitary Steel Stalls and Stanchions.

Why put in old-style wooden stalls which rot out quickly, and are constantly in need of repair? Best dairymen everywhere are equipping their stables with "BT" All-Steel Stalls. They are practically indestructible, and the cost is not greater than the out-of-date wooden construction.

And they have other advantages. Your stable will be brighter, more sanitary, easier to work in. Your cows will be kept clean, and will be more comfortable, and more cows can be tied in the same space.

Don't put in stabling that, in a few years, you will be ashamed of.

The latest ideas in stable construction from prominent dairymen, Agricultural Colleges and The Ontario Milk Commission Report are contained in the new "BT" Catalogue. It is FREE, and we wish every farmer who is remodeling his stable or building a new one this season to get a copy.

Write today, and let us know the size of your new stable.

BEATTY BROS., FERGUS, ONTARIO

We also build Hay Tools and the "BT" Litter Carrier.
