

What Will the Harvest Be?

THAT depends largely upon the condition of the land. The farmers who get the big, profitable crop productions year after year are the men who cultivate the soil, drain the low spots and dig their drainage ditches with the

Buckeye Traction Ditcher

They not only dig their own ditches, but clear from \$15 to \$18 a day digging the ditches for their neighboring farmers. The ditches are dug a great deal better than by hand labor and in less than half the time.

The Buckeye Traction Ditcher can be had with steam or gasoline power. Either machine will easily average 100 to 150 rods a day. And hundreds of owners have found that the gasoline machine will burn kerosene just as effectively as gasoline, and at half the cost.

Get a FREE demonstration of the Buckeye at the State Fairs of Indianapolis, Detroit, Sedalia, Missouri or Springfield, Illinois. Visit our exhibit—it will pay you to get acquainted with this strong, sturdy, money-making machine.

Write for Catalogue, T right now.
