Radical Changes Suggested.

The last number of the C. M. B. A. Weekly gives an analysis of assessments 16 and 17, which shows that 92 per cent. of deaths for 1000 members is credited to New York, Canada 85 per cent., Pennsylvania 100 per cent., Michigan 88 per cent., and Ohio had no deaths on these assessments. Our friend of the Weekly has a habit of going into statistics at periods when the figures will be most favorable to his pet theories. He evidently has a kindly leaning towards New York, and silence reigned supreme as to assessments Nos. 14 able to his pet theories. The evidenty has kindly leaning towards New York, and silence reigned supreme as to assessments Nos. 14 and 15, when that State was credited with twenty-four deaths in one month, while all the other Grand Councils combined had only eight. We would not be surprised were another desperate move made on the C. M. H. A. chess board at the next meeting of the Supreme Council; for the Weekly, which is the organ of that body, favors the abolishment of Grand Councils altogether, and says that were the branches to deal directly with the Supreme Council the business would be much more easily performed, with much more promptitude and at less expense. Quite likely this suggestion is inspired from headquarters, and at the next meeting in Montreal of the Supreme Council the C. M. B. A. may become somewhat like unto a stock insurance company, with headquarters at Buffalo.

Correction.

In our report of the resolutions passed by the Montreal branches congratulating Brother Doherty on his elevation to the bench and thanking Sir John Thompson and Mr. J. J. Curran. Q. C., M. P., in reference thereto, an error was made as to the names of the movers and seconders. The second resolution of thanks to Mr. Curran was moved by Chancellor J. Dulinn, seconded by Chancellor H. Butler, and the third resolution to Sir John Thompson was moved by Chancellor J. O'Farrell, and seconded by Chancellor J. Meek. The resolution in regard to the press was moved by Chancellor L. Purcell and seconded by J. P. Grace.

SCOTTISH NEWS.

The Trials and Triumphs of the Cath-lic Church in Ireland.

The Jesuit Church of St. Alovsius, Gar-The Jesuit Church of St. Aloysus, Garnet Hill, Glasgow, was crowded on Sunday evening to hear the Rev. Father Campbell, S. J., deliver a special lecture entitled, "The Trials and Triumphs of the Catholic Church in Ireland." He chose for his text the words: You have not chosen Me, but I have chosen you, etc."

They had already seen, he said, how Scotland had emerged from the darkness of the bitter religious persecutions which continued for three centuries. and God enabled His people to build anew altars in His honor. In the prosecution of this blessed work help was generously afforded by those who had passed through cruel persecution themselves, by men who were poor in this world's riches, but who were rich in faith. And what wonders were wrought through their splendid aid Magnifient churches dotted the land fine schools were erected in each par ish, and religious houses in various parts of the land sprung up. Oh, how true were the words of Isaias:

"Arise, beenlightened, OJerusalem, for thy light is come, and the glory of

thy daughters shall rise up at thy side. And the children of strangers shall build up thy walls, for in my wrath have I struck thee, and in my reconciliation have I had mercy upon

Yes, in literal truth, strangers were restoring every day the altars of the living God. From the words of the poet Ossian, it was clear that the west coast of Scotland was connected in that day with Ireland, and this connection was heightened and purified as time went on. Irish friars and Irish missionaries set foot in Scotland, and went through mountain and glen preaching the word of God. At that time, too, they found the Irish referred And it was not a little strange that to get to the cradle of Irish Christianity they must go to the banks of the Clyde.

KILPATRICK ON THE CLYDE WAS THE SPOT WHERE ST. PATRICK FIRST SAW THE LIGHT,

as Cardinal Moran proved conclusively in his "Irish Saints in Great Britain, so that Ireland was only now returning the gift of Scotland. From the first day St. Patrick set foot in Ireland as Christ's messenger victory upon vic-tory was the result, and of all histories that of the propagation of the faith in Ireland was the most wonderful. The whole country was evangelized and the faith planted in his life time without the shedding of a single drop of blood, but she had afterwards to make up for it. The arts and sciences flour-What, indeed, was the origin of the Celtic cross, but the huge altar slab of the Druids, which St. Patrick converted into the sign of their redemption. the faith went on conquering and to conquer. But charity was diffusive. Irish missionaries went abroad to spread the faith. He had himself counted seventy-five Irish missionaries at that time in England and Scotland but they also penetrated to the Continent. Nearer home St. Columbkill voluntarily exiled himself to follow in the footsteps of His Lord and Master. He finally pitched his tent in Iona. In this nineteenth century the theory was actually advanced that St. Patrick was a Protestant—that he preached Protestantism in Ireland. The rev. preacher then quoted from the portion of the Canon of Armagh drawn up by the saint himself, which effectually proved his Catholicity. And if the monks of Iona were Protestants, how came it, he said, that they held the Catholic doctrine concerning the belief in, and deliverance of, by Masses, the souls in purgatory, that they dedicated churches to the Blessed Virgin Mary, used holy water, observed Lent, erected crosses, lived in monasteries and abbeys, and wore a distinctive

The Pope's Allocution.

The Pope, in his allocution at the consistory on the 15th said that the enemies of the Church ruthlessly encompassed it on every side. Not content with displaying their hatred in words, they had proceeded to acts of violence against peaceful foreigners who had come to Rome actuated by filial piety and free from the political aims. The enemies who had not hesitated to incite riots, insults and threats, now sought to deal the Papacy a death blow. Other secret foes, who paraded their moderation, really aimed at the same object. The liberty of the Pontiff to communicate with the outer world was becoming more and more curtailed, and the situation was daily becoming more difficult. The Pope trusted that the heads of States would give earnest consideration to the position of the Church. They would then understand that it was to their interest to uphold the authority of the Church as the greatest moral power in the world. It behosved all Catholics acting in unison with the Holy See to form a perpetual league against the assaults of the impious. The Pope's Allocution.

The answers to prayer through the intercession of Mary, in every age of the Church, and in every state of life, and in all manner of trials, public and private, have taught the faithful that she bears an office of power and patronage over us. - Cardinal Man-

return. About one year ago I lost all feeling from my legs; they would feel like ice and to move them caused the greatest agony. I prayed that God would take me from this world and give me relief from the torment which I was hourly in. Thus I lived; not lived, but existed, a suffering being without one day's relief from the most excruciating pangs from the disease." How the face of the hitherto sufferer brightened as he began to tell of the release, as it were, from death, and continuing he said: —" But from the blackest day of my sickness a glimmer of hope shone when my little girl who brought home my paper read the advertisement of Dr. William's Pink Pills, and I got her to read to me the cure effected in the case of John Marshall, of Hamilton. As soon as she read the statements contained therein, I saw at once that his case was similar to mine and I told my wife that I believed I would be a well man again if I only could succeed in obtaining some of this medicine. I sent to our drug store but found none there, I then decided to send to Brockville, Ont. for the Pills, but my neighbors only laughed at me saying that they were just like all other patent medicines, no good. This was in August, I forwarded the money and in a few days received two boxes of Pills, decided to give them a fair trial. After taking them a short time the pains left me, and to-day I am not troubled with an ache or pain. True, my lumbs have not yet entirely recovered their former strength, but it makes me happy to know that if five boxes will enable me to stand with just a little assistance more will continue and complete the cure. Dead legs for a year are not easily made perfectly strong again but, here Mr. Jerritt threw both legs high into the air, "this is something myself or my friends never hoped to see. All my neighbors gave me up for dead, but thank God my strength is returning and after three months I feel like a new man. You need not fear to state my case plainly, as I am well known in Cape Breton, and all the people hereabout kn

credit to the treatment with Dr. Williams' Pink Pills, and are naturally enthusiastic in speaking of them.

The proprietors of Dr. Williams' Pink Pills state that they are not a patent medicine, but a scientific preparation the result of years of careful study on the part of an eminent graduate of Medill and Edinbargh universities, and they had tor many years been used in his private practice before being offered for sale throughout the country. They are offered to the public as a never-failing blood-builder and nerve-restorer, curing all diseases such as paralysis, rheumatism, sciatica, palpitation of the heart, headache, pale and sallow complexion, muscular weakness, etc.

The proprietors deem it their duty to caution the public against imitations. These Pills are never sold in any form except in boxes, the wrapper around which bears the trade mark "Dr. Williams' Pink Pills for Pale people." They are sold by all druggrist or will be sent post paid upon receipt of price, 50 cents a box — by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Morristown, N. Y.

MONTREAL LIVE STOCK.

Montreal, Dec. 24.—There were about 400 head of butchers' cattle, 630 sheep and a few calves offered at the east end abattoir to-day. Although the sharp frost, accompanied by high winds, made travelling rather uncomfortable around that part of the city, still a good many butchers were in attendance at the market, but they did not seem in any hurry to buy, and trade was not brisk. There were but two lots of extra cattle on the market, and 11 head of these sold at 5c per lb., and three more at 3c per lb., and three more at 3c per lb., and three more at 3c something over 5c per lb. Pretty good cattle sold at about 35c, and common dry cows at from \$25 to 31c per 15. Two exceedingly fine steers twee bought before they reached the market at 7c per lb. These steers took a number of first prizes at the western fairs last autum. The best calves were bought up before reaching the selling at about 45c per lb., but they were not of extra quality. Fat hogs are rather scarce, and sell at from 4½ to 4½ per lb. MONTREAL LIVE STOCK.

The Rev. Father Friedland, of St. Joseph's Church, of this city, called our attention to Pastor Koonig's Nerve Tonic. The boy for whom I procured the medicine had been suffering 10 years or more from Englance. He is a second whom I procured the medicine had been suffering 10 years or more from Epilepsy. He is about 17 years old, and had an attack nearly every day; but since he has been using the Nerve Tonic the attacks have not been so often and riolent. I am convinced that the medicine has done him good, and think it will eventually cure him.
