

# CANADIAN MINING JOURNAL

Vol. XLI.

Gardenvale, P.Q., November 26, 1920.

No. 47.

## Every man his own time keeper—every man satisfied and every man right

That's a condition that makes for contentment and big production. Every employee has his own number and punches his time in clear, accurate, unchangeable figures on the time sheet inside the Recorder.

## International Dial Recorder

This is the fastest time keeping system in the world. Has automatic morning, afternoon and overtime shift, automatic day to day shift and shows late arrivals, early leavers and overtime in red. This last feature is a big convenience to the cashier as in making up his payroll he needs to pay attention only to the red figures as all other are normal. The International Dial Recorders are the only machines in the world giving automatic service on these three vital features.
