It is rumored that there is a deal on in the east for the Granite and Banner

properties at Camp McKinney. Mother Lode on the north They started a week or ten days ago to do surface work, and disclosed a very line showing of surface ore similar in character to that of the Mother Lode. The width has not yet been determined. The men are been disclosed. It is supposed that the St. Lawrence has a continuation of the Mother Lode vein.

MR. R. C. CLUTE.

Dominion Government Commissioner the Labor Question Coming Here.

Mr. R. C. Clute, Q. C., of Toronto, was recently appointed by the Dominion government to enquire into the employment of alien labor in this province is response to a request from the Sandor Miners' Union, and whose commission embraces an enquiry into the labor ques to obtain evidence under oath upon which to base his report.

Mr. Clute has examined a good many witnesses at Sandon and is now holding a sittings at Nelson. When he has concluded his business in the latter place he proposes to come to Rossland. The comoner will probably not arrive here untill-next week. At the session held by Mr. Clute at Sandon both the mine owners and the men were represented and evi-dence was taken on the labor situation in the province generally.

Mr. Frank Smith of the Toronto World, left for Vancouver last evening.

INSURANCE RATES.

Public Meeting Last Night at the City

Pursuant to the notice given in yeste day's Miner a pubue meeting was held last evening at the City hall to protest against the recent action of the Vancouver Board of Underwriters in raising the insurance rates in the business portion of the city.

On taking the chair the Mayor stated that he had been informed that owing to the report of Mr. Davenport, a gentleman from the other side of the line, the Vancouver Board of Insurance Underquake, north fork of the Kettle river, reports that recent development work on the property has produced very satisfactory results. When he took charge a crosscut tunnel was run 86 feet into the side of the mountain before sinking a winze 20 feet. Near the face of the tunnel the ledge was also crosscut for a distance of 62 feet before sinking a winze 25 feet deep. At the foot of this winze there is a drift 12 feet long, neither wall having been encountered. Recent assays gave returns of \$10.15, \$17.20 and \$20 in all values. force of water was not sufficient to throw

weeks 40 men will be needed at the mine to sort ore on the dumps. Regular shipments will then be made to the Trail smelter. The main working shaft has now attained a depth of 220 feet. First-class ore has been taken from the winze on the 150-foot level. The railway track has been laid to the mine.

Fred Knight, superintendent of the Bonanza mine of Knight's camp, north fork of the Kettle river, brings down the intelligence that the wagon road has been extended five miles from Bannock City to the camp. A boiler and pumping the fire has been to solve the contour of the kouler and pumping the fire has been to solve the camp. A boiler and pumping the fire has been to solve the contour of the kopies, and afford a the were should be sary to take some immediate steps to inform the Vancouver Board of the facts and to ask that an inspector should be sent here at once to look into the whole sent here at once to look into the whole of the water supply and showed that during the fire on the hill in September last the two city reservoirs were never lowered, but continued to overflow, notwithstanding the fact that three lines of fire hose were in use and any number of private hose lines all over the contour of the kopies, and afford a three leading Preany number of private lose lines and the western ends of the trenches follow to the camp. A poiler and pumping plant will be instaued within a few weeks when the work of sinking the main work ing shaft will be resumed.

The western ends of the trenches follow the southern portion of the city were also using water to quench the showers of sparks and burning wood that fell all over on that night. He detailed the over on that night. He detailed the thurst forces amounted to 11,000 men, precautions taken by the waterworks superintendent and explained the steps already taken by the city to improve and

Both the Mayor and Alderman Lalonde admitted that in portions of the outlying sections of the city hydrants and mains were wanted, but drew particular atten-tion to the fact that in these sections the rates had been lowered, whereas in the business portion of the town where the fire protection was ample the rates had been increased.

Mr. Grogan thought that the fire re ferred to by Mr. Davenport was a small one in the rear of the school house, where there were no hydrants. Alderman Lalonde pointed out that the rates had been lowered in this section, but raised in the business portion of the town, an altogether unfair discrimination.

Mr. R. Dalby Morkill, jr., said that it

was possible there had been some mistake and after hearing the statements of the Mayor and Alderman Lalonde he thought it would be wise to practically demonstrate the falsity of the statements made to the Board and have a test made at to the Board and have a test made at once showing the force and capacity of the city water system. If this were done in the presence of the city insurance agents they would report the matter direct and join the Council and citizens generally in applying for a new and proper rating. A motion to this effect was then moved by Mr. Morkill, seconded by Mr. Daniels and carried, and the meeting adjourned.

journed.

Alderman Lalonde will take charge of

GAS: AND STREET CARS.

Company Building There Also.

The fighting was still gother than the city from Kaslo on a visit. ATTACK OF THE BOERS.

The British Were Taken Unawares bu Stuck to Their Position.

North of Modder River, Dec. 11 .- The last night moved from Modder river camp, marching in a northeasterly direction. The objective point of the Highlanders was the eastern spur of the Boer position, the Guards following the bank of the river, while the Yorkshire light infantry moved along the river side.

Just before daybreak the Highlanders arrived within 200 yards of the Boers' nents at the foot of a hill. Unsuspecting that the Boers were in the vicinity, the British were still marching in quarter column in close order, when they met a terrible fire from the flanks and were forced to retreat with heavy loss. The troops reformed under shelter forced to retreat with heavy of some rising ground and gallantly held ish prisoners in that section, to the num-their position. Later the Gordons arrived ber of about 2,000. Our casualties were and the troops gradually worked their way to within 300 yards of the Boer posi-

Modder river, the Howitzer batteries and the artillery opened a terrific fire, en- body guard, killed General Gregorio Pilar, filading the trenches and searching every portion of the Boer position. The Boer guns were entirely silent. In the meanwhile the Boers on the open ground directly in front moved with the object of making a flank attack, but this was frustrated by the Guards and artillery. The

ing, but no damage was done.

The British slept on their positions. is expected there will be a renewal fighting tomorrow. The losses on both sides were very heavy.

General Wauchope Killed

London, Dec. 13.-The war office has received the following dispatch from General Forestier-Walker: Cape Town, Dec. 12.-Methuen wires that General Wauchope was silled in ac-

tion yesterday. Major-General Andrew C. Wauchope, C. B., C. M. G., was-a high distinguished officer of the British army. He was brig- hind Aguinaldo, who had believed he had adier-general commanding the first brig-Ashanti war in 1873, in the Egyptian war in 1882, in the Soudan expedition of 1884

our times, three times severely. Orange River, Cape Colony, Dec. 13 .-Three hundred and twenty wounded men have arrived here from Modder river.
