Mr. Fredenburgh's Card.

To the Electors of South Leeds: GENTLEMEN,--I having been removed that I intended withdrawing from the present political contest, I wish to state positively that, having placed myself in the hands of my friends, I intend to remain in the field until the last vote is cast.

At my age I would be loath to undertake a fight, did I not, as a Canadian, believe it to be the duty of every patriotic citizen to do all that in him lies to direct the management of affairs from the hands of those who have so abused their trust. Millions of my money have been ruthlessly squandered in such indefensible jobs as the Tay canal, the Curran bridge, the Galopie rapids, and scores of others that might be mentioned, while the people have been taxed beyond what they are able to bear, in order to provide funds for such expenditures. If, as a nation, we are to prosper, we must have right economy in the management of affairs.

Being a farmer myself, I will favor a readjustment of the tariff so that while it provides revenue sufficient for running the business of the country on an honest and economical basis, it will be as light as possible on the farming community, who form the great majority of the tax-payers of our country. The readjustment of the tariff should be made so as to stimulate our manufacturing industries by making, as far as possible, their raw material free, thus enabling the raw to pay their employees better wages, and placing them in a more favorable position to compete with the world.

The Mother Land admits our products free of duty, I believe the duty on goods purchased from her should be placed at the lowest possible point. I will, if elected do my utmost to secure extended markets for Canada's produce, and will favor a reciprocity treaty on a fair and equitable basis, with all countries, and particularly with the United States.

The Manitoba school question has been thrust into Federal politics by the Conservative party, where it should never have reached. Believing the minority have a grievance, I believe the settlement of this grievance can never be reached by a coercive policy, but that by approaching the matter in a conciliatory and friendly spirit what ever grievances the minority may have will be remedied by the Provisional Government, which is the only way a settlement permanent and satisfactory to majority and minority alike can be reached. I appeal for your support on the ground of economical and honest government, reduced expenditures, a readjustment of the tariff, a reduction of the duties on British goods, enlarged markets for Canadian produce, equal rights to all and special favors to none, regardless of creed or race. I will not be able to meet all, but expect to hold meetings throughout the riding and lay my views further before you. Again appealing to your support and trusting that the result of the contest will be for the good of our common country. Believe me, gentlemen, Yours truly, W. H. FREDENBURGH Westport, 15th May, 1896.

CURED OF SCIATICA.

THE EXPERIENCE OF A BRUCE CO. FARMER.

Suffered so severely that he became Almost a Helpless Cripple. Is Again Able to do About His Work as Well as Ever.

During the past few years the Telescope has published many statements giving the particulars of cures from the use of Dr. Williams' Pink Pills. They are all so well authenticated as to leave no doubt as to their complete truthfulness. But had any doubt remained its best vestiges would have been removed by a case that came under my personal observation. It is the case of Mr. John Allen, a prominent young farmer of the township of Greenock, Mr. Allen is so well known in Wakarusa and the vicinity adjoining it, that a brief account of his really remarkable recovery from what seemed an incurable disease will be of interest to our readers. During the early part of the summer of 1895, while working in a bush, Mr. Allen was seized with what appeared

to him to be rheumatic pains in the back and shoulders. At first he regarded it as but a passing attack, and thought it would disappear in a day or two. On the contrary, however, he daily continued to grow worse, and it was not long before he had to give up work altogether. From the back the pain shifted to his right leg and hip, where they finally settled, and he was daily helpless, did he become that he was unable to do more than walk across the room, and then only with the aid of crutches. Of course he consulted the doctors, but none of them seemed able to do him any good. As a last resort, he spoke of his case always speaking of it, being generally thought that he had passed from the world of activity and that he was doomed to live and die a cripple. We are free to confess that this was our own view of the matter, and our surprise, therefore, can be readily imagined when, a few weeks ago, we saw this self-same John Allen driving through the town on top of a large load of grain. Great, however, as was our surprise at first, it became still greater when, on seeing him in the grist mill he proceeded to jump into the load, and then, with the greatest apparent ease, began to unload the heavy bags of grain. Cautious to know what it was that had brought this wonderful change about, we took the first convenient opportunity to ask him. "Well," said he, in reply, "I am as well a man as I ever was, and I attribute my cure to Dr. Williams' Pink Pills, and to nothing else." Mr.

Allen then gave us in a very frank manner the whole story of his sickness, and his cure, the chief points of which we have set forth above. After consulting two physicians and finding no relief, he settled down to the conviction that his case was a hopeless one. He lost confidence in medicines, and when it was suggested that he should give Pink Pills a trial he at first absolutely refused. However, his parents insisted, and finally he agreed to give them a trial. The effect was beyond his most sanguine expectations, as the Pink Pills have driven away every trace of his pain and he is able to go about his work as usual. "As might be expected," Mr. Allen is loud in his praises of Pink Pills, and was quite willing that all facts of his case should be given publicly, hoping that it might catch the eye of someone who was similarly afflicted.

Dr. Williams' Pink Pills act directly upon the nerves, building them up and thus driving disease from the system. There is no trouble due to either of these causes which Pink Pills will not cure, and in hundreds of cases they have restored patients to health after all other remedies had failed. Ask for Dr. Williams' Pink Pills for Pale People, may be had from all druggists or sent post paid on receipt of 50c a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

THE COLD SWEAT OF HEART DISEASE. Is Disipated in 20 Minutes by Dr. Agnew's Cure For the Heart.

The thousands who suffer from heart disease will understand what is meant by Mrs. H. B. House, of Willsboro, Ont., when she says: "A cold sweat would stand out in great beads upon my face." With everyone who suffers from heart trouble it is a death struggle, for it is hard to say when the cord of life will not snap with this disease controlling the system. In the interests of humanity, let all who suffer from heart trouble always act promptly, and use a remedy that is effective.
