DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

First American Flag.

The first American flag was unfurled on Jan. 1, 1776, over the patriot camp at Cambridge, Mass. It had thirteen stripes of red and white, but retained the English cross in one corner.

VERY REMARKABLE CURE OF DIARRHOEA.

"About six years ago, for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment, without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by All Druggists.

The Greek Church.

The Greek church is the largest Christian organization except that of Rome, from which it seceded. It would rank third, however, if the Protestant churches were united. Its political importance depends upon the fact that the czar is its head.

CURES COLDS IN ONE HOUR.

Many cold cures are dangerous because composed of deadening opiates. But fragrant, healing Catarrhose cures colds in one hour and is both harmless and delightful to use. Even the worst colds, sneezing, sniffeling colds with running eyes, are stopped very quickly when the balsamic vapor of Catarrhose is inhaled. Catarrhose acts like a charm on colds, kills them outright, prevents their return a few hours later. For colds, catarrh and throat trouble use only Catarrhose. Complete outfit \$1.00, trial size 25c. at all druggists.

Different Now.

Good beef sold for a cent a pound in the reign of Queen Elizabeth in England. Pork sold at the same price, a chicken at 2 cents and a fat goose at 8 cents.

CHOLERA INFANTUM.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by All Druggists.

Almost a June Snowstorm.

On the 25th day of May, 1838, there was a heavy snowfall and severe cold in western New York. The snow was a foot or so in depth, and many peach trees were broken down. The fruit trees were in blossom, but the severe cold prevented all fruitage.

Bamboo Shoots.

A young shoot of bamboo sticking its head above the ground looks much like a stalk of asparagus. In Japan these young shoots are as much sought for food as asparagus is here.

IF YOU DON'T SLEEP WELL.

It's because your nerves are in a weak, irritable condition. Ferrozone will make them strong and correct the trouble causing your insomnia. "I fell into a state of nervous exhaustion last fall," writes Mrs. J. Stroud, of Dexter. "I was run down, couldn't sleep and felt perfectly miserable. I tried Ferrozone and was quickly benefited. I can recommend Ferrozone to anyone suffering from overwrought nerves and sleeplessness." No tonic is better, try Ferrozone. Price 50c. at druggists.

DRESS FITNESS.

A Potent Factor in Making the Well Gowned Woman.

The definition of a uniformly well gown woman is she who dresses with a strict regard to appropriateness—in other words, one who adapts her mode of attire to the character and form of each and every occasion. In this simple conformity the keynote and secret of the art of dressing is sounded and revealed. Appropriateness, with a large, a very large, capital, should be the guiding motto of every woman's dress inclinations. Along with the aptitude for designing, planning and even creating, there should be assiduously cultivated by every woman a taste for the fitness of attire. This with practice may be acquired and will serve as a more valuable gift than all the other lore relating to this distinctively feminine branch of science.

The woman who is fortunate in the possession of this valued trait and its evincement is often credited with being better attired than she is in reality, for her appearance at any time and upon all occasions is characterized by a distinctive and appropriate individuality, which bears an impress of refined taste and singles her out of a group of gayly, ill appropriately attired women as the best gown among them. A simple though significant rule, which, if regarded, would assist in accomplishing more than even rigid observance to the powerful factors of "style" and "detail," is to dress with unflinching regard to the time, place and character and form of the occasion, and never for an instant swerve from this path of dress fitness, for it is a far more potent feature than is ever considered in the determining of a well gown woman.—New Orleans Times-Democrat.

DAINTY BABY CAP.

How to Make One With a Handkerchief in Five Minutes.

A little baby lies for the most part while in his carriage, and as a result bonnets are quickly rumpled. They are not particularly easy to launder, and it is expensive to have them cleaned. A pretty handkerchief can be made into a dainty little cap in five minutes.

To make the handkerchief cap proceed very much as children do to make a "soldier cap." Fold the handkerchief exactly in half; then fold the two upper or folded corners over to the lower

HANDKERCHIEF CAP AND DIAGRAM.

edge, thus making a triangle. Now fold over the point of this triangle about an inch and finally fold back the two points of the folded over corners about two inches. See diagram. Now open this folded square along the edge A B, so as to leave but one thickness of the handkerchief in the back, supposing the side with folded corners is front. Raise up this front portion so that the folded over points will form the top of the cap. Before opening the cap pin the folds and afterward tack them with needle and thread and fasten on the little rosette bows. This little cap made of a scalloped or lace edged handkerchief is especially pretty, and it fits the little head perfectly. By this ingenious device baby can have a fresh cap every day or two. Quilted silk linings come for muslin caps, or, if desired, one can make them.—Woman's Home Companion.

Repose of Manner.

The air of distinguished repose so sought after by our nervous society woman may be acquired by any one if she will remember that the secret of a reposeful manner simply means the power to totally relax. Much of your nervous energy is lost in nervous fighting. One beauty specialist goes so far as to declare that nothing will make wrinkles quicker than the habit of moving and jerking and that nothing is so fatal to beauty as coughing and wheezing. All such habits are really nervous complaints. To cure all these fidgety movements cultivate the habit of sitting perfectly still, keeping the hands and fingers motionless as long as possible, and relax.

How Babies Cry When They Are Ill.

Mothers are often worried as to what the cries of their infants mean when they seem to be sick or in pain and frequently are apt to diagnose the case wrongly. As a matter of fact, when an infant is dangerously ill it seldom cries, so that when it begins to cry a great deal during a severe illness it is usually a sign of amendment.

When a child suffers from inflammation of the lungs it moans, but rarely cries. When suffering from bronchitis the cry is gruff and rattling. When suffering from croup the cry is sharp and fretful. When hungry it is fretful and wailing.—New York Press.

Where a Ghost Walks.

The Earl of Dryart possesses in the grounds at Ham House, Petersham, the scene of one of Britain's most impressive ghost stories. At certain times in one of the avenues of the estate King Charles I. is to be seen walking with his head under his arm.
