### HUSBAND'S STORY WILL AMAZE HARTLAND

He says: "Adler-ika helped my wife for gas on the stomach and sour stomach in TWENTY MINUTES. It works beyond greatest expectations." Adler-ika acts on BOTH upper and lower bowel removing foul matter which poisoned stomach. Brings out all gasses and sour, decayed food. EXCELLENT for chronic constipation. Guards against appendicitis. Adler-ika removes matter you never thought was in your system and which may have been poisoning you for months. Hartland Drug Co., Ltd.

#### THE HARVEST EXCURSION

August 4th and 18th From Moncton—40,000 Harvesters Expected to Garner Bumper Crop

Canada's bumper crop of golden grain stands ready for harvesting, and the cry has gone forth for workers to garner in the wealth of our western wheat fields.

Forty thousand helpers are wanted—an army of sinewy men to reap and bind that which the fruitful land has so generously brought forth.

Men of the east are called to help the west, and special arrangements are made for their transportation. Special excursions will be run by the Canadian National Railways on August 4th and 18th—the special through excursions trains leaving Moncton on that date will be \$20.20 plus one half cent per mile to points beyond.

Special arrangements have been made to give the harvesters a comfortable journey. The finest type of convertible berth colonist cars are to be used, and special arrangements made for the best of meals and lunches on restaurant cars at very reasonable rates. The Canadian National will furnish the fastest and most comfortable journey to the wheat fields and those who

took the "National Way" last year will remember the splendid service given.

For all particulars regarding rates, service, etc., apply to nearest Ticket Agent, or write General Passenger Department, Moncton, N. B.

#### Card of Thanks

We wish to thank our many friends and all who so untiringly assisted us in our sore affliction and searching for the body of our loved one; also to those who supplied the beautiful flowers, and the choir who rendered very appropriate music at the funeral.

Special accommodations on the trains will be provided for ladies or family parties travelling together. There will also be arrangements provided for passengers procuring food on the journey.

Any further information required can be obtained on application to any Canadian Pacific Agent and excursion tickets are on sale at all our offices.

#### New York and Other Seaports.

As a result of the great war the population of France has decreased 7 per cent, but the population of some of the large cities of France has made a large increase. Lyons, Bordeaux and Marseilles are of special interest to American investors, who have paid many millions of dollars in purchasing bonds issued by these cities. Their gain in population has ranged from 15 to 35 per cent, the largest being that of Marseilles, and it is perhaps significant that Marseilles is the principal port of France on the Mediterranean, remarks the Boston Commercial Bulletin.

As the great seaport of America, New York has made enormous growth in recent years and the population has become so great that not only is New York the largest city in the world but English newspapers now admit that New York has nearly a million more inhabitants than London, which has been for over a century the world's greatest city.

#### Rare Plants in Demand.

In 1893 a scientific man named Drummond discovered one solitary aronia plant in the woods of St. Tammany parish in Louisiana, and it is cherished today at the Arnold arboretum. Now Harvard has written to New Orleans asking to have Louisiana searched again for the rare growth, and the New Orleans Garden society has offered a prize of \$5 for the discovery of another aronia plant. Harvard also wants Louisiana searched for a certain variety of oak, discovered near New Orleans about a century ago, and never seen before.

#### United States Forests.

About one-fourth of the United States, or \$50,000,000 acres, in forests, Forests publicly owned contain about one-fifth of all the timber standing. The remaining four-fifths is privately owned. The original forests of the country covered an area of 800,000,000 acres, and contained a greater quantity and variety of timber than on any area of similar size in the world. The present rate of cutting for all purposes exceeds the annual growth of the forests.
