A. DIXON. THE SUN FOR 1879.

THE SUN will be printed every day during the year to come. Its purpose and aethod will be the same as in the past to present all the news in a readable shape, and to tell the truth though the heavens fall.

The Sun has been, is, and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest newspaper need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American Journal.

The Bush is the newspaper for the people. It is not for the proor man against the rich man, but it seeks to do equal justice to all interests in the community. The Sun has fairly earned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879, than in 1878, 1877, or any year gone by. The Sur will centinue to shine on the wicked with unmitigated brightness.

While the lessons of the past should be constantly kept before the people, The Sur does not propose to moke itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, it has both the disposition and ability to affird its readers the promptest, fullest, and most accurate in elligence of whatever in the wide world is worthy attention. To this end the resources belonging to well-established prosperity will be liberally employed.

We have the means of making The Sur, as a political, a literary and a general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely.

Our rates of subscription remain unchanged.
