DAUGHTER WAS
WEAK AND
NERVOUS

Mother Gave Her Lydia E. Pinkham's Vegetable Compound with Happy Results

Cobourg, Ontario.—"Lydia E. Pinkham's Vegetable Compound was recommended to me for my daughter. She had trouble every month which left her in a weak and nervous condition with a weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She has become regular and feels much better since she began taking the Vegetable Compound and attends school regularly.—Miss. J. J. Toms, Ball St., Cobourg, Ontario.

Every mother who has a daughter suffering from such symptoms should give Lydia E. Pinkham's Vegetable Compound a trial. It is prepared from roots and herbs, and can be taken in safety by young or old. It has been used nearly fifty years, and many women owe their good health today to the timely use of Lydia E. Pinkham's Vegetable Compound.

VIOLENT EARTH
SHOCK FELT IN
UNITED STATES

New York, Jan. 31.—The earth, in its dizzying whirl through space, got off centre for a few moments today and shifted its "poles" or axis to fit the new centre of rotation.

Then in order that it might not be travelling on a "flat wheel," so to speak, a few million tons of solid rock, somewhere off the western coast of the United States, in the bed of the Pacific Ocean, "slipped" a hundred feet or so to even things up.

This is the manner in which professors of geology and seismographic observers account for the violent earth vibrations which demoralized instruments in observers throughout this country today. Thus far the exact location of the huge "slip" has not been determined, although observers from Washington to Berkeley, California, agree that it probably was a few hundred miles off the south of the Columbia River.

The absence of a recorded disruption of the visible surface of the earth or of the huge tidal waves which usually radiate from the scene of an earthquake, leads the observers to believe the "slip" occurred miles below the bed of the ocean. Its violence was attested by the quavering seismographs, which in some instances were thrown from the recording rolls while a "strong" machine at Berkeley was set in motion for the first time in many years.

FLU NOT AS FATAL
IN NEW YORK
AS IN 1918-19

New York, Jan. 31.—Influenza cases in this city have reached epidemic proportions. Health Commissioner Copeland announced tonight in making public a report showing that 813 cases of the disease and 283 cases of pneumonia had been reported during the past 24 hours. There were 43 deaths from the two causes.

Dr. Copeland pointed out that the epidemic this year was much milder than the one of 1918-19.

The comparisons, he explained, show that the disease this year is not as infectious as fatal as it was two years ago.

SUNNY CORNER NOTES.

Sunny Corner, Jan. 30.—Mr. Dunn (our mail driver, is suffering with a severe cold. Mr. Dunn is one of the most obliging drivers we have ever had on the route and we hope he shall soon be able to be around again.

Miss I. E. Mullin was the guest of Miss M. Hubbard on the evening of the 18th.

Mrs. Hubert Matchett who has been up river for the past two months was brought home seriously ill. Dr. Bell is in attendance.

Miss Lauretta Young and Della Taylor were the guests of Mrs. McDonald on Wednesday evening.

Mrs. Margaret Sherrard was calling on friends in Boom Road on Tuesday.

Mr. Teddy Matchett has gone to Lytleton to work with Mr. Elvin Tozer.

Very many are sick in Sunny Corner at present. The flu seems to be the prevailing disease.

Believed Two Could
Live More Cheaply
On Town Than One

Hamilton, Ont., Jan. 28.—In the belief that two could live more cheaply than one, a man who sought relief from the city a few days ago returned two days later with a wife. This case the information Mayor Copley gave to Hon. Walter Rollo this morning at a conference on relief work. Relief Officer McMeney reported another case. When he asked the man where he got the money with which to get married, the bridegroom explained: "A friend of mine was getting married and the minister offered to do the two of us for the price of one."

Still another unemployed man found himself a job by marrying a widow with eight children.

PROCEEDINGS TO
BE TAKEN AGAINST
COUNTY OF KENT

Fredericton, Jan. 23.—Another public health assessment case went against the municipality which had not been made the assessment for purposes of public health which its sub-district board of health had deemed necessary. Mr. Justice Barry handed down judgment today in chambers, the hearing having taken place on Friday last, the crown, representing the department of health, having P. J. Hughes, of Fredericton, as counsel and the municipality of Queens having J. H. McFadden, of Sussex, as counsel.

The judgment of Mr. Justice Barry was that the municipality of Queens must pay the sum of 1,427.05, which was the balance of the 1921 public health assessment which was not paid by the county. An order for the payment was issued. Judge Barry took the ground that there was nothing in the objection that a second request for payment should have been made.

Papers in a similar action against the municipality of Kent have been issued. As the sheriff of that county is ill, papers have not been served yet. Other counties which have refused to pass public health assessments may be prepared to face similar action, as the department is determined not to have its operation interfered with by recalcitrant municipalities with by recalcitrant municipalities.

"BUY AT HOME"

Naming the Montclare

At the Naming Ceremony of the New Canadian Pacific Steamer "Montclare" by Lady McLaren Brown
From left to right: Sir Thomas Fisher, Sir Charles Ellis, Lady McLaren Brown, Lady Gracies, Sir George McLaren Brown, Mr. Kenneth MacKenzie, Sir Thomas Bell and Captain Morris.

WHY SHIPS AS "SHE"?
Inspecting the "model" room before the luncheon, Lady Brown remarked how strange it was that since first they sailed the main ships had always been spoken of as "she." "I suppose," she added, "they made her a woman because they found out that, loved and humoured, she is an angel, but driven—well, she isn't." She thought it was Kipling who said that ships were like women in that they had many secret hopes and dreams. However that might be, her ladyship trusted that the good ship "Montclare," the new C. P. R. Liner, would prove to be what all women hoped and dreamt of—the beautiful, the strong, and the true.

One of the raciest speeches ever heard at a Clyde launch was that by Lady McLaren Brown, following the luncheon at Messrs. Brown's Yard, December 16. While the new Canadian Pacific liner was not put to the water, her ladyship christened the vessel, and as a souvenir she received a beautiful brooch which the recipient declared would give a fresh lease of life to her dress and thereby gratify her husband.

The new Canadian Pacific Steamer "Montclare," 16,200 tons, as she appeared before launching at the Yards of Messrs. John Brown & Co., Clydebank, Scotland. The speaker was the wife of Sir George McLaren Brown, a Canadian, was both eloquent and witty and she European Manager of the C. P. was warmly congratulated on R., who, with a distinguished party, travelled from London prandial oratory, to Liverpool for the launch.
