PLEADS GUILTY OF FORGERY.  
Fred Wright, who was arrested in Edmonton some days ago, and was "Winnipeg" to Winnipeg, pleaded guilty to a charge of having secured by means of forgery some \$220 from the grain firm of McLaughlin & Bull, by whom he was employed as agent at Killarney, Man., to one of obtaining about \$500 by making false entries in his employer's books and on stealing outright \$103. He was remanded at the request of McLaughlin & Bull, the complainants, until next Tuesday for sentence.

Wright was arrested in Edmonton, where he came about the middle of last October. A few days after he had duped his employers. He is well known in Winnipeg and Killarney, and was never before, so far as is known here, involved in any shady dealings.

Most of the money was secured by forging grain purchase orders, and by making false entries of alleged grain purchases. All of the falsifications were committed on Oct. 3, and the name forged was A. Morrison, of Killarney. It is said that Wright's friends will make restitution.

Plans have been completed for the erection of a flour mill at Macleod and another at High River. Elevators of a capacity of 40,000 bushels each will be erected in time to receive this year's crop at Claresholm, Staveley, Parkland, Cayley and Carstairs.

Meetings of the local sections of the Society at Edmonton and Fort Saskatchewan will be held at Edmonton off June 22nd, and at the Port on June 22nd. The object is to decide what the society will do in this district to carry out the objects of the organization. Kind of buildings the society will erect, a mill or an elevator.

### A WAY OUT OF LUMBER FAMINE.

D. R. Fraser & Co., John Walters and the Edmonton Lumber Co., are not yet in a position to accurately estimate their respective losses as a result of the sudden rise in the Saskatchewan river. Friday when thousands of logs and thousands of feet of lumber were carried off the banks on the river bank up the river. "We have not yet received a report from our men up the river as to how much was saved," said W. H. Clark, of the Edmonton Lumber Co.

But there is no question that enough logs and lumber have been cut to cause a serious if not disastrous lumber famine this summer, unless some immediate relief is forthcoming.

The dealers have hit upon a scheme which, it is believed, would materially assist in averting a famine. The plan is to ask the Federal government for special permits to cut logs on government owned timber areas. There are numbers of government limits on the river from Big Island, which is ten miles from the city, which have been cut over and abandoned years ago, but which still have on them some fairly good timber in small quantities. Some years ago John Walters and D. R. Fraser & Co., cut over limits along the river, leaving the popular standing. At that time popular was not saleable.

Lumber is marketable. It is on these limits that the city dealers desire that permission from the government to cut. "We've got to get logs," said Mr. Clark or we're out of business. The city will be without lumber this summer. With a special permit from the government we could probably get logs here in a month or two, if we have to go up to our own limits it will take from six to 12 months.

The board of trade has asked to endorse the dealers' request to be made to the government.

### AFTER A MAN WITH A GUN.

(From Tuesday's Bulletin.)  
A man named Walsh is now under arrest at the police court on a charge of theft. He may also be held on another charge.

Last night, about eight o'clock, Walsh, who has been around the St. Elmo Hotel for some time, was arrested on the opposite side of the street armed with a Mauser rifle, with which, it is alleged, he was waiting the appearance of the hotel bartender, whom, it is alleged, he was about to shoot. When captured, however, it was found that the gun was not loaded.

The charge on which he is at present held is one of theft. The information given was to the effect that Walsh had stolen a watch from the pocket of a vest while it was hanging in the basement. The watch was soon missed and was suspected and personal later in the day when he was found at the Queen's Hotel he handed it over to the owner.

### CIRCUS CONTRACTING AGENT IN TOWN.

Jas. C. Stuart, of the Greater Norris & Rowe Shows Buying Supplies.  
Mr. Jas. C. Stuart, general contracting agent of the Greater Norris & Rowe Circus, museum and hippodrome, is in town today purchasing large quantities of supplies, closing contracts for many extra teams for use of the bill posters who advertise the country for miles around, and arranging other details for the coming circus exhibition. Said Mr. Stuart: "Since I was here last many changes and improvements have been added to our big shows. We now travel in three sections of 14 cars each, making a train of 42 cars. We are the largest and best equipped circus that will visit this section this year. It is acknowledged that a circus is a distinct benefit to the towns it exhibits in, for as soon as we roll into town large crowds are on hand to watch the unloading, which is always interesting. The route has been so arranged that we get in very early. This allows for the parade to start on time, and as a consequence the streets are thronged on the day of exhibition. We have three big advance cars this year. Each car carries a crew of twenty men. Two of these cars devote their entire time to billing the surrounding country, and

### IMPROVEMENT OF INLAND FISHERIES.

Eight Injured in Wreck.

Spokane, June 19.—Eight men were injured, one probably fatally, in a wreck of a freight train near Spokane Bridge today. Most of the injured were Austrian railroad hands.

Mr. Andrew Halkett, naturalist, of the Marine and Fisheries Department, Ottawa, was in town yesterday. Mr. Halkett is well known throughout Eastern Canada as the leading Canadian authority upon matters relating to fish and fish culture.

He has come to the west in the interests of the Fisheries Department in Ottawa. His mission concerns the improvement of the fisheries in inland waters here; also to collect specimens of native fish for the museum in Ottawa. He has been asked also to make a duplicate collection for the Province of Alberta and Saskatchewan.

Mr. Halkett left today for the Qu'Appelle Lakes, whence he will return in about a month or six weeks' time to this district. He has not yet decided what waters he will visit here, but speaks of Beaver Lake, Cooking Lake and some of the larger waters. He has a long list of lakes which he wishes to visit, but owing to the extent of the territory to be covered it will be impossible for him to study many of them this year. If his report proves satisfactory to the government he will probably come again next summer.

Mr. Halkett considers from what source he has been able to make in the brief time of observation that although white fish are most usually met with in these waters, that there are many other sorts inhabiting the streams and lakes, and that the conditions are favorable to the greater production of these.

Mr. Halkett has done much to bring the fisheries museum at Ottawa to its present creditable condition as a national institution.

It is not known when he fell over the bank but it could not have been long for he would shortly have been seen as a number of men were working around the place. Despite the fact that the decline is very steep and he rolled down fifty or fifty feet, no serious injuries were inflicted. White comes from Horse Hills.
