Now, then, ladies! It's up to you. Prices are low and values big.

S. MILLEY.

A Cloudy Day.

The sky is dark, the rain is streaming, the breezes make despairing moans, and by the window I sit dreaming and pondering on such a dark and gloomy day. I'd rather think of showings and hearse and sextons shovelling the clay. My grandma says: "Don't sit rephing!" Don't think about the grist's dead! Behind the clouds the sun is shining, as Milton or some fellow said. That's just the way it always chances when I in comfort mourn and brood; some optimist around me prances and springs a sunshine platitude. Your optimist goes round demanding that smiles be long and sighs be brief; it's past some people's understanding that there's a wholesome joy in grief. I'm happiest when I'm saddest. I'm at my best when feeling pained, and I exult when storms are maddest, the elements upon a drunk. The sunshine

AN ENDORSEMENT FROM SOUTH AFRICA

Mr. B. J. Hassett, Sanitary Manager for the Bloemfontein Corporation, South Africa, seems to have formed a very high opinion of that well known Canadian remedy, Douglas' Egyptian Liniment. This is what he writes: "I have used Douglas' Egyptian Liniment in our stables, hence our repeated orders for same. I have never used a medicine to stop bleeding, cure foot rot, sprains or any old sores, with such good results. I find it equally good for human beings, and am writing this as I consider it is everyone's duty to acknowledge a good article." In every home and in every stable there is frequently an urgent need for a liniment to stop bleeding, relieve pain, heal wounds and clean out sores. What's the use of prolonging the agony and wasting time with any other liniment but the best—Douglas' Egyptian Liniment? It acts quickly and surely, and its benefits are permanent. 69 age at all dealers. Free sample on request. Douglas & Co., Naparua, Ont.

Fishery Reports.

The Board of Trade are in receipt of reports from the fishery. Perryland—Poor prospects for both codfish and bait; boats unable to get to the grounds. Bargo and LaPelle.—Good prospects for codfish; but no squid, and herring scarce. Mr. Main.—All the schooners returned home from the Labrador. Fortune—Slight improvement in the shore fishery; herring of large size struck in last week for three days, but no sign of them since, though there are plenty of small; some squid at points down the Bay. Burn.—Good sign of codfish and sufficient herring for bait, but no squid.

Spare the Trees.

Last fall Councillor Martin at his own private expense planted a number of trees around the margin of the old cemetery on Long's Hill, but found much to his annoyance that boys who traverse the place there down. This summer he repeated the action but again finds that most of the trees have been destroyed in a similar manner. The Councillor deserves credit for his action but it is a pity to see such public spirit receiving a set back at the hands of thoughtless youths.

GETTING BETTER.—Mr. S. E. Garland, the well known stationer and bookseller, who underwent a serious operation some weeks ago is improving fast and will be at business shortly.

The Poor Trapper and Furring Season.

Editor Evening Telegram.
Dear Sir.—Please allow me space in your valuable paper to make a few remarks concerning the furring animals of this island. As I am a trapper with twenty years' experience, I know a little about them. The Government has made the season for catching them shorter. I would like to know what it's for. Is it to keep down the poor man? It seems like it. Where is the so-called People's Party? Now is a chance for them, as the fur season opens. The first of October and closes the fifteenth of December, that is two and a half months. Well, they're only in their prime then, and the season is not well furred in October. Otter, Fox and Lynx are not well furred in November, and for muskrat, it is as good to have the season open as to the first of May, there won't be much trapped before that, unless there are different winters than we are having. Well, I know there is a difference in fur on this island as they're better furred north than south. I trapped last winter west, north and south, but the season is too short now for the poor man to make a living out of them. We thought we had the poor man's party in the so-called People's Party, but it seems like the rich man's party. The time of reckoning is coming, when the poor man will have the same chance and will put them where they were before. You must excuse this, Mr. Editor, as I am a poor writer.
Thanking you for space, I remain,
Yours truly,
A TRAPPER.
St. Mary's Bay, Nov. 1, 1912.

Objects to the Importation.

Editor Evening Telegram.
Dear Sir.—In today's issue I noticed an account of a meeting of the Board of Trade re the 'New Hotel.' Is this to be erected by a local concern, if so, what are the reasons for making about getting a construction expert down from Montreal?
Have we not architects and contractors here in St. John's as smart and reliable as those in other countries? Our men have studied under the same class of men; the engineers and experts of other countries have, and I think the work they have done (our men) shows their ability. Take for instance the Seamen's Institute, Sd. Clothing Factory Building, St. Patrick's Church, etc., these structures rank with any American and Canadian structures for workmanship, durability, etc.
We have also many young men taking technical courses from Correspondence Colleges and otherwise, who should be given an opportunity to show their ability.
Instead of giving outsiders such jobs why not give our own countrymen a chance instead of them going to foreign lands in search of work.
Thanking you for space, Mr. Editor,
Yours, etc.,
DE FACTO.
St. John's, Nov. 7, 1912.

Cable News.

Special Evening Telegram.
SOFIA, Nov. 6.
The Turkish Army, defeated by the Servians at Kumanovo and Kupriti, took up positions in the mountainous districts of Kupriti and Perlepe where the roads are practically impassable. As the Servian artillery was unable to follow, the infantry was ordered to advance, and, in doing so, a number of our artillery fire from the Turks, took position after position at the point of the bayonet. The Servian troops occupied Dzhengirli, Pasha south-east of Ipek, where they found the big railway bridge intact. The Montenegrin and Servian Army joined hands at Ipek.
VIENNA, Nov. 6.
King Nicholas of Montenegro discussed the intentions of the Balkan States, to-day, in an interview with the correspondent of the Vienna Tagblatt. He said that while the Balkan nations will settle their affairs for themselves, their victories had not made them so daring as to forget to accommodate their wishes to the general situation in Europe.

CONSTANTINOPLE, Nov. 6.
The public are dumbfounded at the repeated Turkish reverses, and now recognize that the end has come. The Mussulman population of the towns along the Dardanelles, although depressed, maintain calm. Some anti-Greek incidents of small importance are reported to have occurred in the outlying villages.

SOFIA, this a.m.
The Turkish Army commanded by Nazim Pasha was completely crushed in the great battle of the last two days. According to semi-official reports, the Turks lost in killed and wounded more than double their losses at Lule Burgas. The Bulgarians are pursuing the defeated enemy.

BELGRADE, this a.m.
The town of Krashevo, 20 miles north of Monastir, was captured by the Servians, after a short resistance. A number of correspondents who have returned from headquarters, say no further war operations in Macedonia are expected.

FAST STREET CAR DRIVING.
Motormen should exercise a little more discretion when driving street cars along Duckworth Street, at the foot of Cochrane Street, and the authorities in charge should see that the fast driving practice is stopped. Yesterday a woman came near being run over by a tram going west at a rapid rate. Five years ago a tragedy occurred at the same place, mentioned above, when a boy was run over and killed instantly.

TROUBLE ON WHARF.—Yesterday there was some trouble at Bishop & Sons premises between a truckman and the superintendent of the place. The police had to interfere and the matter may be brought before the courts.

Keep to the Right

Mrs. Tucker and a friend from Head's Content started out to do some shopping yesterday, and as they went down Water Street Mrs. Tucker said 'twas very annoying, for I took all your time to avoid a head-on collision, as everybody walked just how they liked, some on the left, more on the right, while others 'batted' their way in a zig-zag fashion. Powerful men carrying trunks "heeled it for Colliers" and in their eagerness to be on time actually run foul of delicate women, knocking them senseless, while others with anything from a sample of fish to a barrel of berries took up the whole sidewalk and drove pedestrians of the meeker type outside in the middle of the street.
Mrs. Tucker says it's time to introduce some method for pedestrians on Water Street, and if all would keep to the right 'twould be much easier for all concerned and would prevent head-on collisions which one of these days may prove disastrous. In the days gone by 'twas a common sight to see a hand cart being pushed along the sidewalk containing a feather bed or an iron bedstead, but of late years these hindrances to the pedestrians have been consigned to the middle of the street, but yet there is room for further improvement and she would suggest that pedestrians keep to the right, for she believes once we get into the knack of doing so, we will soon discover that it will be far more agreeable to all concerned and people will rejoice in the fact that they can do their business without being put in a fair way of being conducted to the Hospital because of a head-on collision that knocked the wind out of them.
Horses and carts have a rule of the road that compels them to keep to the left and this wasn't so, accidents would happen every hour in the day, and now Mrs. Tucker says we should have a rule for pedestrians, or all the weaker ones will have to quit Water Street or run the risk of being returned to the bosom of their families, cripples for life. Keep to the right in the rush and see how well it will work. You'll get there just the same and get there much easier.
TIM SHANNAHAN.

STAFFORD'S LINIMENT.

Fogota Here.

The S. S. Fogota, Capt. Baxter Harbour, arrived here at 4 p.m. yesterday from the Northwest. On leaving here Tuesday week she met a severe N. E. gale and had to remain all night for shelter at the back side of Bay de Verde. It took the ship seven hours to make the run there, which under ordinary conditions would be done in two. A terrific sea ran all the way north and she did not reach Twillingate until 9 a.m. Monday. Snow squalls prevailed Saturday and Sunday. The splendid weather on the return trip had about a half cargo including 100 casks codfish. She brought up several passengers.

We believe MINARD'S LINIMENT is the best.

ST. JOHN, N.B., Jan. 10, '07.
Fillmore & Morris, Amherst, N.S.
Dear Sirs,—We telegraphed you to-day to ship immediately 5 Gross Mathieu's Syrup. We hope you will send it promptly, but if you are not able to send the whole amount at once, please send us some of our stock is getting low.
D. MARTIN.
NATIONAL DRUG & CHEM. CO.

ORANGEDALE, C.B., Aug. 7, '08.
Blacking & Mercantile Co.'s, Ltd., Amherst, N.S.
Dear Sirs,—We have nothing but good to say of Mathieu's Syrup and can conscientiously describe it as the most popular and successful Cough Medicine we handle. Owing to the absence of any drug store in this vicinity there is a great variety of proprietary medicine sold in the course of the year, and Mathieu's Syrup pre-eminently leads in its own class. Yours sincerely,
J. L. MATHIEU Co., Sherbrooke, Can.
