THE HOME OF GOOD SHOES.

Kelligrews Briefs.

The people of Kelligrews and vicinity were very much pleased on Thursday evening, with a concert given by the city friends. Mrs. O'Neill, who is spending the summer at the Anchor, was the chief promoter, and much credit is due her for the excellent programme. Refreshments were served after the concert, after which a dance was held in the S.U.F. hall. The proceeds went to swell the new church fund.

On Wednesday the people of Long Pond and Foxtrap held their annual Garden Party, and although the day was not what one would desire, yet a goodly number attended the sports. A dance was held in the L.O.A. hall at night. We hear that the proceeds were away above expectations, which will be devoted to church purposes.

The Motor Association is taking an interest in the roads on this shore, and the improvements that are being made are wonderful. The main road is being widened wherever possible and is also receiving a good coating of gravel.

We are also glad to see that the Motor Association has caused posters to be placed in convenient places, stating that speeding is strictly prohibited, and that the rate of travel is not to exceed twenty miles per hour, yet in spite of the regulations, some drivers think that instead of cars they are driving aeroplanes, but the quicker these jehus remember that it's the former and not the latter, the better. Many of the farmers have practically all their hay crop in, but it has

been almost a failure, which means a heavy loss to the people on this shore, as the greater part of them go in for cattle raising. The potato crop is promising good, and unless we get a frost within the next two weeks, it will be a record one.

All the schools will re-open during next week, and with the exception of the Upper Dept. of the High, they will be staffed with new teachers. We wish them success in their year's work.

CORRESPONDENT.

Kelligrews, Aug. 27, 1920.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question. No-To-Bac is made by the owners of Cascarats; therefore is thoroughly reliable.

Annual Meeting.

BELL ISLAND FOOTBALL LEAGUE.

The Annual Meeting of the Bell Island Football League was held this week in the Dominion Fire Hall as the natural outcome of the great interest manifested in sport this season. President C. F. Taylor occupied the chair, with Mr. J. M. Greene as Secretary and the following delegates were invited: Nova Scotia, C. Main and E. Spencer; G.W.V.A., Lieut. R. Burnham; Wabana, J. A. Hughes and W. Billingsley; Dominions, F. Jardipe, J.P., R. Costigan and N. Sheppard; Star, D. J. Jackman, T. Neary and A. Murphy; Cadets, Lieut. J. Connors, P. Murphy, J. F. McEvoy. Capt. Leo Murphy, who was Secretary of the League until going on service overseas, was present by the President's invitation.

It was decided to once more compete for the Kent-Dwyer Cup and three teams entered for the trophy, the Dominion Fire Brigade, the Nova Scotians and the Cadets. The contests will be held this year on the Star field, which will be made suitable for the purpose and will be considerably improved. A committee, comprising Messrs. R. Costigan and R. Burnham from the League, and Messrs. R. D. Walsh and D. J. Jackman from the Star Society, will make the necessary arrangements in this connection. The first game will take place on next Wednesday evening, and the League meets on Friday to enter players and arrange the season's fixtures. The election of officers resulted in the return of the old officers:

President—C. F. Taylor.
Vice-President—C. Main.
Hon. Secretary—J. M. Greene.
Treasurer—E. Spencer.

All of these officials have been identified with the sporting pastimes of Bell Island for the past ten to fifteen years, and some of them have held office during all that period. That the games will be interesting and well contested will be the sincere wish of all the St. John's "fans" who have followed the sporting record of the Iron Isle.

Mealtime is Too Slow for Him Now, Says Jas. McLean

St. John Man Eats Anything And Is Hungry All The Time Since Taking Tanlac Freed Him Of Indigestion.

"I certainly count myself lucky that I got Tanlac," said Jas. McLean, 229 City Road, St. John, N.B., "for the medicine has freed me of a case of stomach trouble that had made me miserable for over three years. "Everything I ate seemed like a lump in my stomach and I suffered so at times I could hardly stand it. My food would sour almost as soon as I had eaten it and I would bloat up with gas until I simply had to gasp for breath. My appetite left me and it was a rare thing for me to eat any breakfast. In fact, I seldom ate anything except at noon and very little then, as everything caused me so much trouble. This gas on my stomach bothered me so much at night that I could never get sufficient sleep. Why, many a night I was in so much pain that I never got a wink of sleep. Severe pains often came in my side while at my work and when they struck me I could hardly stay on the job.

"I finally began taking Tanlac, as I had heard so much about it, and now I can't say enough for it. My troubles are all gone and I have been helped in every way. My stomach acts just like a new one for I can eat anything set before me and never feel a touch of indigestion and a hard day's work. Tanlac has certainly done the work for me and I am glad to pass the good word along."

Tanlac is sold in St. John's by M. Connors, by Reg. Sullivan, Pouch Cove; Soun Island Store, Sound Island; Dennis Flynn, Avondale; J. J. O'Brien, Cape Broyle; J. W. Smith, Baine Harbor; W. W. Burdock, Ellersham; John Morey, Fermeuse; Mrs. Jos. Quinn, Renewal—adv.

The Decline in Exchange.

A writer in London dealing with the recent fall in sterling exchange from the levels reached a few weeks ago, gives three reasons for the decline, one of which may be termed commercial, another financial, and still another political. All of these of course tend towards the same conclusion.

In the first place, he claims, the decline is due to the abnormally heavy purchases of commodities which were made on the American side by European countries, including wheat. This, he claims, is a season of the year when a fall generally does occur, and this condition would appear only to be exaggerated by other contingent circumstances.

Then, again, the way in which France is handling the matter of repaying her share of the Anglo-French loan is cited as another contributory cause. While there does not seem to be much doubt existing in financiers' minds that France will make her payments in due course, her methods do not seem to indicate that the system of payments has yet been clearly worked out. At least conflicting opinions seem to render the situation rather opaque which tends to weaken sterling.

The third factor which he outlines as having to do with the fall in sterling exchange is the political situation in Europe, where naturally, if the Allies should become involved in war with Russia to protect Poland, further huge outlays will have to be made for the purchase of supplies and munitions.

These causes as outlined show very clearly how sensitive the exchange markets are in financial conditions and what a ready barometer they are to international conditions.—Halifax Morning Chronicle.

Black felt hats can be cleaned with a teaspoonful of ammonia mixed with half a cupful of cold tea.

MINARD'S LINIMENT RELIEVES DYPHTHERIA.

Not the Only Producer.

NEWFOUNDLAND HAS NUMEROUS COMPETITORS.

"Imports of dried fish from Newfoundland by Halifax merchants are at a standstill," says the Maritime Merchant. "The Newfoundland Government have issued an order that none can be shipped to Halifax unless the shipper shows that he has a contract at not less than \$12.00 per cwt. for fish delivered here. At the same time, the local price among Newfoundland buyers is reported at \$8.00 to \$10.00.

"The theory of the Newfoundland Government is that they are a strong enough factor in the world's fish supply to dictate selling prices.

"There is no doubt that in Northern Brazil and Italy they are a big factor. But they are not the only producers of codfish and every day the country that can give lower prices will be eating into their trade connection no matter how well established it is.

"The Norwegians have a fair supply of new season's fish and as business is none too good with them it should be obvious that they will take every possible advantage of the conditions which Newfoundland has created.

"It is a difficult matter indeed to regulate the price of a commodity even when you possess an absolute monopoly of that commodity; how much more difficult then must the effort be when you have to divide the monopoly 50-50 with other people.

"To the student of economics it will be interesting to see how the Newfoundland efforts pan out."

World's Music Marathon

Several musicians have essayed recently to break the record of eighty-two hours' continuous pianoforte playing set up some years ago by Professor Schroeder, of New York but so far none has succeeded.

This is hardly to be wondered at for the task is a tremendous one.

In playing the accompaniment to an ordinary three-verse song, with chorus, between 2,000 and 3,000 notes will be struck. A professional lady pianist playing a piece by Mendelssohn was found by actual count to have struck 5,595 notes in four minutes and three seconds, or at the rate of considerably over 1,200 notes a minute.

Of course, however, the performer against time does not play nearly so rapidly as this. Halve it, and say that he strikes 600 notes per minute. Even then he would play nearly three million notes before completing his self-appointed task and setting up a new record.

And each one of these millions of notes involves separate and distinct movements of fingers, wrists, elbows and arms. Small wonder that the non-stop would-be record-breaker finds it necessary to bandage tightly his forearms in order to obviate swelling, and to have the piano keys constantly sprayed with methylated spirit to prevent his finger-tips from cracking.

Off With the Old Love.

General Sir Richard Wingate, one of the new baronets, is found of telling this story of the late Lord Kitchener, whose Chief Intelligence Officer he was for so many years in the Sudan. "On K. of K.'s staff out there," he says, "was a very young officer, who one day applied for leave in order to go to England to be married.

"Kitchener, who was averse to his officers getting married, frowned, then said:

"Lieutenant Blank, you're not yet twenty-five. Wait a year. If then you still desire to do this thing you shall have leave."

"The stipulated period passed. The officer once more proffered his request.

"After thinking it over for twelve months you still wish to marry?" said Kitchener.

"Yes, sir."

"Very well, you shall have your furlough. And frankly, my boy, I scarcely thought there was so much constancy in the masculine world."

"The subaltern marched to the door, but turned to say as he was leaving:

"Thank you, sir. Only it's not the same girl."
