AQUATIO.

Its NAVAHOE WON.

London, Aug. 6.—A race open for yacht above 40 racing took place yesterday under the auspices of the Royal Southamptor Yacht Club. The course covered a distance of 42 miles. The starters were the Amorican yacht Navahoe and the Calluna, the former winning the race. The time of the finish was: Navahoe, 4 hours, 34 minutes and 12 seconds; Calluna, 4 hours, 3 minues and 20 seconds. The Navahoe had 2 minutes and 42 seconds to take, so she had plenty of time to give way.

ITHE HAMILTON REGATTA.

HAMILTON, Aug. 6.—The second day's racing yesterday in connection with the AQUATIC.

A. A. O. regatta was commenced und most favorable circumstan before the races were more than half completed the rain came down in torrents, and the three remaining events were much delayed. The weather cleared again, and two more races were run off, when the rain again came down heavily, and it was nearly 5 o'clock before the last race was started. About 6,000 people witnessed the races, which were all rowed on the lake side, as the bay course was rather rough. The junior doubles, with three starting crews, was the first race. They had just not well started when the Dons fouled the Torontos, and the former were disqualified, leaving the race to be rowed between the Argonauts and Torontos. It was a pretty well contested race between the two. The fore the races were more than half

leaving the race to be rowed between the Argonauts and Torontos. It was a pretty well contested race between the two. The Torontos forged two lengths ahead, but they were outside the buey and the race was given to the Argonauts.

The senior single was expected to be an exciting race, but Eyan got over into Hedley's water twice, and when within half a mile of the finish he fouled the American sculler, and both men were passed by E. A. Thompson, who won with ease.

The jounior singles was won by Romler, the favorite, with Russell second and O'Conner third.

In the senior doubles Curran and Gray, the Buffalo pair, got away first, and the race promised to be one of the best, the contest being between the Vespers and Buffalo crew. Half a mile from the finish Curran and Gray were leading the Vesper pair by a good two lengths, when the seat of the former crew's beat got displaced and they lost several lengths in stopping to fix it. The Vespers won the race, with the Argonauts second.

The juntor fours had three competing craws—the Teenmans of Wellwertling or any and the proper was the Teenmans of Wellwertling or any and the competing craws—the Teenmans of Wellwertling or any and the contest of the form out to the gount of the tree competing craws—the Teenmans of Wellwertling or any and the competing craws—the Teenmans of the form of the fourth of the form of the fourth of the form of the fourth of th

Argonauts second.

The junior fours had three competing crews—the Tecumsehs, of Walkerville, Torontos, and Mutuals, of Detroit. The Ottawas were disqualified for fouling Toronto. The race was between the Toronto and Walkerville crews, but the Tecumsehs proved too much for the Torontos and won the race by five lengths.

The rudder of the Tecumsehs broke when they had rowed about half the distance, but they quickly snapped it off and won the race without it. The Torontos were second and Mutuals third.

The senior four race was got off at dusk.

Mr. Ballantyne. Prof. Robertson quoted a Montreal paper

as having copied the report from a Listowel paper, and then stated his reasons for not having a July exhibit site the Columbia. After doing so well in June he thought the next exhibition should be put off unit of this. He asked all farmers to send their cheeses to Ingersoll not later than Sept. 26 for the Cotober exhibit. He also and vised them to make the finest and neatest other than the state of the professor's attention, in it there are the states of the professor's attention, in it has he asked all farmers to send that the could not be sold, and a few mistages. He again accessed the professor's attention, in it has he had not shipped butter in time and was no business man. The price realized perpound by farmers by reason of this movement was 22.96 cents a pound. The farmers professor was a for sold by the pound by farmers by reason of this movement was 22.96 cents a pound. The farmers professor was a for the state of the pounds, plus the butter did not always sell at that price. "Fart of the butter did not always sell at that price. "Fart of the butter of the professor was the state of large and paid the difference mystor."

Mr. Ballantyne—When did these factory, which, Mr. Robertson claimed, read the following a professor, and paid the difference mystor."

Mr. Ballantyne—When did these factory with the finest shipped?

Prof. Robertson—About the latter part of November I think.

Mr. Ballantyne—Owe of I can, It's a first part of November I think.

Mr. Ballantyne—Owe of I can, It's a first part of November I think.

Mr. Ballantyne—Owe of I can, It's a first part of November I think.

Mr. Ballantyne—Give the dates, please.

"Teo, Robertson—Labout the latter part of November I think.

Mr. Ballantyne—Give the dates, please.

Mr. Ballantyne—Give the dates, please.

"Teo, Robertson—Labout the latter part of November I think.

Mr. Ballantyne—Give the dates, please.

"Teo, Robertson—Labout the latter part of November I think.

Mr. Ballantyne—Give the date Ballantyne of saying behind his back that he had not shipped butter in time and was no business man. The price realized per pound by farmers by reason of this movement was 22.96 cents a pound. The farmers profited to the extent of 90 to 95 cents a hundred pounds, plun the buttermilk and the skimmilk. The partons realized this money, even if the butter did not always sell at that price. "Part of the butter sent to England," said Mr. Robertson, "was held too long, against my express wish, and sold for a lower price, and I, as in honor bound, went down in my pocket and paid the difference myself."

Mr. Ballantyne—When did these factories commence to make butter?

Prof. Robertson—They commenced to make butter the fall before last, about the month of November I think.

Mr. Ballantyne—And when was the butter shipped?

Prof. Robertson—About the latter part of November I think.

Mr. Ballantyne—Give the dates, please.

Prof. Robertson—I can't do it now.

Mr. Ballantyne—O well I can, It's a question of butter improving with age.

"The people of Canada," replied the professor, as he prepared his final broadside "know me too well to believe anything said against me by the individual I have been speaking of to-day. I come to-day to say that I have justified my course, and the results have vindicated the plans we made. We have fought a good fight, and I am your faithful steward and obedient servant."

With a profound salaam the speaker gathered his notes together and took his seat.

HONORABLE THOMAS BALLANTYNE

mic. We have fought a good figst, and about the both me equally expected his notes together and clock his meanity throughout at the meanity throughout as the meanity of the probably had been to manify.

States exhibitors represented some of the largest and best cheese factories in the world, and that they had more experience than ours in this business, yet the highest

world, and that they had more experience than ours in this business, yet the highest point of merit obtained by them was 96, was 100. This was a victory of which interest in interest, in the interest in interest in interest, yet in interest, yet in interest in interest, yet in interest in interest in interest in interest, yet in interest, yet in interest in interest, yet in interest,

there is not a part of this country to which I have not gone and paid my expenses.

(Applause.)

"Mr. Casawell and myself selected the cheese for the Contennial. We selected it from every month and made a continuous exhibit. Frof. Robertson endeavors to justify his course, but while we are not exhibiting in Chicago during the ammer months, the Americans are, and they are blowing their horns at a great rate as a result. Mr. Robertson has most unfairly, but ungenerously and most untruthfully and no one knows it better than himself—a accound me of being jealous of Quebec. Ingersoil cheese has always got the highest price paid for Canadian cheese, and nothing it could be more unfair or untrue than to achie case me of being jealous of Quebec.

In "As iar as I know, and I don't claim any or credit, I was the individual to suggest the value of the means they took—namely to employ in the winterers. That was our recommendation, of New York has imitated us, England, Wisbec chain and Quabee have followed our exhand the proposed in the improvement of the proposed in the instruments that have been obtained in the woods.

The Middleton and Bayham Cheese Company made a shipment of cheese the other day which was billed directly to Glasgow.

PERTH.

pany made a shipment of cheese the other day which was billed directly to Glasgow. PERTH.

Word has been received from Esmdale, Manitoba, of the death of Adam Mitchell, only son of Mr. James Mitchell, formerly of St. Marys, and nophew of the chief constable of that town, which took place on July 17. He and his mother drove to Rumpford, and when hitching up to leave for home he thought there was something wrong with the horse's foot. He stooped down to feel the foot when the horse struck at a fly and his Adam near the temple. The stroke did not seem serious, not even leaving a mark, and they proceeded homeward, but before arriving there he complained of headache. He unhitched the horse, and afterwards laid down and had a long sleep, but awoke suffering the greatest pain. In a short time he was unconscious, and he died in a day.

a short time he was unconscious, and he died in a day.

Charles Longeway, Logan, had the honor of bringing the first grist of new wheat to the Mitchell mills this year. The variety was Democrat, and the variety good and plump. It tested 61½ pounds to the bushel. Complaints are made that the Presbyterian cemetery in Mitchell has been visited at various times during the summer and graves maliciously desecrated. Some nights ago several flower pots were broken on the grave of the late Joseph Nichols, and a number of choice flowers uprooted and carried away from the grave of Mrs. David Hughey.

Scats in the Central Methodist Church, Stratford, are now free.

WELLAND.

WELLAND.

John Tucker, of Drummondville, the young man who was so seriously injured at Crystal Beach last week in diving into the water and striking on his head, died Saturday morning at his home in Lundy's Lane.
