As to backing down on Confederation the speaker repudiated it, and gave his explana-tion of the source pursued at the Yale Con-vention, which he held was legitimate. It was when he found that nothing could be done at present with Confederating the Colony with Canada that the matter was dropped. [At this juncture there was high talk about lunatics,' ' asses,' &c., which it was feared ould create much angry feeling.] Mr DeCosmos said his principles would bear in-vestigation ; if they did not, he did not wish restigation ; if they did not, he did not with to be returned—be would support a non-sectarian school system—he was in favor of taxing animproved and unoccupied lands— look for instance, said Mr DeCosmos—from the Indian Beserve to Parson's Bridge! My policy, if elected, would be, not to shape a policy to the injury of any of our interests— a discriminating tariff that would foster every

interest to the injury of none; he totally denied the accusation with trying to sell the Colony at 80 cents a-bead. [We understood the speaker to explain that in regard to the latter there would be a revenue of something like \$24 per head per annum.] Mr Bishop wished to know that in the event of Mr DeCosmos being defeated, whether Mr Green had not the intention to hand over the district, and if Mr DeCosmos had not supplied funds for the purpose. In a previous letter I stated that the only obstacle to the immediate extension of the Dominion westward, was the slatus of the Indson Bay Company to the Northwest fore the I Imperial Government, will sauction their incorporation with Canada; and in rder to get around this difficulty and clean the way for the negotiations, the very last act that passed the Imperial Parliament prior to its dissolution was one empowering the Canadian Government to negotiate and close with the Hudson Bay Company for the immediate extinction of their claims; in case of the disagreement of the contracting parties, the act populitutes the Imperial Government the arbitrator. This arrangement has been accepted by both the Canadian Government and the Hudson Bay Company, and the former only await the termination of the ations in England to send home a delegaion to meet the magnates of Fenchurch street. (this month) The elections will be over in Oct. The delegation will probably leave here in November, and commence operation December hand so deeply are the sympathie of the Canadian people enlisted in our so anxious are they to restore to us our o stitutional privileges that no sacrifice on their part that will ensure our speedy deliveran will be deemed too great, and any unnecessary delay in the negotiations, would render the Canadian Government so anpopular as to compel its retirement. But there hesitancy on the part of Sir John A Mac donald and his Ministry in this matter ; they are as wide awake as the most patriotic Br Columbian to the importance of including the whole of British North America in one grand Confederation. It is the policy of the party now in power, and the necessary delay Kich has already occurred in arranging preminaries has been seized upon by the be a change of Ministry. With then the two great parties, of the Dominion committed to our interests, the Imperial Government afford-ing every facility for the transfer, and the

Hudson Bay Company anxions to sell ontite claims, how is a failure possible 1. As for our Local Government, it will be swept away like chaff, should it offer an opt reath can make it as a breath And no interference with the Imperial policy would be tolerated for a moment from Gov.
