SPECIAL TO ADE DAILY BRITISH COLONIST

NEW WESTMINSTER, July 20-Fires still continue raging in the immediate neighborhood of the town. The Fire Co. have been kept on almost constant duty for the last two days, but even against their efforts the devouring element encroaches. Great efforts will have to be made to day in order to save the saw mill and other buildings at the lower end of the town. The plank walks connecting them with the town have caught. The heat is intense. The extrordinary run of salmon in the Fraser still continues; nothing within the recollection of the earliest settlers equals it. Fifteen hundred barrels of prime salmon will be put up here this summer.

European Items.

The son of Czarewitch, born on the 7th, received the name of Alexander. From August, 1866 to March, 1869, the revolution in Candia cost Turkey

The Madrid Gazette of the 5th contains a decree of the Minister of the Colonies, reducing the direct taxes by fifty per cent in the colonial possessions, and ordering that the decrease of revenue his measure met by a small export duty on sugar, tobacco and rum.

The results of thirty-one elections to to the Holland Chamber of Deputies have come to hand. Of the successful candidates twenty are liberals, fourteenof whom sat in the last Chamber, and eleven are conservatives, of whom three are new members. A second balloting will be necessary in five electoral districts,

The Tagblett, of Vienns, published the Austrian War Budget for 1870, which amounts to 74,966,000 florins, or five millions more than in 1869. The same paper asserts that the Minister of War will have to move for an extraordinary credit of five to six millions of florins. The War Budget for 1870 is calculated on the basis of a strength of 800,000 men.

The following is a copy of one of the place ards recently posted in Hanover:—"Dear fellow citizens, the King of Prussia is coming among us. Let us show him by our demeanour that if he has vanquished our kingdom by force, he has not conquered our hearts."
these bils were simultaneously posted in several cities and a packet of twelve was sent to Count Bismarck.

It is announced that General Fleury, aidede-camp of the Emperor Napoleon, has been appointed French Minister at the Court of Italy. General Fleury has alreasy fulfilled several important missions, and the Patrie says that his appointment at the moment when a marked rapprochement is taking place between France, Austria and Italy is a fact of the utmost interest.

The Morgen Post of Vienna announces that some grave dissensions which broke out between the Austrian Minister of war and the Archdukes Albert, Leopold and William, have decided the latter to abandon the posts they respectively occupied as inspectors of the army, of engineers and of artillery in the Austrian army.

The Belgian government has proposed to the King to dissolve the Senate in consequence of its having for the second time rejected the bill for the abolition of imprisonment for debt .. The Court is expected to leave on the 15th for Spa. Some princes and princesses of the House of Orleans and also the Grand Duke Constantine of Russia are to visit

this place. The damages caused to the kiosks, the markets and the shops during the late Paris riots is estimated at 60,000f. But to this must be added the losses incurred by the cafes and other establish. mente on the Boulevards, closed about 8 o'clock, and thus deprived of the sale necessary to meet their enormous ex-penses. The exasperation of the pro-

prietors is unbounded. During the Paris disturbances all the armorers deposited their arms at the Louvre and at the various mairies of their respective districts. Thousands of percussion cartridges were thrown in the streets by the crowd in the hope that the stamping of the horses would cause them to explode.

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

cine is so universally required by everybody as a cathartic, nor was ever a cathartic, nor was ever any before so universal-ly adopted into use, in every country and among all classes, as this mild but efficient purgative Ptil. The obvious rea-

but efficient purgative Ptill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have not, know that it cured them; those who have not, know that it cured them; those who have not, know that it cured them; those who have not, know that it cured them; those who have not, know that it does once it does always—that it never fails through any fault or neglectof its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Ptils rapidly cure:—

For Byspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stom-

For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrheea, but one mild dose is generally required.

dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a **Dinner Pill**, take one or two **Pills** to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these **Pills** makes him feel decidedly better, from their cleansing and renovating effect on the digestheir cleansing and renovating effect on the digestive apparatus.
