LANGLEY, June 8.—The weather has been favorable for farmers, and all the planting has been got through under promising conditions. Potatoes are showing above ground, and on several farms, give indications of an abundant yield. There has been but very slight frost to injure the young plants, and the year is so advanced that little apprehension is felt as regards harm to the tubers. The meadows are making fine growth, and an abundant hay harvest may be looked for.

The fruit trees have blossomed fairly well and the berries and set in abundance; plums and apples giving promise of a large and early yield and free from insect damage. Greater care than heretofore is being given to the horticultural board, who have evoked a spirit of inquiry and scientific treatment of plants which will be of great service in fruit growing, packing and marketing the produce of the orchard and the farm.

The summer freshet in the Fraser is abating gradually. The water did not rise within many feet of the level it attained in 1894, and, except for pedestrians, the gravel road across the prairie near the town has not been closed to traffic.

GOLDEN, (From the Star.) The recent gold developments on Harry Estell's claim on Canyon creek have created not a little excitement in Golden. Mr. Estell has a lease of one and a half miles of the creek from the mouth of the canyon upwards. Over \$1,000 have been spent, besides the labor of four men since November last. The portion of the canyon which they have been at work is about 300 feet in length by 60 feet wide. A tunnel has been constructed 6 ft. x 4 ft. to carry the water.

The difficulties to be overcome caused grievous delay, and after working two or three days Mr. Estell was obliged to remove his sluice boxes or have them carried away by the spring floods. During this time about 100 tons of rock were taken out of the creek bed, and no sign of gold has yet been seen. The prospect is proved to be about \$40 per day for the two men. Mr. Estell expects to reach bed rock at a depth of from twenty-five to thirty feet. The gold already taken out is of very good quality and very large. Mr. Estell has handed over a portion of his claim to Mr. Leake, a mining engineer, who has ordered a hydraulic plant from San Francisco, and as soon as it arrives he will employ a crew of twelve or fifteen men and go to work. If his expectations are realized Mr. Leake will bring in a company to operate on the creek.
