Smelt fishing has improved somewhat during the past few days and the fishermen are getting fair quantities, which are bringing 12 cents per pound on the wharf.

**DON'T FORGET.**  
The dinner of St. Andrew's Presbyterian Church will be held at the Church Hall on Friday, Feb. 1st, from 5.30 to 7.30. Tickets \$5.

**LOST IN THE WOODS.**  
News comes from Gaspe that G. Kemley, of Fox River, Gaspe county, was lost in the woods during the severe cold wave last week and that his body was only recovered on Thursday, far back in the bush by a band of searchers.

**CARD OF THANKS.**

Chamberlin and Mrs. Stewart for the assistance rendered in serving lunch. Also to all the ladies who so kindly furnished cake and supplies.

**A PECULIAR ACCIDENT.**  
One day last week a train became stalled near Belledune for want of water. The nearest water tank was at Belledune. The engine was uncoupled and proceeded to the tank, filled her tender with water, and returned to the stalled train. The engineer evidently forgot the exact location of his train as he ran into it, tender first, smashing up two or three cars of freight and blocking the line for a time.

**QUEBEC SURPLUS OF POTATOES.**  
That there is a huge surplus of potatoes in Quebec district is shown by the prices offered to-day on all the public markets for this produce. Potatoes were selling at \$3 a ton, of 90 pounds a month ago to-day they are selling at \$2 and even below.

**MORE RETURNED HEROES.**  
Among the returned heroes who arrived in St. John last week were two Restigouche boys.

Private R. Russell of Campbellton went overseas as a member of the 171st battalion and after his arrival in England he was transferred into the 18th battalion. At the battle of Vimy Ridge he was wounded twice. The first wound was slight and only necessitated his being in hospital one day. He went back into the line and was wounded for the second time.

**SUGAR PRICES DROP.**  
News was given last Saturday to all agents of a sugar refinery to announce a further decrease of ten cents per hundred pounds on granulated sugar. It is the second cut of ten cents a hundred pounds announced within the last three weeks.

**HEAVY STORM.**  
A heavy easterly storm, general throughout Quebec and the Maritime provinces raged here Tuesday afternoon and night. Trains were considerably behind time and the limited from Montreal was cancelled. The roads throughout the county are badly drifted.

**WEEK OF PRAYER.**  
The week of prayer services last week were a success in every way. The meetings broke all previous records as to attendance and the interest in the Methodist Church on Wednesday evening was one of the best attended ever held in that church. The large auditorium was crowded and the gallery had to be thrown open, and it also was filled.

**IMPROVEMENT TO ELAINE.**  
Carpenters have started removing the wooden deck houses of the steamer Elaine at Halifax, preparatory to the building of steel houses for which the firm of Burns and Kellogg have the contract. It will be an all winter's job and give steady employment to a number of mechanics. The Elaine, when she leaves Halifax in the spring to return to the Campbellton-Gaspe route, will be a steel boat throughout as her hull was built of steel—Globe.

**BEING A SPORT.**  
Through this is regarded in civil life as a trivial matter, in the army it is a very, very serious thing. I can quite understand you—a recruit—not realizing that, but I am obliged to punish you. However, I will be lenient with you. Seven days' C. B. And," continued the O. C. advising, "in future play the game. Be a sport, A. K. I am!"

"You are, sir," queried Tommy, apparently amazed.  
"Yes, I am," replied the O. C., waxing indignant.  
"Well, then, sir," said Tommy earnestly, "I'll toss you, fourteen days or nothing!"

**CRAFTY.**  
"My wife bought me this swell automobile coat for Christmas."  
"I didn't know you have an automobile."  
"I haven't. That's just one of my wife's little schemes for making me buy one."

A canny Scot was traveling from London to Birmingham one day in a smoking compartment. Turning to the man opposite, he asked if he could let him have a match.  
"Certainly," replied the man. But a search in his pockets revealed the fact that he had left them at home. The Scotmen then turned to the other two male passengers, but they both expressed their regret that they had come without any.

"Ah, well," said the Scotman with a sigh as he put his hand into his pocket, "I'll have to use one of my ain!"

A schoolmaster had been trying to explain the meaning of the word "conceited."  
"Now, boys," he said supposing I was always boasting of my learning, that I knew a lot of Latin, for instance or talking about my personal appearance, saying that I was very good-looking. What should you say I was?"  
"Sure," replied one straightforward youth, "I would say that you were a liar!"

The master was struck dumb!

**A BOOMERANG.**  
"That's a good one on Jokeleigh."  
"What's happened?"  
"He had an insurance policy on the contents of his cellar, and he thought it funny to put in a claim when he had burned all his coal."  
"What did the company say to that?"  
"Had him arrested for arson."

**EXPLAINED.**  
Shop-walker: "Do you realize that you were two hours selling those two women a yard of ribbon?"  
Saleswoman: "I know, sir. But just as they got to the counter they discovered that they each had a baby just learning to talk."

**THICK, GLOSSY HAIR.**  
FREE FROM DANDRUFF

Give Try It! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glazes with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Danderine from any drug store and just try it.

**MADDENING PROFESSIONS.**  
Your Work and Your Chances of Not Becoming a Lunatic.

In view of the great increase of insanity during recent years, it is interesting to note the various classes of employment which are, more or less, productive of madness.

A French scientist has recently been investigating this question, and his researches go to show that, apart from the terrible nerve strain of war, the military and naval professions are the very worst a man can enter if he wishes to go sane to the grave. Out of every 100,000 who enter the army and navy 190 become confirmed lunatics.

The liberal professions come in as a good second to the army and navy, the list being headed by artists, who are very close followed by lawyers and somewhat more distantly by the clergy, doctors of medicine, men of letters and civil servants. The number of people in these professions who become occupants of lunatic asylums is 177 to each 100,000.

The professional men are run very close by domestic servants and day laborers, of whom 150 out of each 100,000 are sent to the asylum. There is a big falling off before we arrive at the next group, which is that of mechanics, only 90 of whom go mad in each 100,000.

And curious to relate and contrary to all general belief, the group which is most highly favorable to sanity is that of commercial men, which sends only 42 per 100,000, or one in every 2,380, of its ranks to confinement.

**A COMPETENT WITNESS.**  
In This Case Action Was Much More Eloquent Than Words.  
Judge Pollard of St. Louis, originator of a widely known probation system, is the subject of a story illustrating his novel method of dealing with trouble some cases. A driver had been brought before Judge Pollard charged with cruelty to animals. He had been driving a horse, but he had an expert witness in a veterinarian, who testified that the sore on the mule's back did not pain the animal in the least.

The judge listened attentively to the long technical opinion and then demanded to know the mule's whereabouts. He was informed that it was Isaac Newton, who stood in the street in front of the courthouse.

The judge then ordered that court be adjourned for five minutes. He took his cane and proceeded to the street, went up to the mule and with the end of his cane gently touched the sore spot on the animal's back. The mule promptly tried to kick the dashboard of the wagon. Once again the judge touched the sore spot with his cane, and the mule responded as before.

The prisoner was called before him. "With all due respect to the expert testimony you have had introduced in your behalf to show that the mule's back does not pain him, I will fine you \$50," announced the judge. "I asked the mule if the sore hurt him, and he said it did."

**The Way You Do It.**  
One reads that Darwin never understood an equation, and the obvious fact that Isaac Newton could not have passed any examination in literary or scientific subjects with his ideas that poetry was ingenious nonsense and statistics only stone dolls. Faraday had no gift for mathematics, and it is a mooted question if Napoleon Bonaparte could have passed a college entrance examination in French. But it was their ability to do some one thing well that has turned the world upside down at various times in its forward march.

The difference lies in the way you do it. The business world is overstocked with poor people looking for good positions, while good positions are waiting for good people to fill them.

**Sparrows.**  
The white throated and white crowned sparrows may be told by their names. The fox sparrow is the larger, bright, rufous streaks and big spots on breast. The song sparrow is about the size of an English sparrow, but with a longer tail, streaks and large spot on breast. The clipping and field sparrows are smaller, with no spots on breast. The former has lines on head; the latter is rufous and sings very sweetly.

**Fables in the Bible.**  
Of the fables as distinguished from the parables there are but two examples in the Bible. The first of these is that of the trees choosing their king (Judges ix, 8-15); the second that of the cedar of Lebanon and the thistle (11 Kings xiv, 9).

**Fetters.**  
The use of fetters goes back to ancient times. Fetters were usually made of brass and also in pairs, the word being in the dual number. Iron was occasionally employed for the purpose.

**Equal Rights.**  
Witney—Henry, if you didn't smoke I could have a new hat. Hubby—And if you would live on steved prunes I could have a steam yacht.

**True.**  
"I don't see anything remarkable about that baby."  
"Oh, but you would if it was yours."

**The child trusts because it finds no reason in itself why it should not—J. G. Holland.**

**IRISH LASS LOST HER LEG.**  
BUT NOT HER WIT

"Irish wit cannot be quenched even by misfortune," said Co. William Crawford Gorgas, assistant surgeon general of the United States army, "and a case that particularly impressed me is the following:

"One morning at the hospital I took off an Irish lassie's leg above the knee. She had been in a street car accident. It was of course, a very great loss to her, for she was a factory girl and it meant that she would be laid up for a long time, and a crutch for all time.

"After she came out of the ether and was herself, she asked what had been done to her. The young nurse turned and looked at me, waiting for me to tell the girl. I broke the news as gently as I could, and added:

"You're all right, only there won't be any more dancing for you, my girl."

"Shure doctor, she replied gaily and quickly although her blue eyes were filled with tears, 'but I'll be just right now to take in all the hops."

**OH, LAW!**

Mr. Snap of Messrs. Snap & Snatch, solicitors—"I congratulate you, sir, on winning your case with such heavy damages. After paying our costs, the costs of app'l, and—er—sundry charges, here's a shilling for you."

The Successful Litigant—"Wot's the matter with it—is it bad?"

In manufacturing output, Nova Scotia holds fifth place, with an annual output of nearly \$55,000,000 paying over 10,000,000 in salaries to some 28,000 employees, in over 1,400 factories and shops.

**NO GENTLEMAN.**

"What's the new lodger like, Mary Ann?"  
"He's no gentleman, whatever he's. This fine geg. e. c. 99 d. s. z. -c. k. o' like!"  
"Why? heanobgtkujmwdlluuuuu"  
"No gentleman! What's he been and done?"  
"Why, he see me a-carryin' up the coals, an' he says: 'I'm afraid that scuttles too heavy for you,' he says, 'pray let me carry it!' 'e says. An' 'o ups and carries it 'isself just like a footman!"

**SHOP TALK.**

Isaberg, a tailor by trade had just taken out an insurance policy. Three hours later, by a curious coincidence, a fire broke out, consumed his shop and its contents, says an exchange.

The insurance company could find no ground on which to refuse payment, but the letter which accompanied their check concluded as follows:

"We note that your policy was issued at nine on Friday and that the fire did not take place till three o'clock the same day. Why this delay?"
