Father Morrissey's Liniment Relieves Pain

Aches and pains yield quickly to Father Morrissey's Liniment. It is absorbed quickly by the skin, and penetrates deep into the tissues, making it splendid for sore muscles, stiff joints, rheumatic pains, backache, sore throat or lungs, or any deep-seated pain.

It eases at once and heals surface hurts, such as cuts, bruises, burns, scalds and frost-bites.

For tooth-ache and ear-ache it is an excellent remedy.

Father Morrissey's Liniment is exceptionally good as a "rub" for athletes. It takes out stiffness and soreness after severe exercise, and never blisters the skin.

Keep a bottle handy, for

"There's ease in every drop".

25c. a bottle—at your dealer's.

Father Morrissey Medicine Co., Ltd., Chatham, N.S.

Mobs Wreck And Rob Lisbon Churches

Outrages Against the Clergy Reported and Many Arrests are Being Made

Lisbon, Oct. 10.—The revolutionary leaders having overthrown the monarchy are now confronted with the scarcely less serious task of putting an end to the excesses on the part of the rougher element of their own followers, who, having had a taste of mob rule, are prone to continue lawlessness.

The decree of summary banishment for the religious orders gave excuse for brutal outrages against the clergy.

The provisional government has now recognized the seriousness of the situation, and today the police took severe measures to prevent the population sacking the religious establishments and to check the demonstrations against the religionists pending their expulsion.

Reports that the clerics were carrying on a guerrilla warfare from the windows of their establishments inflamed the public resentment against the religionists, many of whom were chased from their churches and convents. The mob which battered down the doors of the convent in the Rue Do Quelhas was led by fanatics and a gang of ruffians who, seized the occasion to destroy everything in sight.

Images and statues were wrenched from the niches in the chapels, altars were wrecked, furniture broken and the vestments were carried off by the rioters. Later the police recovered the greater party of the vestments. The district in which are located Santos Church and the French legation was startled by the crack of rifles and at once a report was started that the religionists were firing from the windows of their church. The crowd flocked to the scene, but the military arrived in time to protect the church and the legation from possible violence.

MANY ARRESTED

Arrests of disguised and fleeing religionists continued today. The discovery of secret underground subterranean tunnels set afloat the story that many monks were hiding underground waiting a favorable opportunity to emerge and fight against the new regime. To satisfy the crown the military started subterranean search and in one instance went so far as to dig a trench to locate the suspected tunnel. As was the case at the Barcelona riots the popular feeling seems to be restricted to the monks and nuns and does not manifest itself toward the secular clergy.

With doubtful expediency the bodies of Prof. Bombarda and Admiral Reis, the revolutionaries remain exposed at the city hall. The republican flag hangs from the eaves between which a bust typifying the republic is draped in black. Throughout Sunday the city was in festival garb. Thousands came in from the country districts and visited the scenes of the recent fighting. They wore medals in the form of republican emblems and carried improvised republican flags. The bands played the republican hymn and the members of the ministry and other leaders of the revolutionary committee, who drove from place to place amid the cheers of the populace.

Lisbon, Oct. 10.—The transformation of the country into a republic manifests itself on every hand. The word royal in connection with public buildings, theatres and other establishments, has been entirely suppressed. Official documents begin "in the name of the republic" and end with "greeting and fraternity." The privileges of nobility have been abolished, and

the equality of religious sects proclaimed.

The British cruiser Venus and the United States cruiser Des Moines are here again today.

Rio Janeiro, Oct. 10.—The government of Brazil has authorized its minister at Lisbon to enter into relations with the provisional government on current business and the protection of Brazilians in Portugal, but has declared verbally that this does not mean the recognition of the establishment of the new regime in Portugal. This recognition cannot be accorded until Brazil is certain that the new regime has the support of the majority of the Portuguese people.

SPAIN THREATENED

Barcelona, Spain, Oct. 10.—A state of increasing excitement reigns in Barcelona. The success of the revolution in Portugal appears to have fanned the fire of rebellion that has smouldered since the furious outbreak of a year ago. There was the greatest animation in the streets today. The people pretend not to notice the patrols and civil guard which are being strengthened gradually in preparation for eventualities on October 13, the anniversary of the execution of Prof. Francisco Ferrer, the director of the modern school of Barcelona, who was convicted of having incited last year's revolutionary movement.

General Weyler, captain general of Catalonia, admits that the strike of miners here is taking on a revolutionary character, he says that his orders are to suppress any active disloyalty with a firm hand.

Ten thousand stern faced miners marched to the cemetery in the suburbs yesterday and placed wreaths upon the tombs of Ferrer and the revolutionist Mara, who were executed in consequence of what has become known as "bloody week."

Violent speeches were made by leaders of the miners, who flayed the clerics, charging them with responsibility for the execution. The military and police forced the manifestants to return to Barcelona in small groups.

TO GO TO ENGLAND

Gibraltar, Oct. 10.—King Manuel of Portugal and Queen Mother Amelia, decided today to proceed to England. They will leave probably within a few days, but are undetermined whether they will travel by land or sea.

The Italian warship Regina Elena arrived here today to take on board the Dowager Queen Maria Pia, who will go to Italy.

LIQUID CURES ECZEMA

WHERE SALVES FAIL.

In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

A trial bottle will start the cure, and give you instant relief. Write for it today to the D. D. D. Laboratories, Dept. C, D., 40 Colborne St., Toronto. For sale by all druggists.

BAD ACCIDENT TO DRIVER SMALLWOOD

Had Hip Dislocated and Back Injured While Working Around his Engine.

I. C. R. Driver Smallwood met with a serious and painful accident at the I. C. R. station about 2.30 o'clock Tuesday afternoon in Moncton.

Driver Smallwood was to have taken out the Montreal half of the Ocean Limited, and while kneeling on the driving rod of his engine the shunting engine ran against the other end of the train, moving it ahead about three feet.

In his position, kneeling on the driving rod and leaning over doing the oiling, the rod raised with the revolution of the wheels, catching the unfortunate man and doubling him up against the upper part of the engine.

His leg below the knee was severely cut, his back was injured, and he received several minor injuries about the lower limbs and body.

Dr. Bourque was immediately summoned, and he arrived on the scene of the accident with despatch. He made a hasty examination of Mr. Smallwood's injuries, but at the time was unable to determine whether serious or internal injuries had been received or not.

Mr. Smallwood was removed to his home on Highfield street.

On examination of Dr. Price later, it was found that Mr. Smallwood had his left hip dislocated, which was put back into place and also a deep gash was inflicted in his left leg below the knee, which was dressed.

Mr. Smallwood's many friends will be very glad to learn that his injuries are not dangerous, as was at first feared, although he will be laid up some weeks.

Mr. Smallwood is a brother of Cameron Smallwood, Newcastle.

OCTOBER MAGAZINES

One of the breeziest descriptive articles of the season appears in THE CANADIAN MAGAZINE for October under the title "Calgary: A Study in Optimism." The author is Miss Jane Pratt, a writer whose name is not as yet very generally known. This article is well worth reading. While it gives some impression of Calgary in a commercial way, its chief charm is in the naive manner in which an insight is given into the daily life and spirit of the people of this city of the foothills. A more serious article is contributed by Stuart Jenkins, and entitled "Is the Old Roman Race Still Dominant?" in which the author claims for the people of Great Britain a perpetuation of the Roman type that once dominated the whole world. "Damascus the Tremper" is the title of a fine travel article by A. R. Carman, and "The Continuity of Municipal Policy" is a well thought out consideration of local government. Frank H. Newton gives a good account of the new domain in Northern Ontario, in which he predicts an important future for that part of the Province. The last act of Arthur Stringers fascinating drama The Blot appears in this number as well as several other good articles and a number of absorbing short stories and sketches.
