CHEERING REPORTS

The following paragraphs are taken from reports received by the "Canada Lumberman and Woodworkers" from various New Brunswick lumber manufacturers.

We are taking out about 40 per cent, more logs this winter than last winter. The outlook for trade during 1915 is good. The demand from the English market is the best that it has been in years. The United States must respond or go without Canadian lumber. Prices last winter averaged from 5 to 10 per cent. less than during 1913 and profits showed a reduction of about 20 per cent.

Our log output this winter will be much larger than in previous years. The outlook for 1915 is good.

Our log output this winter will be the same as last winter. The outlook for the lumber business during 1915 is exceptionally good. Lumber and shingles are rather dubious. The trade with Great Britain last year was excellent, but that with the United States was very bad. Profits last year on long lumber were better than in 1913 and on short lumber they were poorer.

We will take about 20 per cent. more logs this winter than last winter. The market in Great Britain during 1915 will depend entirely upon the war situation. The prospects in connection with the United States market are that prices will be low. Our profits last year were about the same as in 1913.

Our log output this winter will be about 90 per cent. of that of the previous winter. The outlook for 1915 is favorable at present for shipments to Great Britain. United States and western Canada markets are weak. Profits in 1914 were about the same as in 1913. Prices were probably 10 per cent. better. Our stocks now are a little lower than a year ago.

We will take out twice as many logs this winter as last winter. We consider the outlook for 1915 pretty good. The market in Great Britain last year was characterized by increasing values and the United States market was a weakening one. Our profits were better for 1914 than for 1913 and the volume of our trade was greater. Long lumber was 50c per thousand higher. Laths were 15c per M. better.

but shingles were not so good. In conversation with some of the lumbermen in the past week, the opinion is expressed by all that the coming summer will be a splendid one, and granted proper shipping facilities, more lumber will be sent out from this port than in previous years. This is indeed good news and should help wonderfully to restore the spirits of those who were pessimistic.

Speaking before the Experimental Farm Superintendents recently assembled in convention at Ottawa, Mr. Geo. H. Clark, Dominion Seed Commissioner, sounded a note which is of special interest at the present crisis in Canadian agriculture. In prefacing his address he said: "Unfortunately farming during the last ten years or more has been less attractive to young men of good ability and to capital than other industries in urban centres. The problem of farm labor has been an exceedingly perplexing one and in consequence farm systems have been modified so as to require the minimum of labor for the maximum yield of net returns. City industries have completely ousted the farm in the matter of labor, and it is probably true that at least one-third of city working men have had experience in farming. I would like to say to those men now that if the opportunities in the cities looked brighter during the past ten years, the next ten years in my judgement, assuredly belong to the farm, and the sooner they realize that the better for themselves and for all concerned."

We print this week a letter from a Dalhousie correspondent, which we give to our readers for what it is worth. We do not think our correspondent is in earnest, however, "He who runs may read."

ARMENIAN COLLECTORS

Newcastle was visited the other day by one of more Armenians who claimed to be ministers, and who were collecting money for the children of their native country. While it is known that the Armenians people have suffered greatly at the hands of the Turks, still there have been so many of these so-called ministers who have, upon investigation, been proved fakirs that it would be well for those who would contribute to beware. These collectors may be what they represent themselves to be, or they may not. However, it is best to be on the safe side and avoid them, giving what can be spared towards funds we know to be worthy, as the Patriotic Fund and the Belgian Relief Fund—Advocate.

SHIGAWAKE

The Red Cross Branch which has been organized since Oct. 12th, 1914, has been very busy. On Oct. 23rd 3 large bales of clothing of all kinds, including bedding, were sent to the Belgians. The Society then began working for the soldiers, and up to date have a bale ready to send, comprising the following articles:— 51 pairs of mitts and gloves, 31 pairs of socks, 5 pairs of pyjamas, 5 night shirts, 3 shirts, 1 scarf and 1 pneumonia jacket.

This bale was contributed by the members alone. An entertainment was given by the members on Jan. 19, for the purpose of buying yarn and material with the funds. But owing to the inclemency of the weather many were hindered from coming. On Jan. 22nd it was repeated with several new additions to the program. Again the weather was against us, a storm day before making heavy roads, and only a small number were present. However the program was said by all who attended to be excellent and worthy of mention.

The sum of \$36.00 was realized, for

feature which added greatly to the beauty of the stage and afforded much satisfaction to the audience, were the prettily arranged footlights.

The most pleasing part of the whole programme was the last item, a tableau, "Great Britain and her Allies". The costumes were simply gorgeous, and the scene was most striking, whilst Mr. H. H. Mortimer, sang "Rule Britannia".

Owing to the delightful weather, many of our friends from neighboring towns were present, consequently the hall was almost over-crowded. During intermission refreshments were served by the ladies of the Red Cross society, and were very much appreciated by all. The net proceeds realized were \$102.89.

The committee and those interested in the concert extend their hearty thanks to all present for their generosity in behalf of the noble cause.

THE MIGHTY BRITISH LION ROARS---

"SHOO THE KAISER"

Every time one of the Kaiser's ships shows her nose the British Navy takes a crack at her. The only trouble is that it is seldom they come out of their mine-protected harbors.

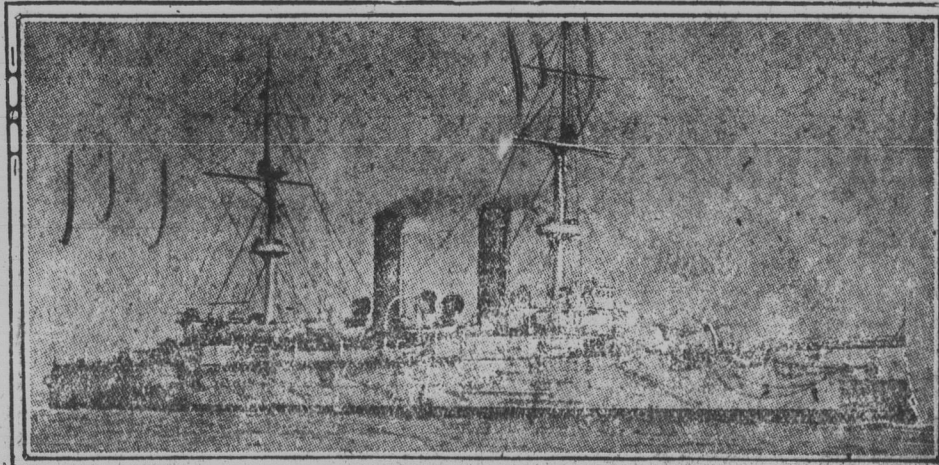

In the game of "Shoo the Kaiser" the rules force the Kaiser to make an appearance every round, and as a result you have several opportunities during the evening to handle him as you please.

Although the game of "Shoo the Kaiser" has only been on the market for three weeks, over two thousand packs have already been sold.

If you are not one of the thousand playing this national game you don't know what you are missing. Secure your pack today and learn to play the game.

Fill in the coupon appearing in this issue and send it with forty cents to the Graphic and the game will be sent to your address postpaid.
