whose Municipal Committee made a mistake only stating in its report last evening that the chairman was opposed to have the stone for the King-street subway dressed in the city, when requested to do so by the Mayor and the deputation of stone masons. That she worthy chairman was in favor of complying with the request, will be seen from this statement, as placed is my minute book at the time. Although Parkdale and the railway companies interested may object to the extra cost they having to bear a portion of the same, I shall be requested to comply, if I possibly can, with the request of the deputation. By what warrant is "Unrestricted Reciprocity" made the policy of the Liberal party.

There was not a word about such a thing dur ing the last elections, and consequently the present members of parliament have no right present members of parliament have no right to adopt it. Neither has there been a convention since of any kind, and I am therefore at a loss to account for it. Possibly the leaders Laurier and Cartwight developed it out of their own inner consciousness. Then I can understand it. This would be on a par with the usual Liberal leadership—the most wretched that was ever heard of.
