Drifting into Civil Strife.

Annexation can never be without strife. The great majority of Canadians are built that way.

He therefore who is a Canadian and argues for annexation is arguing for civil war, he is stirring up civil strife.

The World therefore trusts that the Chancellor, Mr. Blake, the President of the University, Mr. London, and the Vice-Chancellor, Mr. Mulock, will arrive at some understanding in this matter.

These are further hard and undeniable facts. But before we draw our main conclusions, we wish to silence once and for all these men who are arguing for annexation and denouncing Sir Oliver Mowat for interfering with "the freedom of speech."

Annexation cannot be attempted without strife. Elgin Myers, certain Liberal papers, and certain other Ontario officials some openly, some secretly, some half openly, are suggesting, are aiding annexation.

A Substantial Finding in Favor of the Action of Vice-Chancellor and New Build Hospital. The old University Senate held its last meeting on Friday night, at which the Vice-Chancellor, Mr. Mulock, presided.

The report of the committee connected with the creation of the Biological buildings was presented by the chairman, Judge Falconbridge. It is as follows: Your committee, to whom it was referred to inquire into matters connected with the creation of the Biological buildings, and the establishment of the Park Hospital, have the honor to report as follows:

That in connection with the deal with the subject of the reference regarding the creation of the western wing of the Biological Building, witness caused to be produced before them all the various sketches and other plans which in connection with such work, also the minute books of the Board of Trustees and orders in council concerning the building, and also personally examined the building. The desire of your committee to make a thorough investigation into the matter referred to involved the expenditure of several days' labor which protracted nights by men who overtaxed to the state, the time and attention of their own affairs.
