The report that the education department is revising its examination system with a view to simplification is an encouraging one. Great dissatisfaction exists throughout the province with the present mode of conducting examinations, and any change likely to work improvement will be welcome Provincial control of teachers' qualifications, and the surrender to the universities of the matriculation machinery, and to the municipalities of the high school entrance, seems to be the policy in view.

Doubt, however, may be felt as to the wisdom of decent alization for matriculation and high school entrance. Uniformity in the standard and in the matter and method of examining must be maintained in our secondary, as well as in our primary schools. The provincial education department is the guardian of the uniformity. We have several universities, but only one high school system. Graduation, of a recognized standard, should be accepted as entrance by the universities. This graduation should be regulated and controlled by the education department. A provincial entrance examination is also a necessity, local administration, of course, conceded as heretofore. The chief reform needed is an improvement in the quality of examiners this the province will have. -World.

Confirmation Services.

Bishop McEvay, of London, officiated at All Saints', church, Strathroy, Sunday at the morning service, and confirmed a class of 36, including candidates from Strathroy, Adelaide and Watford. The first communion was served at the

8.30 service. High mass was celebrated at 11 o'clock, atter which His Lordship administered the rites of confirmation. In addressing the candidates His Lord-ship pointed out the duties they owed to He then admini pledge which they were charged to keep until they reached the age of 21 years. The church was packed at the confir-mation service. Father Quinlan, priest of the parish, assisted at both services.

New Readers to be Issued.

Toronto, Oct. 15 .- Hon. Dr. Pyne minister of education has decided that a new set of readers shall be issued in the schools of Ontario that are a little more patriotic and useful in character than the present ones. Dr. D. J. Goggin has been chosen as the head of the committee enchosen as the head of the committee entrusted with the work. He will be assisted by W. Atkin, St. Thomas; Prof. Alexander, Toronto University; G. E. Broderick, Lindsay; N. W. Campbell, Durham; T. A. Craig, Kemptville; Inspector James L., Hughes, Toronto; Dr. Waugh, of Whitby, and Principal Young, of Guelph. of Guelph.

Caradoc Barns Burn.

Lightning struck Mr. Dan Lockwood' barn in Caradoc Township, and destroyed the building, during the progress of one of the severe electrical storms of the end of last last week.

The barn contained eighteen acres of

oats, but otherwise was empty. The lightning bolt set it afire immediately, and nothing could be done to save the building or its contents.

Radium Removes Stains.

Two prominent French physicians, Drs. Wyckham and Degrais, have caused a sensation at the Academy of Medicine by a report that they succeeded in many cases in removing the birthmarks, known as port wine stains with radium. The new method has proven equally successful in the cases of adults and children.

sful in the cases of adults and children.

The marks are effaced by the simple application of a plane surface covered with varnish containing radium. The action is regulated by the length and frequency of the applications.

The doctors showed a series of photographs illustrating stages of the cure and final treatment which left the skin in its

normal condition. The applications, they stated, were absolutely painless, and the treatment could be applied to an infant during sleep.

BROS. DIRECT IMPORTERS

BY-LAW NO. 11, 1907 OF TOWNSHIP OF WARWICK.

A By-law to provide for drainage work in the Township of Warwick in the County of Lambton, and for borrowing on the credit of the municipality the sum of \$503.00 for completing the same. Provisionally adopted the 7th day of Oct., 1907.

Whereas the majority in number of the resident and non resident owners (exclusive of farmers' sons not actual owners, as shown by the last revised assessment roll), of the property hereinafter set forth to be benefitted by drainage work, have petitioned the Council of the said Township of Warwick, to have the drain known as the McGill-Sisson award drain, (being in the fourth and fifth concessions, S. E. R., from lot 5 to lot 7 inclusive), repaired under The Ditches and Watercourses Act. The drain to be known as the Sisson Local Drain.

And, whereas thereupon the said Council by the last revised assessment roll), of the

Ditches and Watercourses Act. The drain to be known as the Sisson Local Drain.

And, whereas thereupon the said Council has procured an examination, to be made by C. A. Jones, being a person competent, for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof, and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also procured plans, specifications, and estimates of the drainage work to be made by the said C. A. Jones and an assessment to be made by him of the lands and roads to be benefitted by such drainage work, and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, outlet liability and injuring liability which in his opinion will be derived or incurred in consequence of be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment so

be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the road and lots or parts of lots hereinatter in that behalf specially set forth and described, and the report of the said C. A. Jones in respect thereof, and of the said drainage work being as follows:—Petrolea, Aug. 13th. 1907.

To the Municipal Council, Township of Warwick.
GENILEMEN:—In compliance with instructions received from your Honorable body I have made an examination of the drain hereafter known as the Sisson Drain situate on the southerly portion of lot 6 con. 6, S. E. R., and the 6-7 sideroad south of the Blind Line between cons. 5 and 6, S. E. R., of your township. Following is a more accurate description of its location: commencing at its head on the easterly side of the 8-7 sideroad 2 rods north of the Blind Line between one. 5 and 6, thence southerly along the easterly side of the sideroad 43 rods, thence westerly parallel with said Blind Line to the line between the easterly three-quarters and westerly one-quarter of lot 6, thence ortherly along the last mentioned line about 40 rods to the said Blind Line, thence in a north-westerly direction across the west ½ of lot 6 and the greater portion of lot 5, con. 5, S. E. R.

It is now an open drain constructed under the Ditches and Watercourses Act and the parties interested have petitioned your Honorable Body to have it put under the Municipal Drainage Act with the request that if the engineer deems it advisable, it be made a tile drain or partly tile and partly open. In this respect I concur with their views and would recommend that a tile be laid beneath the bottom of the present drain following its exact course for the upper 2-0 rods, below which point the present drain becomes ocroked that I would accommend maing a somewhat straighter course for the tile by cutting off some of the shorter bends or turns and making them more gradu

tile. This will carry the work down to a point about 20 rods below the line between the et and w ½ of lot 5, con. 5.

I have chained, staked ond levelled the drain in stations of 2 chains or 8 rods each for the upper 280 rods and 1 chain or 4 rods each for the lower 80 rods, the total length being 360 rods or 90 chains. Stake "0" is at the head of the drain on the 6-7 sideroad and each stake is numbered the distance it it in chains or chains and links from stake "0". Stake 10c and 70x is where it turns west arross the sideroad and lot 6, stake 34 is where it turns n'rit Along the centre of the w ½ of lot 6, stake 44 is where it crosses the Blind line, stake 80% is where the triing ends and stake 90 is where the open drain ends on she w 1 of lot 5.

I would recommend that a 6 inch tile be laid along the sideroad from stake o to 10x70, a 7 inch tile from 10x70 to 34 and an eight inch tile the iemainder of the distance to take 80%, the open drain below this will be 2½ ft bottom width with sides sloped 1 hor. to 1 vert.

I have a so prepared p'an, profile, estimate of cost, specification of work ard schedule of assessment on the lands affected, all of which 1 herewith submit.

Total assmt lands and road 8503 00 SPECIFICATION OF WORK

The contractor is to furnish all material required and all labor necessary for the completion of the work.

The trench for the tile is to be dug with a perfectly even grade in the bottom and to follow the centre of the present open drain from st. 0 to 694 and from 69½ to 80½ tis to follow the line of stakes to be dug on the numbered side thereof and about 6 ft. therefrom. The commissioner wil set up stakes or pickets for the centre line of the trench, making as gradual curves as presible in all cases and the contractor will follow these stakes or pickets for the line of the trench. Where any abrupt turn occurs the ends of the tile shall be bevelled a little by sawing them in order to make dieser joint more particularly at st. 10x70 and at 34. The tile are to be evenly and neatly laid with close joints and in perfectly straight lines excepting where bends occur. No tile to be covered up until it is inspected by the commissioner. It is then to be covered to a uniform depth of 1 foot where it is in the bottom of the present drain and to the full level of the natural ground where it is not in the bottom of present drain. The earth on filling over the tile to be tamped with a medium weight pounder.

The tile are to be of the best quality of agricultural lile and of the sizes shown and figured on profile. Build a box at the mouth of the tile for an outlet into which the tile will empty, to be 10 ft. long and 10 inches square inside. mide of 2 inch pine or ced37, to have a plank over the end where the tile enters with a circular hole in same, the exact size of the 8 inch tile which will be inserted into it about 4 inches and then plugged perfectly tight. The trench for this box is to be made 2 inches deeper than that for tile flaured on profile so that the bottom of the inside of the box will be level with the trench for the tile. This cx to be thoroughly anchored in its position to the satisfaction of the commissioner.

chored in its position to the saustraction of the com-missioner.

The open drain from the meuth of the tile to st. 90 to be dug to the depths shown on-pro9 e, 2½ ft wide in the bottom, side slopes 1 hor, to 1 vert., with an even grade in bottom throughout.

The earth is all to be cast in the low ground and none left closer than 3 ft. from the edge of the drain.

The depths or cuts in all cases are from the ground beside the stake on the numbered side thereof and are to govern in preference to those in red which represent approximately the depth of the tile or open drain as the case may be below the present bottom

Should any error appear in the figured depth at

bottom

Should any error appear in the figured depth stany stake, the grade of the botton is still to be made to conform with that shown on profile.

All the work to be done, and material furnished to the entire satisfaction of the commissioner in charge of the work.

1 have the honor to remain,
Your obedient servant,
C. A. Jones, O.L.S. & C. E. And whereas the said Council are of epinion that the drainage of the area described is desirable, Therefore the said Municipal Council of the said Township of Warwick, pursuant to the providions of The Municipal Drainage Act, enacts as follows:

1st. The said resort plans, specifications, assessments and estimates are hereby alopted, and the drainage work therein indicated and set forth shall be made and constructed in accordance therewith.

2nd. The keeve of the said Municipality may borrow ou the credit of the corporation of the said Township of Warwick the sum of \$563.00, being the funds necessary for the work and may issue debenfures of the corporation to that amount in sums of not less than \$50.00 each and pavable within 4 years from the date thereof, with interest at the rate of 4 per centum per annum, that is to say in 4 equal annual payments, such depertures to be payable at

the Treasurer's office, Warwick, and to have attached to them coupons for the payment of interest.

3rd. For paying the sum of \$2.2.50 the amount charged against the said lands for benefit, and ther representation on the librity, apart from roads belonging to or controlled by the Municipality, and for covering interest thereon for four years at the rate of 4 per centum per annum, the following total special rates over and above all other rates shall be assessed, levied and collected (in the same manner and as the same time as other taxes are levied and collected upon and from the undermentioned lots and parts of lots, and the amount of the said special rates and interest argaint each lot or part of lot respectively shall be (divided into 4 equal parts, and one suchs part shall be) assessed, levied and collected as aforesaid, in each year, for 4 years after the final passing of this bylaw, during which the said debentures have to run.
