Saved by Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn. — "For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the Change of Life and cannot praise your Vegetable Compound too highly. Every woman should take it at that time. I recommend it to both old and young for female troubles." — Mrs. EMILY SUMMERSGILL, Swarthmore, Pa.

**Canadian Woman's Experience:**  
Fort William, Ont. — "I feel as if I could not tell others enough about the good Lydia E. Pinkham's Vegetable Compound has done for me. I was weak and tired and I could not rest nights. A friend recommended your Compound and I soon gained health and strength and could not wish to sleep better. I know other women who have taken it for the same purpose and they join me in praising it." — Mrs. Wm. A. BUFFY, 631 South Vicker Street, Fort Williams, Ontario.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?  
If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## STORY OF A CHURCH.

Curious History of an Unfinished Edifice in England.

There is a curious history regarding an unfinished church which stands at Hassall, near Sandbach, England. A former resident at the local hall, a Mr. Lowndes, painfully conscious of the lack of provision for the spiritual wants of the people in the neighborhood, determined to build a church at his own expense. After carefully choosing a site he gave instructions for the erection of a structure in the modern style capable of seating 400 or 500 persons. Work on it was begun in the summer of 1836 and was pushed on steadily until the day on which Queen Victoria was crowned, by which time the building was well advanced. The crypts, about ten in number, had been put in, the walls and roofs were complete, and the scantlings for the floor were fixed. Indeed, partly in consequence of the national rejoicings and partly to celebrate the progress which had been made, the building was smothered in flags and decorations and was the center of local festivities.

Next day Mr. Lowndes was seized with an illness which quickly proved fatal; and with his passing all work on the church ceased. Though the building could have been finished at comparatively small cost, it was abandoned, and it has not been used since, except by tourists, whose names "hallow and adorn it," as Mark Twain said of those on the ruins of Cain's altar, by the thousand.—Wide World Magazine.

## LOOSE SHOES.

These Not Fastened Tight at the Instep Cause Foot Trouble.

Seven persons out of ten suffer excruciating pain at one time or another with their feet. A single corn no larger than a grain of sand can take all the "snap" and vitality right out of you.  
Two-thirds of modern foot troubles are due to the fact that almost every one—man, woman and child—wears his shoe too loose. The shoe itself may be correct as to size and shape, but it is not fastened tight at the only point of control—namely, the instep.  
When you set your foot upon the floor or pavement in the act of walking the shoe adheres, and if it be loosely fastened over the instep the foot pushes down into the toe of the shoe. At certain spots on the foot this slipping causes friction. These spots are the soles of the feet, the tops, ends and inner sides of the toes, the great and little toe joints and occasionally even the back of the heel.  
When the friction thus caused is continued hour after hour and day after day one or more of these spots are almost sure to become inflamed and sore. A slight thickening, called a "callous," is formed. As the friction and pressure go on the resulting callous may thicken up unevenly; then it is called a "corn."—Woman's Home Companion.

A most interesting case of healing occurred at New Canaan, recently. Three weeks ago Sunday Addison Campbell had the end of one of his fingers cut off while playing with the cutting bar of a mowing machine. When the lad ran into the house with a bleeding stump of his finger, his sister rushed out and after a search found the missing piece, brought it in, washed the wound and placed the two pieces together and held them in place for an hour or more until Dr. Keene, of Essex, arrived. Splints were then applied, and the pieces have grown together almost as good as before the accident.
