

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital." — Mrs. E. SHELDON, 6687 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

Guide-Advocate Watford, Ont. PUBLISHED EVERY FRIDAY Subscription \$1.00 per annum in advance, \$1.50 in advance to the United States. ADVERTISING RATES. HARRIS & CO. PROPRIETORS

Guide-Advocate HARRIS & CO. PROPRIETORS. WATFORD, OCTOBER 27, 1916

NOTE AND COMMENT The commander of the German submarine U-53 has been awarded the Order of Pour le Merite for sinking 126 vessels totalling 270,000 tons.

From Puck—The kindly Germans passed an eight-hour bill long ago. Little children are not murdered before nine in the morning nor after five in the afternoon.

The Protestant Episcopal Church of the United States, a denatured Anglican institution, has resolved not to pray for the President any more probably realizing that the Democratic National Committee is doing all that can be expected.

As one of the consequences of the western real estate boom, the city of Saskatoon publishes a list in one of the newspapers, seventy-two columns long, of city lots to be sold for non-payment of taxes. Having no present value for use or speculation, the lots will probably be left on the hands of the city, which will pray for another boom in which to realize its unpaid taxes, interest and a profit.

MOTHER TELLS HOW VINOL Made Her Delicate Boy Strong New York City.—"My little boy was in a very weak, delicate condition as a result of gastritis and the measles and there seemed no hope of saving his life. The doctor prescribed cod liver oil, but he could not take it. I decided to try Vinol—and with splendid results. It seemed to agree with him so that now he is a strong healthy boy." — Mrs. THOMAS FITZGERALD, 1090 Park Ave., N. Y. City. We guarantee Vinol, which contains beef and cod liver peptones, iron, and manganese peptones and glycerophosphates, for run-down conditions. Taylor & Son, Druggists, Watford, Ont., also at the best druggists in all Ontario towns.

The first soldier from Western Ontario to win the coveted honor of the Victoria Cross is Captain Montour, who enlisted as a private in Hamilton and was promoted to his captaincy for gallant conduct at the front. Captain Montour is a member of the Six Nations Indians, and comes naturally by his fighting blood, being a descendant of the famous Mowhawk war chief Captain Joseph Brant.

American newspapers contain many letters protesting against the action of United States warships in getting out of the way of the U-53 in order that she might sink British and neutral vessels. There is indeed some contrast between their attitude and that of the British admiral at Manila harbor, who put his ships between Dewey's and the German fleet that was about to attack them, thus preventing war between the United States and Germany.

Price of Meat Foods The U. S. department of agriculture finds that producers of most animals of all kinds are getting more money now than they received six years ago. On September 15th the index figure of prices for these animals was about 23.7 per cent higher than a year ago, 10.5 per cent higher than two years ago and 22.5 per cent higher than the average price of the last six years. These figures are based on reports of several thousand correspondents of the department and probably are fairly near the fact.

If the big meat packers are making more money than ever, so, too, are the men who raise the cattle. It is the householder who pays the bill, and, unfortunately, every indication is that he will have to continue paying at about the present rate for an indefinite time. There is no prospect of an early decline in the price of meats. Whatever decline might have been caused by big grain crops will fail to materialize because we have not the big grain production which will permit free feeding to cattle. The hay crop is big, but something more than hay is needed to fatten food animals.

There were great hopes that under the new tariff regulations the Argentine producers would be able to send enough beef to this country to have a noticeable effect on prices, but nothing much has developed in that direction. The situation is greatly aggravated, of course, by the war, which has enormously increased the export demand, but the meat problem is one that will be with us long after the war ends. In fact, it is not apparent now that we ever again shall be without this problem to disturb us. Population is increasing rapidly and with it the consumption of meat. Production of food animals is not increasing at the same rate. As long as this condition prevails prices will be high. There is money in raising cattle.—Buffalo Express.

A Really Notable Achievement The phenomenal success of Sir Thomas White's second domestic war loan has drawn the eyes of the world upon Canada. Bonds aggregating one hundred million dollars have been offered and applications aggregating two hundred millions have been received. The first domestic loan issue of fifty millions was over-subscribed by one hundred per cent. The second issue of one hundred millions has been over-subscribed by one hundred per cent. That means that in one year the Canadian people have offered the Government for war purposes three hundred millions of dollars—double the amount asked for.

This was done in a country which, prior to the outbreak of the war, was a borrower. To-day the people of Canada are lending, not to the Canadian Government alone, but to the Imperial Government as well by means of the credits established here. Out of these credits payments are made for the enormous quantities of munitions and other war supplies purchased by Great Britain in Canada. The last credit of fifty millions brings the total up to \$150,000,000. It is a proud chapter in the history of the war. Great things are being done by Canada's sons on the battlefield; great things also are being done by Canadians at home.

Hard and soft corns both yield to Holway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action. Mrs. Francis Atwell of Washington is one of the several who are running for congress in the west.

A New Spy Stunt

Britishers everywhere would do well to be on their guard against projects for the supposed benefit of British soldiers. The uses to which the enemy can put these is illustrated by the unmasking of a spy agency in France. A Swiss firm despatched thousands of circulars to French addresses:

"Desirous of manifesting our warm affection for France," they ran, "we should feel obliged if you would send us the address of a soldier to whom we could forward gratis a few packets of cigarettes and cigars."

The German intelligence department in this way received the addresses of soldiers at the front, with the indication of the regiment, of the division, and of the postal sector.

Queens Sold Almanacs

The sale of almanacs was once a lucrative monopoly. Queen Elizabeth granted the sole right to publish "almanacs" and prognostications" to the Stationers' Company, and James I, extended the privilege to the Universities of Oxford and Cambridge, but for centuries only these three bodies were permitted to issue printed calendars. The monopoly ended when the claim of the king to the privilege of granting or withholding permission to issue calendars—a survival, perhaps, from days when kings asserted their right to regulate all things, including even the times and seasons—was definitely disproved and proclaimed non-existent. Now anybody can say who's who anywhere. London Chronicle.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy easers of pain, because they promptly kill the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

Emmet's Presence of Mind.

A story is told of Robert Emmet which proves his secretive power and resolution. He was fond of studying chemistry, and one night late, after the family had gone to bed, he swallowed a large quantity of corrosive sublimate in mistake for some acid cooling powder. He immediately discovered his mistake and knew that death must shortly ensue unless he instantly swallowed the only antidote, chalk. Timid men would have torn at the bell, roused all the family and sent for a stomach pump. Emmet called no one, made no noise, but, stealing down stairs and unlocking the front door, went into the stable, scraped some chalk which he knew to be there and took sufficient doses of it to neutralize the poison.

Your Tramping Companion.

He may be all right in the city, a pleasant chap to lunch with and a good companion for an evening at the club, but beware of taking him along on a fortnight's hike through the woods or a cruise in a twenty-five footer. Test him thoroughly before you give him the chance to spoil your vacation. He may be grouchy, before breakfast, or he may be a plain shirker. Possibly the thin veneer of civilization conceals the primordial hog.—Outing.

Electric Light.

The basic discovery of the possibility of electric light was made by Sir Humphry Davy in 1810, but for the next fifty years the developments were solely scientific and no practical use was made of them. In 1882, however, an arc light was installed in a lighthouse at Dungeness, and this is generally believed to be the first electric lamp in regular service.

Conscience Money.

A West Virginia man sent a farmer \$3 in payment for a watermelon he stole fifteen years ago. If every boy that ever lived in the country were to develop a conscience like that the farmers would own most of the money in the world.

Different Route.

"How far is it to Guildford?" "Well, sir, as the crow flies, I should say it be ten miles."

"But if the crow were riding a bicycle how far would it be?"—Pall Mall Gazette.

Proof.

"How do you know she's older than you are?"

"Why, she admitted it herself. She said 'You and I are just the same age, dearie.'"—Cleveland Leader.

CASTORIA For Infants and Children. Mothers Know That Genuine Castoria Always Bears the Signature of Dr. J. C. H. Hatcher In Use For Over Thirty Years CASTORIA THE CENTAUR COMPANY, NEW YORK CITY. 900 DROPS CASTORIA The Proprietary of Small Medicine Act. Hatcher. THE CENTAUR COMPANY, MONTREAL & NEW YORK. 16 months old 35 Doses - 35 CENTS. Exact Copy of Wrapper.

The Late Alexander Karr Alexander Karr, one of the early settlers of Warwick township, and a resident of Forest and Bosanquet for several years, passed away Wednesday of last week, at his home McHenry street, aged 83 years, and 11 months. Deceased was born in the County of Fermanagh, Ireland, and came to Canada when quite young, with his parents. They first settled in Peel, but came to Warwick township over fifty years ago, where deceased resided some time. While a resident of Forest, several years ago he held the position of chief of police, and for a number of years he held the same position in Point Edward. He was twice married, his first wife being Mrs. Maggie Shelling, by whom one son was born George, who with his second wife, Agnes Broad, survives him; also three brothers, George of Forest, William of St. Thomas, and John of Warwick. He was a member of Bismarck Lodge, No. 419, A. F. & A. M., and the funeral which was held Saturday, was under Masonic auspices, conducted by members of Forest Lodge, No. 263, the pall-bearers being P. W. Campbell, J. Fraser, J. Greenlees, Thos. Ross, T. W. Mayor and A. Kent. The services were conducted by Rev. D. J. Cornish.—Standard.

Be Honest With Yourself And Us Figure out at the cost of flour and see for yourself if you can bake as cheap as we can supply you. All we ask is that you figure honestly. Bread at 8c for 1 1/2 lbs. is there any other food as cheap?

Give Ours A Trial BARNADO BOY FIRES BARN Sarnia, Oct. 19.—The mystery in many barn fires in Lambton County was dispersed to-day by the arrest and confession of George Edward Parker, a Barnado boy, aged 14 years. Parker, who has been employed with Robert March, near Wilkesport, told Constable T. E. Poland this morning that he had set the March barn on fire on the night of October 5th, because he "liked to see a fire." The boy was taken to Sarnia jail to-day and will appear before a county magistrate at once.

Stop Gushing Letters to "Lonely Soldiers" London, Oct. 17.—Lieut. Samuel Jarby, states that letters are received by Canadian Red Cross and similar institutions, the writers asking that they may correspond with some lonely soldier. Such letters are not now allowed to be forwarded to any soldiers further, and the Red Cross and like institutions, are forbidden to put soldiers into communication with unknown correspondents. One letter received at Lady Drummond's office today from Canada stipulated that it should be sent to some soldier "who must be good looking." It has been incorrectly stated that Canadian soldiers are not allowed to draw pay in English hospitals. The regulations are precisely the same on this point as in Canada, soldiers being allowed to draw up to two pounds monthly in addition to sending money to friends.

Children Cry FOR FLETCHER'S CASTORIA
