ST. ANDREWS, WEDNESDAY, AUG. 9, 1848.

Arrival of the

Steamship America.

The Royal Mail Steam-ship, *America*, which arrived at Halifax on Wednesday last, brings Liverpool dates to the 22d July. We have devoted all our available space in this day's impression to a summary of the news, which is copied from *Wilmer and Smith's European Times*.

Tue principal feature of the news, and to which most attention is given in the Mother country, is the present unsettled state of Ireland, and the probability of an extensive outbreak. The Government are adopting the most energetic measures to check, or put down at once, any attempt, on the part of the disaffected, to create rebellion.

Trade and commerce had not improved since the sailing of the former steamer, which is attributed to the disturbed state of Ireland.

From the general reports on the crops, &c., it appears that an abundant and early harvest was expected.

To CORRESPONDENTS—"One of the Many," came to hand just as our paper was ready for the press, but will be inserted in our next number. The subject he so ably treats upon, is one of much greater importance than is generally supposed; and has met with that attention, in all other parts of the Province.

A *Tax Payer* is referred to the Statute Law passed last winter. His remarks are not only personal, but abusive—therefore unfit for our columns.

TRADE TO THE UNITED STATES.—The new schooner *Clarinda* left here on Friday last for Boston, with a cargo of Miramichi Notions, consisting of grindstones, preserved fish, put up in tin cases, railroad sleepers, shingles, old iron, and several other trifles, together with several worthless Apprentices, who clandestinely left the employ of their masters, one of whom was a worthy from our establishment. The cargo (with the exception of the last-named item) was shipped by Messrs Johnson & Mackie.—*Gleaner.*

QUARANTINE, QUEBEC.—The latest accounts from Grosse Isle report that the number of sick in hospital was 105, at the healthy division for the purpose of purifying, 1,156.
