

Of new conditions, conquering civic
wrongs;
Saving the State anew by virtuous
lives;
Guarding their country's honor as their
own,
And their own as their country's and
their sons'.
Defying leagued fraud with single
truth,
Not fearing loss, and daring to be pure.
When error through the land raged like
a pest.
They calmed the madness caught from
mind to mind,
By wisdom drawn from old, and counsel
sane;
And as the martyrs of the ancient
world
Gave Death for man, so nobly gave
they Life;
Those the great days, and that the
heroic age."

RECESSIONAL.

God of our fathers, known of old—
Lord of our far-flung battle-line—
Beneath Whose awful Hand we hold
Dominion over palm and pine—
Lord God of Hosts, be with us yet,
Lest we forget—lest we forget!

The tumult and the shouting dies—
The captains and the kings depart;
Still stands Thine ancient sacrifice,

A humble and a contrite heart.
Lord God of Hosts, be with us yet,
Lest we forget—lest we forget!

Far-called our navies melt away—
On dune and headland sinks the
fire—
Lo, all our pomp of yesterday
Is one with Nineveh and Tyre!
Judge of the Nations, spare us yet,
Lest we forget—lest we forget!

If drunk with sight of power we loose
Wild tongues that have not Thee
in awe—
Such boasting as the Gentiles use
Or lesser breeds without the
Law—

Lord God of Hosts, be with us yet,
Lest we forget—lest we forget!

For heathen heart that puts her trust
In reeking tube and iron shard—
All valiant dust that builds on dust,
And guarding, calls not Thee to
guard—

For frantic boast and foolish word,
Thy mercy on Thy People, Lord!
Amen.

SCHOOL WORK.

ANNUAL EXAMINATIONS 1897.

SCEINCE.

Editor.—J. B. TURNER, B.A.

FORM III.

CHEMISTRY.

Examiners.—J. FOWLER, M.A., A.
MCGILL, B.A., J. C. MCLENNAN,
B.A.

The following are the papers that
were assigned in Chemistry for the

candidates from Form III. and IV.
at the recent High School examina-
tions.

The papers as a whole leave but
little to be desired either from the
standpoint of teacher of the subject,
or of the candidate.

The paper of Form IV. might have
contained a greater range of questions
with advantage; the element mag-
nesium, for example, receiving more
attention than its importance in the
curriculum demands.

NOTE.—Candidates will make ONE
ONLY of the alternatives in question 6.
