

BROWN OR BLACK OXIDE OF ZINC

May be desirable colors; but when one selects white or a tint, he does not want brown or black.

Is the only white pigment that holds its color in marine or railway work—therefore OXIDE OF ZINC is the only available pigment for white or tints on ships or boats or on railways.

FREE our practical Pamphlets:

- "The Paint Question,"
- "Paints in Architecture,"
- "Specifications for Architects,"
- "French Government Decrees,"
- "Paint: How, Why and When."

We do not grind zinc in oil. List of manufacturers of zinc white paints will be furnished on request.
