

Figured in my Illustrated Essay under *Chariclea*. I believe that *Pyrrhia* of Speyer, Hulner and myself, of which the type is the European *Umbra*, and of which we have three congeneric American forms, *Exprimens*, *Angulata* and *Stilla*, is a different genus from *Chariclea* Kirby, of which the type I take to be the European *Delphinii*. I originally referred the moth as allied to *Gortyna*, and it may yet be better placed there when its early stages are known.

ACOPA Harvey (1875).

*Type*: *Acopa Carina* Harvey.

In this genus the body is linear and slight, the tibiae unarmed, ocelli small, male antennæ brush-like with distinct joints, thorax with a tuft behind (in which it resembles the Heliothid genera *Oxyenemis* and *Triocnemis*), abdomen untufted, linear. The neuration is somewhat distinctive. Fore wings 12-veined with accessory cell, from the outer apex of which spring veins 7 and 8, 9 out of 8, a long furcation to costa. Hind wings 7-veined; median 3-branched; 8 out of 7 not far from the base. The legs are slender, tibiae unarmed. Dr. Harvey gives the characters in the Buffalo Bulletin, and figures the type from a Texan example. The species are white, hoary or pallid. I have seen the type of *Incana*, which is sufficiently distinct in appearance, but from its vague markings looks like some suffused varieties, as for instance, var. *Planus* of *Anytus Sculptus*. *Carina* is the smaller species; the type had the secondaries dark fuscous, but another specimen was paler. *Perpallida* is much stouter, the lines different, and it differs structurally in the smaller accessory cell on fore wings. It is chalky white, shaded with ochrey, and with narrow fuscous lines, the median farther apart than in *Carina*.

1. *Carina* Harvey. Texas.
2. *Perpallida* Gr. Kansas.
3. *Incana* Hy. Edw. Arizona.

(To be Continued.)

#### MEETING OF THE ROYAL SOCIETY OF CANADA.

A meeting of the above Society is to be held in Ottawa on the 22nd inst., when it is expected that many valuable papers will be presented. The Royal Society having honored the Entomological Society of Ontario by placing its name on the list of Societies who may send a delegate to take part in the proceedings, the Council have chosen Mr. James Fletcher,
