

LITHIA TABLETS [WARNER & CO.]

FOR THE ACCURATE ADMINISTRATION OF LITHIA.
EFFICACIOUS. ACCURATE. INEXPENSIVE. CONVENIENT.

Dose—One or two tablets in glass of water after effervescing.

PARVULES

25 Cents per Bottle of 100 Parvules.

PARVULES

(WARNER & CO.)

LAXATIVE
PURGATIVE

ALOIN, 1-10 Gr.

The most useful application of this Parvule is in periodic irregularities—Dysmenorrhœa and Amenorrhœa. They should be given in doses of one or two every evening, and at about the expected time.

Dose.—4 to 6 at once. This number of Parvules, taken at any time, will be bound to exert an easy, prompt and ample cathartic effect, unattended with nausea, and, in all respects furnishing the most satisfactory aperient and cathartic preparation in use. For habitual constipation they replace, when taken in single Parvules, the various medicated waters, avoiding the quantity required by the latter as a dose, which fills the stomach and deranges the digestive organs.

PARVULES

(WARNER & CO.)

ALTERATIVE
PURGATIVE

CALONEL, 1-20 Gr.

Dose.—1 to 2 every hour. Two Parvules of Calomel taken every hour until five or six doses are administered (which will comprise but half a grain), produce an activity of the liver, which will be followed by bilious dejections and beneficial effects that twenty grains of Blue Mass or ten grains of Calomel rarely cause; and sickness of the stomach does not usually follow.

PARVULES

(WARNER & CO.)

CATHARTIC
CHOLAGOGUE

PODOPHYLLIN, 1-40 gr.

Two Parvules of Podophyllin, administered three times a day, will re-establish and regulate the peristaltic action and relieve habitual constipation, add tone to the liver, and invigorate the digestive functions. Supplied by all druggists, or sent by mail on receipt of price.
