Scientific and Ascful.

NICE PRENCH AKE.

Two cups of sugar, one-half cup of butter, four eggs, one cup of milk, three cups of flour, one teaspoonful of soda, and two teaspoonfuls of cream tarter. This makes two loves.

NICE MOLASSES COOKIES.

One cup molasses; one-half cup cold water one-half cup of laid or butter; one heaping teaspoonful of vinegar; one teaspoonful of ginger.

GOOD DOUGNUTS.

Two cups of sugar; two cups of sweet milk; two eggs; one teaspoonful of salera-tus; two teaspoonfuls of cream tartar one teaspoonful ginger; little nutmeg. CURE FOR POISON FROM IVI.

Steep pokeroot in hot water, and bathe the parts affected with the resulting liquor.

TO PICKLE GREEN TOMATORS.

Cut in thin slices a peck of green tomatoes sprinkle with salt, allowing a pint to a peck; let them stand twenty-four hours, and then drain them. Slice twelve onions, a quarter of a pound ground mustard seed. one ounce whole allspice, one of whole cloves, one ounce ground black pepper. Put in the kettle a layer of each—one of tomatoes and one of mixed spice and onions—until all are m alternately, then cover with vinegar and let them boil until clear. Sprinkle a cup of sugar with the to matees and spice just before they are done. It makes a very savery pickle, and will keep over a year.

WATERMELON-RIND PICKLE.

Teel the outer rind from ten pounds of Feel the outer rind from ten pounds of the melon. Put the pieces, cut in such fashion as you may fancy, into your pre-serving-kettle well covered with water. Tet them boil a few minutes. Then lay on dishes to drain and cool. Pour out of the kettle in which you par-boiled the fruit, and return to it the rind as soon as cooled. and return to it the rind as soon as cooled. Cover with vinegar and three pounds of sugar seasoned to your taste with mace, cloves, and allspice. For three or four mornings successfully pour off the vinegar, bring it to boiling heat and pour over the pickles, when it will be ready for itse.

SPICED FRUIT.

Among the delicacies of the table are spiced currants, eaten instead of currant jolly, with meats. Any other acid fruit, as pears, apoles, and peaches, are very mee put up in this manner. To seven pounds of fruit add three pounds of sugar, one pint of vinegar, and a tablespoonful of every kind of spice—cloves, cinnamon, allspice, and without and nutmeg.

KEEPING HAMS.

Farmers' families are often troubled about how to keep hams in the Summer.
We have tried a good many ways, and have always failed in keeping them nicely.
The smoke house, though hidden away in among the apple trees that lay their limbs lovingly over, above, and around it, is still too warm; the wide, roomy cellar too damp; and the shop, though cool and airy, being the large third story of the "old house," is too light.

A good neighbor, who knows all about it, tells me that he always packs away hams in the early Spring time, before the flies come, in a box, with all the interstics between the ham filled up with some coarse, dry salt, that he has used for many years for the same purpose—salt that came out of fish barrols. He washed and dried it thoroughly first. He keeps the box in his barn, in a cool, airy place.

AS TO BOTS.

Bots are the larve of the horse gad-fly Bots are the larve of the horse gad-fly (Estres equs), and are in a condition exactly equivalent to that of the catipillar of a moth or butterfly. They, therefore, cannot breed or reproduce themselves in the stomach of a horse, being imperfect insects and incapable of breeding. It is easier to prevent their presence in the larves stomach than te get rid of them. If the yellow nits or eggs which may be seen upon horses' knees or shoulders in July or August are washed off with warm water, or scrand off with the edge of a knife, the scraped off with the edge of a knife, the horse cannot lick them off and carry them to then temporary resting-place. Every farmer should learn the natural history of * the msects and animals with which comes in contact; then he would know he w to treat them with propriety.

While a certain amount of salt is absolutely necessary for the health of stock, it by no means follows that its indiscriminate use is either needful or safe. On the conuse is either needful or sale. On the con-trary, salt used in excessive quantities is highly dangerous. It then acts upon the stem ch and intertines as an irritant poison, and cases of death have occurred through permitting cattle and hogs to con-sume too much of it. When stock are allowed free access to it they will take a small quantity very often, but if denied a frequent supply they become ravenous for it, and are in danger of eating it to excess. The safest way is to use a small quantity regularly in the food; a quarter of an ounce regularly in the food; a quarter of an ounce daily being amply sufficient for a cow of a horse, and a fourth of that quantity for a horse, and a fourth of that quantity for a horse, and a fourth of that quantity for a horse, and a fourth of that one ounce at a time should be given to a cow, and a quarter of an ounce to a sheep or hog. It should also be given in such a manner that no one animal should eat more than its share. It may be given scattered thinly in the feeding trough with more safety than in any other why, excepting when ht is mixed with the food. Regularity in itsuse is the most conductive to the health of the cattle. We find it necessary to give this caution because some of our renders have been led to suppose, very orroneously, that as a 1t, is a good thing, steck cannot have too much of it.

No man ever sank under the burden of to-day. It is when to-morrow's burden is added to the burden of to-day that the weight is more than a man can boar.

DR. C. M'LANE'S

CELEBRATED

LIVER PILLS.

IOR THE CURE OF

Hepatitis or Liver Complaint, DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pun is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is some-times mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensa-tion of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. veral of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the Li-VER to have been extensively deranged.

AGUE AND FEVER.

DR. C. M'LANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them A FAIR TRIAL.

Address all orders to FLEMING BROS., PITTSBURGH, PA.

P S Dealers and Physicians ordering from others than Fleming Bros, will do well to write their orders distinctly, and take none but Dr. C. M. Lane's, prepared by Fleming Bros, Puttiburgh, Pa. To those wishing to give them a trial, we will forward per mail, post-paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

Sold by all respectable Druggists and Country Store-keepers generally.

Dr. C. M'Lane's Vermifuge

Should be kept in every nursery. If you would have your children grow up to be HEALINY, STRONG, and VIGOROUS MEN and WOMEN, give them a few doses of M'LANE'S VERMIFUGE,

TO EXPEL THE WORMS. AT BEWARE OF IMITATIONS. UNION MUTUAL
