**NO HOME IS COMPLETE WITHOUT THE EAGLE STEAM WASHER.**

**MESSRS. FERRIS & Co.,**

DEAR SIRS.—About two years ago I was in Philadelphia, and while there I bought one of your Steam Washers, and brought it home to my wife. She has been using it ever since, and is well pleased with it. It does all you claim for it, and every family should have one, for the saving on clothes every few months would more than pay for the machine.

# SCIATICA CURED

By Dr. McCully.

Mr. Lewis, whom this cut represents, lives in Meaford, Ont. He was a victim for some time of Sciatica and the representative ignorance of the medical profession, and for a wonder escaped from both with his life, another sacrifice to the licensed humbugs of this province. He came to Dr. McCully for relief, and he did not come in vain, for a few weeks after he writes: "I am doing splendidly; I have no more pain now, and am working at my trade." Electricity scientifically applied cured this man. Electricity is the only remedy for sciatica, but as it is not taught in our medical schools as a scientific part of medical training, the average medical man knows more about a glass of whiskey than he does about this great remedial agent. There are to-day many medical professors in this city who could not set up 12 Bunson cells, form a current and say which is the positive and which the negative pole. No wonder these poor wretches are "ashamed of their company and pray for separation." Ignorance hates light. To-day the medical schools of this city are machines to grind out students, and practical medical science is lost sight of in the race to turn out long lists of graduates. If it were a case of dog eat dog, the public might not object, but the people are the victims on whom these stuffed geese practice their subtle want of knowledge.

This happy family demand more legislation, more protection, a more distinctive gag law. They are afraid of exposures, and they would rather at any time see a patient die than fall into the hands of an advertiser and recover, for fear the public may lose confidence in the genuine orthodox breed. A man was poisoned in this city a few days ago by a drug-gift with morphine, and the man died; two doctors saw him while in profound coma from the morphine, they hushed the matter up, and sent a lying certificate to be registered as to the cause of death—accidents after the fact. Who needs protection, eh? These refined scientists never seek a quarrel with their coadjutor as to who does the job, they simply say, "pass on another." Remember, readers, the cures we publish are cures effected when all medical treatment has failed, and every statement we make we can verify by the patient whose case we publish. Our field is chronic disease in male and female, old and young, the follies of youth, and the errors of maturer years, skin diseases, tumors, cancers and deformities.
