

Wallace College and Business University

OBJECT.—The object of this institution is to prepare young ladies and gentlemen for a business, professional or industrial position at a minimum of cost and within the least possible delay.

SCORE.—For the present it will be confined to commercial, technical, industrial and mathematical studies.

CURRICULUM.—The following courses will be given: Preparatory, Commercial, Stenographic, Drawing, Music, Mathematic, Civil Service, Navigation, Telegraph, English and French.

SPECIAL COURSES.—Special courses will be given to those intending to enter the Royal Military College or the Science Courses of Laval and McGill Universities.

SUBJECTS TAUGHT.—Among the Commercial, Technical and Industrial subjects may be mentioned: Book-keeping, Brevigraphy, Chirography, Clavigraphy, Commercial Law, Correspondence, Drawing, English, French, Geography, History, Music (Piano, Organ, and Band Instruments) Stenography and Telegraphy. The Mathematical subjects include Algebra, Arithmetic, Astronomy, Geometry, Levelling, Logarithms, Mensuration, Navigation, Surveying and Trigonometry.

OPTIONAL STUDIES.—All the studies are optional. Each student chooses such study or studies as seem best suited to the object he wishes to attain.

INDIVIDUAL INSTRUCTION.—Pupils are taught individually. No one is kept back by his slower neighbour. Each one receives the instruction, emulation and encouragement suited to him in particular, and all are urged to strive for a creditable graduation.

SHORTHAND.—We use the Pitman's system on account of its adaptability to all modern languages.

DIPLOMAS.—Diplomas will be issued at the end of the present term to deserving pupils on passing satisfactory examinations in certain prescribed subjects. They are not sold nor given away as gifts and are indicative of merit on the part of the recipient.

EXAMINATIONS.—There is no set time for holding examinations. They are held at any time at the request of a pupil when the latter considers himself competent in any one or more subjects.

They are known as primal, medial and final; and indicate three successive degrees of progress acquired by the pupil.
