

101.3 Berth

Means any wharf, pier, anchorage or mooring buoy.

101.4 Canadian Vessel Traffic Regulator or U.S. Watch Supervisor

Means the person at a vessel traffic management centre authorized by the appropriate Authority to administer the vessel traffic management regulations.

101.5 Cooperative Vessel Traffic Management System

Means the cooperative system of vessel traffic management established within the applicable waters pursuant to this Agreement.

101.6 Exchange Line

Means a sector boundary where vessel traffic passes from management by one Authority to management by the other Authority.

101.7 Parties

Means the Government of Canada and the Government of the United States of America.

101.8 Routing System

Means any system of routing measures aimed at reducing the risk of casualties, including traffic separation schemes, two-way routes, recommended tracks, areas to be avoided, inshore traffic zones, roundabouts, precautionary areas and deep water routes.

101.9 Sector

Means a subdivision of the applicable waters geographically defined for purposes of allocating the responsibility for vessel traffic management to one of the Authorities.

101.10 Traffic Clearance

Means an authorization by a Canadian vessel traffic regulator or a U.S. watch supervisor for a vessel to enter the cooperative vessel traffic management system, depart a berth, proceed or manoeuvre within the applicable waters.

101.11 Vessel

Means every description of water craft, including nondisplacement craft and seaplanes, used or capable of being used as a means of transportation on water.

101.12 Vessel Traffic Management

Means the management of vessel traffic by the use of such procedures and equipment as may be agreed by the Authorities, including vessel movement reporting
