

Press Releases  
and  
Interviews

14.03 Press releases and interviews are not ordinarily given out by consular officers except upon instructions from the Department. Where there has been an important change in Canadian legislation this will frequently be communicated to the consular officer with an indication that he may make such use of it locally as he deems in the best interest of Canada.

Subject  
Material

14.04 There is an Information Division within the Department which can provide material with respect to subjects upon which the consul may desire to speak, and this source of material should be called upon freely.

National Film  
Board

14.05 The National Film Board provides many excellent films which the Consul can from time to time arrange to have shown locally with much benefit.
