

Unemployment

have considered it decided. If they are not, I shall put my finger on the authorities and give them later. I know that the authorities do exist, and I shall quote them to the hon. member. If at that time hon. members have views on the subject, I shall be very pleased to hear them.

Some hon. Members: Question.

Mr. Quelch: I would like to point out that the hon. member for Fraser Valley (Mr. Patterson) has not spoken on the main motion. He spoke only on the amendment.

Mr. Speaker: That does not alter the point. Let us say that at this moment, until the point is decided—it is time to adjourn—we will postpone any settlement of this question to whatever time the motion is presented again.

BUSINESS OF THE HOUSE

Mr. Harris: Tomorrow, relying on the unanimous consent given on Friday, I shall move to go into supply to take the remainder of the supplementary estimates. Then, if this matter has been cleared up and if it is not likely that there will be much in the way of grievances, we possibly could consider calling those after the supplementary estimates, but not necessarily so. In any event we shall also call the War Veterans Allowance Act and, if there is any time, any legislation standing in the name of the Minister of Northern Affairs and National Resources.

It being fourteen minutes after ten o'clock the house adjourned, without question put, pursuant to standing order.
