

Sir Arthur Currie      -2

the Director of Exhibits that one booth would be given over to the Universities of Canada and that all their exhibits would be arranged within that space. Those instructions did not disturb me because, when exhibiting at the Canadian National Exhibition, I have always secured the material first and arranged it in the space afterwards but these instructions made it impossible for me to give Dr. Lomer the specific information for which he asked.

Faithfully yours,

WJD/MS-564

A handwritten signature in cursive script, reading "W.J. Dunlop", is written over a diagonal line that extends from the bottom left towards the top right.
