

YORK COUNTY AND SUBURBS

EXPANSION YEAR AT OAKVILLE FAIR

Banner Turnout on Fine New Ten Acre Park—Horses Splendid.

FRUIT AWAY AHEAD

Some Fine Shorthorns and Holsteins Among the Live Stock.

"Some fine horses" was the most frequent remark heard at Oakville Fair yesterday, and it was well said for Oakville, as the usual sustained reputation for having one of the best horse exhibits in Ontario. The pony class led the way this year and some of the riding was done by the boys from Appleton School. The Ennesclaire Hunt Club also contributed largely to the day's entertainment with a fine turnout of the splendid hunters.

The showing in the roadster class was much finer than last year. Mr. Martin of Hamilton carrying off the first prize with an extra fine horse. Emmerson Featherstone of Oakville won the special prize for the best hunter and J. H. Kennedy of Toronto won the silver cup donated by H. C. Cox for the best carriage horse.

L. H. Kemp of Oakville secured first for the best single high stepper and Mr. Allan of Hamilton was awarded first prize in the single pony class. The first prize for the best saddle horse went to W. P. Davis of Oakville, and Miss Hazel Chisholm was acclaimed the best lady rider. Miss Marriot secured second.

Shorthorns and Holsteins. Live stock was considered to be a little below the average this year, although the George E. Morton made a fine showing of pure bred Shorthorn cattle and E. F. Oler sent a splendid exhibit of Holsteins, one remarkable specimen being "Sir Mina," a three-year-old Holstein bull, weighing 2150 pounds. Another bull shown by the exhibitors, a smaller bull of the same breed, he donated as a special for the best grade head of stock by Biggar Brothers of Trafalgar.

Excellent Fruit. Fruit and vegetable exhibits were away ahead of previous years in size and quality, one of the big tent being occupied by an exhibit of potted fruit shown by the Oakville Fruit Growers' Association, and a demonstration of apple packing was given. The banded exhibition of the fruit shown by the association was grown in the neighborhood of Oakville and Brant.

Smith Brothers of Oakville made a fine showing with peaches and apples, carrying off prizes, and P. A. Batt was awarded two prizes for plums. Thomas Brown secured a number of prizes with a fine exhibit of grapes and pears.

Miss Minnie Robertson was very successful in cut flowers, besides being awarded two prizes for bread and cake making.

Three Rings Needed. The directors of the Trafalgar Agricultural Society are to be congratulated upon the success of the first show in the new fair grounds, and the provision they have made for future expansion by securing ten acres for the purpose. Three rings were required yesterday to accommodate the various equestrian events, and there was something going on all the time in every one of them.

While tents had to be utilized for produce exhibits this year, it is the intention of the association to erect permanent exhibition buildings on the grounds.

Anniversary Service. On Sunday anniversary services will be held at Mount Pleasant Church, Meriton, at 2:30 p.m. and 7 p.m. The Rev. Mr. Dobson, of Toronto, will be the preacher. The choir of Mount Pleasant Church have charge of the singing.

On the Monday evening following a concert and social will be held. The best of talent will render the program. The members of Court Connaught, Ancient Order of Foresters, No. 3223, will attend divine service in St. Jude's Church tomorrow, September 28th, at eleven o'clock. The Oakville band will lead them. A number of visiting brethren are expected. The rector, Rev. H. F. D. Woodcock, will preach to them.

The Annual Children's Day Service will be held in the Presbyterian Church tomorrow, when Rev. J. E. Munro, B.A., will preach a special sermon. School children will be invited to meet in the schoolroom at a quarter to eleven.

VAUGHAN TOWNSHIP SCHOOL FAIR

In Township Hall, Vellore, October 1—Agriculture and Physical Culture.

Vaughan Township Rural School Fair will be held in the township hall at Vellore on Oct. 1. C. P. Bailey, assistant deputy minister of agriculture; C. W. Malloy, public school inspector for North York, and other officials will be given in addition to the usual prizes. This gathering will take the form of a picnic, everybody being invited.

DANFORTH AVENUE

The need of a public lavatory is badly felt in this district, the nearest being at the corner of Broadway and Queen. A good location for one in this district would be at the corner of Broadway and Danforth.

The formation of the new Ratepayers' Association is looked upon with great approval by the residents of the district, and there is no doubt it will be the means by which big accomplishments will be attained.

FODDER IS DEAR MILK MUST SOAR

Farmers and Retailers Meet to Discuss the Winter Prices.

MEET AGAIN MONDAY

Producers Want an Advance of Thirteen Cents Per Can.

A joint meeting of the executive of the Toronto Milk and Cream Producers' Association and the representatives of the Toronto Retail Milk Association was held in the Albion Hotel on Friday afternoon to discuss the price of milk for the ensuing winter months. The price of milk is expected to come to an agreement as to price, a winter term of seven months was agreed upon. The farmers are asking for an advance of 13 cents a can over last year, because of the dry weather of the past few months, which caused a shortage in the root and corn crops and dried up the pasture. Another reason is the advanced price of mill feed and the increase in price of best cutl has resulted in higher prices for milk cows.

The price asked by the producers of the Montreal district this year is \$1.92 a can, whereas the price asked by the Toronto milk producers is \$1.75, but the retailers refuse to pay it.

An emergency meeting of the producers' association will be held in the Labor Temple on Monday, the 29th, to further discuss the situation.

LONG RECORD OF FAITHFUL SERVICE

Late Robert Johnston Held Many High Positions in Public Life.

Robert Johnston, registrar of Peel County, passed away at his home in Brampton, yesterday after a lingering illness in his 60th year. The late Robert Johnston was born at Mono Mills, in the Township of Caledon, in 1852, where he earned success in the business of a farmer. He took a great interest in public affairs, having been president of the Cardwell Liberal-Conservative Association for years. In 1890 he was elected warden of the county. The same year he ran for the Dominion House as a member from Cardwell and was elected, retiring from public life when Cardwell was wiped off the map in 1903. He is survived by a widow, a daughter, Mr. John McGowan, ex-M.P. for East Wellington, who was Mr. Johnston's desk mate at Ottawa. The funeral will be held on Saturday at St. Andrew's Presbyterian Church, Caledon, and interment made in family burying grounds.

A stable at the rear of the old registry office, Queen street, and occupied as a residence by Mr. John Williams, was burned to the ground yesterday afternoon when the Luther Cheyne adjoining caught fire, but was quickly extinguished. Children playing with matches is given as the cause.

ANNEXATION TALK AT RUNNYMEDE

Hot Discussion Expected When Ratepayers Meet Monday Night.

The Keele street firemen were called out on a useless run yesterday afternoon about 5 o'clock to a lane in the rear of Glenora avenue. A fire had started in a pile of rubbish behind the 209 Glenora avenue, which is vacant, but a full of rubbish of water from the neighbors had the fire extinguished before the firemen's arrival.

Strenuous discussion on the annexation question is expected at the meeting of the Runnymede Ratepayers' Association, who will hold session on Monday evening in the Public Library, 209 Glenora avenue. The firemen's residents in this section is very much divided on this question, although the district bounded by Jane street, Runnymede road, Annette and Dundas streets are much more in favor of annexation than their neighbors to the north, who they aver is associated with the Ham-bur boulevard scheme. At the meeting on Monday a delegation of Scarlett Plains citizens are expected to be on hand and contest the annexation policy of southern Runnymede.

LABOR DAY DRAWING

Of the thousands who bought five cent tickets in the Labor Day drawing, the following five competitors will be the winners: First prize, Fred J. Wilson, 313 Dundas street; second prize, Arthur Rowland, 26 Natalie street; fourth prize, Frank S. Chapman, 27 Widener street, and fifth prize, Harry Digby, 212 Logan avenue.

MORE ARRESTS AT BERLIN

LONDON, Sept. 26.—The Daily Telegraph's Berlin correspondent says as the result of police investigations 13 more persons have been arrested in connection with the school girl scandal at Berlin.

DIETARY VALUE OF SULPHUR AND ALUM

Board of Experts Will Shortly Report to Uncle Sam's Government.

Within the next few weeks the people of the United States will know the attitude of the Remsen board on the use of sulphur and alum in the preparation of foods and beverages. The sulphur decision is awaited with great interest, especially by the people of the Pacific Coast, where the chemical is used extensively in the preparation of dried and evaporated fruits.

Following the decisions on the use of benzoate of soda and saccharin in foods and drinks, the Remsen board's findings on sulphur and alum are looked forward to as a step toward the solution of the most important pure food problems which have faced since the passage of the food and drug act.

The Remsen board has recently completed its investigations of sulphur and alum and their use in foods and beverages, and the finished reports are now in the hands of the board of agriculture and the officials of the bureau of public not one word will be given out by the board until the reports are made public to the rest of the world.

Experts in the bureau of chemistry believed that manufacturers had sufficient evidence to show that foods were much more palatable when treated with sulphur and alum, and the government would gradually be abandoned. Many who have used sulphur and alum in their food, and the findings in food and wines are objectionable, and the use of these chemicals in food and wines is objectionable, and the use of these chemicals in food and wines is objectionable.

Experts in the bureau of chemistry believed that manufacturers had sufficient evidence to show that foods were much more palatable when treated with sulphur and alum, and the government would gradually be abandoned. Many who have used sulphur and alum in their food, and the findings in food and wines are objectionable, and the use of these chemicals in food and wines is objectionable.

COMMERCIAL USES OF LIME PRODUCTS

Demand Greater Than Ever Before—Pennsylvania Has Biggest Output.

In the year 1912 the demand for lime in the United States was 1,174,386 short tons, valued at \$13,970,114, as compared with 1,339,215 short tons, valued at \$15,658,054, in 1911. The total production of lime in the United States in 1912 was 1,174,386 short tons, valued at \$13,970,114, as compared with 1,339,215 short tons, valued at \$15,658,054, in 1911.

MARK TWAIN FELL IN PIRATES' HANDS

Former American Humorist Gets Dose of Own Medicine.

During Mark Twain's first visit to our shores, writer Marion Schuyler Allen in the Strand, a true picture of the situation, signaled a step in our acquaintance, that such a scene as we have seen out of his own books.

As the steady old steamer with its burden of light-hearted humanity calmly steamed down the Narrows, we were startled by the appearance of a ship's full of fierce-looking pirates. They were armed to the teeth and wildly gesticulating.

OIL-RUN TOW BOAT OF ITALIAN NAVY

Compressed Air, at Low Pressure, Creates Satisfactory Results.

The new Diesel oil-engine towboat of the Italian navy has a displacement of 107 tons, but is equipped with only four twelve-cycle engine of 250 horsepower, running at 250 revolutions per minute.

AMPLE PROOF WILL BE GIVEN YOU ON REQUEST

Dr. M. C. McLaughlin, 237 Yonge St., Toronto

Never mind waiting until you use the last dose of that bottle from the drug store. Begin now. Call and talk your case over with me, or send for my book. It costs you nothing. For over 24 years I have taught the greatest doctrine by making cases upon others have proved the soundness of my doctrine by the work I am doing with my ELECTRIC BELT. They offer power whatever. They are like "boys on bladders" doubling on a sea of uncertainty, while to-day the DR. McLAUGHLIN ELECTRIC BELT stands the world on its head as the most perfect method of applying Galvanic Electricity to the body that has ever been devised.

B, Etobicoke, on Wednesday, Oct. 1st, at one o'clock p.m., the following: Gray mare, roan, standing 5 years, by Eighteen Karat; gray horse, standing 5 years, by Eighteen Karat; gray horse, standing 5 years, by Eighteen Karat; and have good action; chestnut driver, with saddle and harness; horse, good worker; gray horse, 1 year, good driver. Also a number of milch cows, etc. No reserve price.

ATTRACTIVE BEDROOMS THAT INDUCE REST

"Attractive Bedrooms That Induce Rest" is an illustrated feature, and the woman who enjoys her kitchen work will find interest in an article that tells how to make grape juice. More letters from Toronto women telling how they fight the high cost of living are given.

A real page for the kiddies, all set in big type that they may easily read it is a part of the Women's Section.

"Too much speed and too little sympathy in our criminal courts" is a well-handled article that every person who thinks of others will find deeply engaging. The "Extravaganza" story this week deals with motor cars, and another side of the Jewish movement above College street is discussed.

The Illustrated Section this week has a wide range of interest. The reading matter throughout the paper has been increased in volume and in appeal to the general reader.

Your newsdealer will deliver it to your door each week.

Or for sale every place—five cents.

With a galvanometer receiver reflecting a beam of light on a moving photographic strip, H. Abraham, of the Paris Observatory, makes accurate photographic time records of Hertzsprung's stars, which are making seconds marks on the strip, he claims to make measurements to 1-1000 second and to estimate 1-40,000 second on the wave charts.

KIDNEY TROUBLE - LUMBAGO - NERVOUS DEBILITY

When you feel a pain in your back something is wrong and you had better cure it at once. Electricity will do this while you sleep. Use it when you go to bed, and your pain is gone in the morning. You feel it pouring glowing heat into your back and can notice improvement after one night's use. In a few weeks the trouble is gone forever. It saves you future misery and doctors' bills and costs less than a course of drugging.

Nature is appealing to you every moment to save yourself. The slight pains that you feel, the momentary spells of weakness, the periodic loss of memory, the dullness of brain, drowsiness—all point to the necessity of curing yourself now. I have a positive cure for you in my

DR. McLAUGHLIN'S ELECTRIC APPLIANCE

This is the treatment that has restored thousands of people to the highest standards of strength and ambition. It is adapted especially to this trouble, and never fails in its grand cure.

Dear Sir:—I would have written you before, but I think my case was worse than you really understood it to be, and I wanted to give you a full account, as my limbs were numb from my hip down to my feet. I gave it a fair trial, and it did all you said it would, and I wanted to give you a full account, that is the reason I did not write before. I tell my friends, when they ask me what made me look so big and fat, that I am using your Electric Belt. I tell them, if they have lame back or Rheumatism, to get one. Hoping this will reach the eyes of my friends, I remain,

Yours truly, James McKenna.
