

FRENCH AIRMEN BOMBARD TOWN IN RETALIATION

Forty Aeroplanes Pay Surprise Visit to Saarbrücken, in Lorraine

BIG GUN FIGHT GOES ON

German Trenches North of Arras Almost Completely Swept Away.

Special Cable to The Toronto World, LONDON, Sept. 6.—In reprisal for the bombardment of the open town of Lunville by four German aeroplanes last Thursday, a squadron of forty aeroplanes bombed the station, military works and military establishments at Saarbrücken in German Lorraine, this morning, doing considerable damage.

The French official statement says regarding the Teuton bombardment of Lunville that the town was open with absolutely no military establishment to destroy. The Germans showed a refinement of harshness by clearly aiming at the populous sections, and by selecting for the execution of their operations, the day and hour of the market and their victims were for the most part women and children.

A German aeroplane was forced to land at Calais and the aviators were taken prisoner. St. Die was bombed by German aviators, but no loss or damage ensued.

Artillery Engagements. The German barracks at Dieuse was also bombed by French aviators. The usual artillery combats were continued with the Germans replying in the region of Roye, in Champagne, on the Fethes and Beasjour fronts in the Apremont forest, at a point north of Crey, at Rocincourt and Bretancourt, and at points south and north of Arras.

Heavy damage was inflicted on the German trenches by the French batteries north of Arras.

Fighting with mines at Court Chausées, in the Argonne, is reported and combats with big bombs at Schatzmannelle and Hartmannsweilerkopf in the Voges, were other features of the day's operations.

Uncle Sam was a pedlar—Connecticut born. INDIAN WINS RACE

The Hamilton Baseball Team Closes Season With Two Victories.

By a Staff Reporter. HAMILTON, Tuesday morning, Sept. 7.—Arthur Jamieson, the Indian runner of this city, won the annual Labor Day 10-mile road race here yesterday, covering the distance in 33:57. He secured an early lead and retained it through, finishing three minutes and three seconds in front of Stuart Allen of St. Catharines, who was second. McShannon, Montreal; Cecil Phillips, Hamilton; Lawrence Montreal, finished third, fourth and fifth respectively.

Weight Falls to Basement. Shortly after 9:30 last evening the 800-pound weight on the Collegiate Institute Bell broke loose and fell thru three floors to the basement. It tore a hole about two feet square in each floor and went thru the office.

Hamilton Wins at Close. Hamilton closed its fifth season of Canadian League baseball by taking a double-header from Brantford here yesterday, which puts the team in third place, only two points behind Guelph. The standing this year is seven points higher than in any previous year, it being 334, the nearest to this being made in 1911 when the percentage was 327.

The Brant was handed a shutout by Dougherty in the morning game, when they were beaten 2 to 0. In the afternoon the score was 5 to 4 after 13 innings had been played. Dougherty was in great form in the morning and the visitors went hitless until the eighth, when Byers managed to connect for a single. Gabby Ivers secured Lawrence's other hit for his team in the ninth, when he slashed out a nice two-bagger. Dougherty was opposed by Close, who was also in great form, allowing only six singles, which he kept well scattered. The locals garnered their two runs in the fourth and eighth.

Cleaver. Brantford City League twirler, did the pitching in the afternoon struggle and went along nicely until the seventh session, when he weakened and started passing the Hamilton batters. This run was secured off him until then, that being in the first. In the seventh he walked three men, and then King hammered out a triple, which cleaned the bases and evened up the score. The Brant had tallied four runs. Neither team scored again until the thirteenth, when Walker, who had relieved Cleaver, was hit for two singles and a double. Dolan started the hitting, but he was cut off at the plate when he attempted to go home on Zeiner's double. The letter crossed the plate a minute later with the winning run when

DO YOU REALLY KNOW

What an aluminum metal player action in a player-piano MEANS? Then have demonstrated to you the HEINTZMAN & CO. PLAYER-PIANO

"The Different Player-Piano"

Have explained to you just what it means—how the essential valves being made of one piece of aluminum cannot shrink or swell owing to heat or dampness or climatic conditions. This means absolute permanency of tone not possible in a wooden action player-piano where the valves are bound to swell or shrink in time and cause air leakage, which means trouble in operation and uncertainty of tone.

"READY!" SAY BOYS OF FIFTY-EIGHTH

Visiting Overseas Men Got Great Send-Off at Yonge Street Wharf

RECRUITING IS ACTIVE

Streets Were Alive With Visiting Soldiers on the Holiday.

About a thousand people were at the Yonge Street Wharf at 9:30 last night to give a "send-off" to the men of the 58th Overseas Battalion. This regiment spent Labor Day in Toronto, coming especially from Niagara to march in the big Labor Day procession to the "Ex." Coming back from the fair grounds the regiment paraded via the Old Fort road and Front street.

Before going aboard the Cayuga, the men formed up as a battalion in Bay-side Park and were then allowed to relax. The rest was very welcome to them as all had been up since 4 a.m. When the battalion boarded the steamer, it received an ovation from the big crowd on the wharf.

As the boat pulled out a small boy shouted, "Are you ready?" "Yes, anytime," the soldiers answered back.

Since the central recruiting depot at the armories was opened, three weeks ago, 2500 men have been sworn in for active service. The average is \$30 a week.

During the past week over 100 of the recruits obtained by the Queen's Own were accepted for active service by the recruiting depot. The fact that every recruit enlisting thru the Q. O. R. is given a uniform, without delay, is said to be a strong factor in

SINKING HESPERIAN TO REVIVE TENSION

Torpedoing Without Warning Will Stir Up American Opinion Again

VIEW OF PARIS PRESS

Illusory Promises of Ambassador Von Bernstorff No Guarantee.

PARIS, Sept. 6.—Great prominence is given by the morning papers to the torpedoing of the Hesperian, but all declare themselves at a loss to find a theory to account for such a proceeding by a German submarine six days after Ambassador Von Bernstorff's solemn assurances to the United States that no more liners would be torpedoed unless they tried to ram the under-water craft or attempt to escape, neither of which the Hesperian appears to have done.

"It remains to be seen," says The Pettit Fielder, "how American opinion will take the event. In all likelihood the torpedoing of the Hesperian will bring the state of tension which Ambassador Bernstorff flattered himself had been dispelled for Americans will realize that illusory promises of the imperial ambassador furnish not the slightest additional guarantee to those of them who are called upon to cross the Atlantic."

ST. THOMAS, Ont., Sept. 6.—Accidental death, with no blame attached to anyone, was the verdict returned by Coronar Dr. J. D. Curtis' jury today in connection with the death of William H. Berry, rural mail carrier of Union, who was killed August 14 by being struck by a London and Port Stanley Railway special car. The car carried Sir Adam Beck and a party of New York State Hydro-electric investigators. The jury found that the electric car was going at an excessive rate of speed, and that at the crossing where the fatality occurred is a dangerous one.

SPIRITED ENCOUNTERS ALONG ITALIAN FRONT

Reconnaissance Parties Clash at Many Points With Austrian Troops.

ROME, via Paris, Sept. 6, 10:05 p.m.—The following official communication was issued from general headquarters today: "Frequent and spirited reconnaissances have resulted in encounters with enemy detachments which were obliged to yield and retire. Similar actions, but of greater importance, occurred Sept. 4 in the Adige Valley, near Marco, and in the San Pellegino Valley, along the Avio at a place west of Costabella, where we destroyed some entrenchments of the enemy."

"In the Plezzo basin our troops attacked and put to flight enemy detachments in ambush on the slope of Monte Robon and captured arms and munitions."

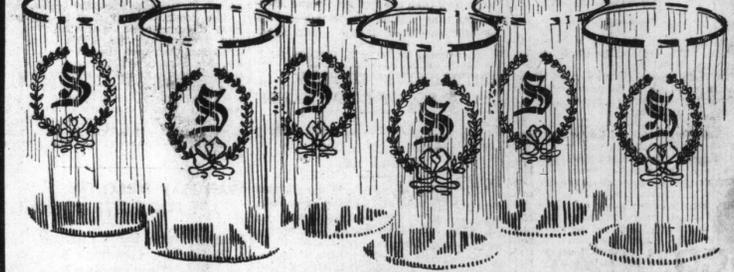

"In the Koritnica Valley (upper Lonzo) one of our detachments drove the enemy from a wood, where he had been emplacing our lines by his fire, and later occupied the wood."
