MANY FRENCH RAIDS

ON CHAMPAGNE FRONT Paris, July 14.—Military operations on the French front last night, says today's war office statement, were confined to big gun nombardments in the district north of Montdidier and raids by French detachments in the

Champagne region. The text of the statement reads:
"North of Montdidier there were local artillery actions, notably in the regions of Bois-de-Senecat and Cantigny and in the sector of Gournay-sur-

Aronde.
"In the Champagne French reconnaissance troops executed a number of raids on the enemy lines and returned with prisoners.

IN STATE OF SIEGE

Hundred Soldiers and Hundred Dominion Police Arrive to Comb Out the Defaulters.

Vaudreuil, Que., July 14.—The district around here is now practically in a state of siege with the arrival Saturday evening of a detachment of 100 soldiers of the Canadian garrison regiment, in charge of Captain Garand and accompanied by Captain Duchastel of the intelligence depart-ment, and Capt. Dodds of the transport department. They are camped just outside the village.

In addition a party of 100 Dominion police, 50 civil and 50 military, arrived by the following train and took up their headquarters in St. Lazare, whence they will comb the country side for men liable under the Military Service Act.

Military Service Act.

These steps have been made necessary by the disturbance of last Thursday when Aurelien Gaboriau died of a self-inflicted wound received in attacking with the butt end of his gun the chauffeur of the car of the Dominion police, James O'Neili Farrell, who is now lying dangerously ill in the Royal Victoria Hospital

pital.

The eight or ten men who have taken to the bush and about whose action in defying the law the disturbance arose, are still at large and are keeping very quiet. The whole neighborhood is, however, in a state of terror at the fear that further bloodshed may take place.

In War.

Paris, July 14.—Writing on the subject of the British effort from the point of view of effectives, the correspondent at the front of The Petit Parisien says:

"If the British in imitation of the Americans were to disclose to us the number of contingents sent regularly to our front and the number of discharged soldiers in factories, in services at bases and on the lines of communication, we should acknowledge with admiration the grandeur of Great Britain's sacrifices.

"The British are throwing their all into the furnace aof war. Their hearts, like ours, eagerly and definitively desire victory. In order to attain their ends these sporting people have applied themselves to mechanical problems and have succeeded in producing tanks which, in conjunction with the progress of aviation, are perhaps the principal factors in delaying the Germans."

Harbin. July 14.—General Horvath, tommander of the anti-Bolsheviki forces, has appointed a temporary war cabinet for Siberia. The present situation of-fers every inducement for forceful guidance, preferably under an allied council at Vladivostok. The peasantry everywhere is acclaiming the Czecho-Slovaka, who are the dominating factors in the situation, and are anxious for guidance from the French or the consular body at Vladivostok.

The Czecho-Slovaks hitherto have received General Horvath's overtures in a guarded manner. Minister of War Floog has gone to Vladivostok to ascertain the state of feeling there.

AMERICANS DECLARED TO ARRIVE TOO LATE

LVE FOE AIRCRAFT DESTROYED BY BRITISH TOBACCO RATIONAL

United States May Take Control of Industry for Sake of Soldiers.

Washington, July 14.—Government control of the tobacco industry of the United States may result from the heavy requirements of the allies and the American military forces abroad. Rationing of the American population is believed to be a possibility.

It is estimated that two-thirds of the leaf tobacco raised in this country in 1917, will be available for American manufacturers. Out of this must come cigaret and pipe tobacco for troops not yet—overseas, and exports of manufactured tobacco, in addition to cigarets and tobacco purchased here for Belgium.

The crop in 1917, was 1,196,000,000 pounds, and of this the board estimates that \$50,000,000 pounds will be available this year for United States manufacturers, while 346,000,000 pounds of leaf will be available for export to the allies.

AFFECT INCREDULITY

Another Military Expert Says Americans Have Only Half Million Men in Europe.

Amsterdam, July 14.—A Berlin despatch received here contains the following quotation from a speech delivered at the conclusion of a session of the Prussian Upper House of Parliament by the president of the chamber:

"Do the entente peoples still believe in victory by arms? Now it is the American reserves which constitute the hope of France and Italy, the two victims of England's huckstering spirit.

"But these reserves can no longer decide the war. They come too late, so we earnestly hope. The enemy put his faith in our internal disunion, which, in addition to our economic annihilation, is the war aim of England and America. "Prince von Buelow's saying must be made to prevail: "The king first in Prussia, Prussia first in Germany, and Germany first in the world."

Amsterdam, July 14.—General von Ger Osten-Sacken, mistary expert of The Rhenish Westphalian Gazette, it ins in the chorus with Lieut.-Gen. Baron von Ardenne, military expert of The Tageblatt, and other critics who profess to disbelieve the figures given by Secretary of War Baker regarding the number of American troops now in France.

"Our information," says Gen. Osten-Sacken, "is that there are no more than half a million Americans in Europe and not one-third of these are at the front."

In a column article the writer runs the whole gamut of familiar arguments, proving perhaps to the satisfaction of the Teuton mind tha: there is nothing in Secretary Baker's statement.
