**HONORED BANK OFFICIAL.**

New General Manager of Sterling Bank Remembered by Associates.

A very pleasant event took place yesterday afternoon at the local headquarters of the Dominion Bank, when Frederick W. Broughall, who has been connected with the bank for over 20 years, and who is giving up his position as assistant manager to become general manager of the Sterling Bank, was presented with a handsome gold watch. The presentation was made by General Manager T. G. Brough, on behalf of the managers of the local branches, and while regret was expressed at Mr. Broughall's leaving, he was warmly congratulated by the assembled officials on the important position to which he has been promoted. A dinner was afterwards given at the Toronto Club in his honor.

**Blown to Atoms.**  
"What'll we name our little town?"  
"Let's call it 'Atoms.'"  
"What for?"  
"To encourage immigration. Everybody blows that way."—Pittsburg Post.

### PAIN BETWEEN THE EYES.

A most direct evidence of catarrhal inflammation. Think it out for yourself. Can a liquid medicine taken into the stomach be of assistance? Emphatically no. But by inhaling the soothing vapor of Catarhazone, the very core of the catarrh is instantly reached and relief quickly follows.

"No wonder 'Catarhazone' always does cure," writes John McCulloch of Moose Brook, N.S. "For two years I was afflicted with catarrh in my head. Had deafness and buzzing in my ears also. Catarhazone cured completely and I never expect to be bothered again."

Two months' treatment costs \$1.00; sample size 25c, at all dealers, or by mail from S. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

### HIGH-GRADE tailoring for the Horse Show.

Score tailoring is always in evidence at a function of this kind. We are showing a very handsome assortment of fine imported goods for suits and overcoats for this coming fashionable event.

Orders taken this week will be finished in time for the Horse Show.

Suits and overcoats to your measure \$25-\$27.

### PROVINCIAL GRANTS LARGER TO MUNICIPAL INSTITUTIONS

Educationists Discuss School Boards—Elect Board of Officers  
Wm. Scott, President.

At the night session of the Ontario Educational Association the election of officers resulted as follows: President, Dr. Wm. Scott, principal Toronto Normal School; general secretary, Robert W. Doan, Toronto; treasurer, W. J. Hendry, Toronto. An address on the teaching of geology in the public schools was the subject of an interesting address with stereopticon views, by Prof. A. P. Coleman.

Dr. Burwash moved, on behalf of the committee, to enquire into the use of the Bible in the schools, that in connection with regulations for supplementary reading in the public and high schools provisions be made for instruction in Bible knowledge and memorizing of passages of Scripture, and at least two lesson periods a week be set apart for such instruction, also that a syllabus be prepared suitable for all grades.

Dr. Goodchild, on behalf of the committee on hygiene, suggested that teachers should make an examination of the eyesight and hearing of each pupil at commencement of term, and report any defect to the parents.

A resolution of sympathy was passed, and the secretary was instructed to transmit same to the family of the late John Millar, deputy minister of education.

The many sections of the Ontario Education Association were again very busy yesterday.

At a joint meeting of the historical section and the Ontario Historical Society, W. Dale (president) gave his address on "Europe and America." America, he pointed out, offered an avenue of escape to those oppressed by religious persecution. England's insularity was no small cause for her greatness and puritanism. America's geographical isolation had acted in much the same way. A mighty island, a mighty St. John, a meeting place was his summing up. Canada of the future was the subject treated by Miss Miller of Newbury in the afternoon. She insisted that provincialism must give way to a broad nationalism.

**Preserve Historical Sites.**  
A resolution with reference to the preservation of historical sites, especially the old fort, was brought forward and commended to the consideration of the colleges and high school departments, and the general association, the speakers including J. S. Carstairs, Chancellor Burwash, Alex. Macdonald, J. H. Coyne, Mrs. Thompson, Barlow Cumberland, Alex. Fraser, W. Dale, and J. O. Millar.

Leut.-Col. B. Cruickshank read a paper on the administration of James Henry Craig, governor-general of Canada, early in the nineteenth century, and whom he described as one of the most distinguished soldiers in the British army, his paper being based almost entirely upon original unpublished documents. J. S. Carstairs, A. Fraser, W. W. Wong and W. S. Milner will draft a resolution setting forth the idea that a royal commission should be appointed by the government to hold a trial in the motherland, all historical sites.

**Education and the Nation.**  
At a joint afternoon meeting of the training and public school departments Prof. Thomas B. Kilpatrick, LL.D., read a paper on "The function of the Educator in the Making of the Nation." These were some of the points on which the professor enlarged: (1) Culture of mind, its nature and value to society. (2) Development of character. (3) Training for vocation. (4) Deepening the social spirit, and (5) Preparation for citizenship.

**Future vs. Mind.**  
"How the world of tomorrow may be made to build up a world of mind within us" was the subject of a paper read by Rev. E. M. Keirstead, D.D., of McKeen's.

"The school," said he, "is a part of the great complex world of life, and its office is to give the pupil the quest for knowledge in nature and in his fellow men he will at the end hear the soul of the universe for his end."

At a joint afternoon meeting of the public school inspectors and trustees departments, the subject of "The condition of the rural schools and how to improve them" was introduced by Inspector Colles of East Kent. Mr. Colles pointed out that there was too great a difference between the assessments and consequently the financial strength of the various sections. He suggested that the remedy would be to increase largely the legislative grants to each township, from \$150 to \$250 for each township engaged. He also remarked that the academic standing of the teachers is not high enough, and many subjects on the curriculum are almost unknown to them.

**Raise the Age Limit to 20 Years** before admittance to a training school, and require that every subject upon the academic course for teachers and an examination subject," he said. "A knowledge of the Bible and Bible history is not provided in the school. The remedy is to have a committee appointed for all Christian denominations to make a collection of readings from the Bible, and to prepare a text book of questions and answers upon the lessons read, and free from any doctrinal teaching or comment."

**Training of Teachers.**  
The six weeks of the training of teachers should be spent in actual teaching in rural schools, designated by the inspectors, and under the direction of the teachers of such schools.

John H. Laughton, chairman of the

### SOFT HATS FOR MEN

We believe we have the best line of them in Canada.

A hat for every "good head," and every hat a good hat.

First the king of soft hats—the STRATON—then come the Knox—the Christy—the Glyn—the Borsalino—and other "good ones".....

2.00 to 8.00.

For young men we're showing a world beater in a soft hat—seven colors to pick from—and say, they're smart blocks—

**2.50**

**Paddock Overcoats—**

Royal favorites in style—and we'd like you to make way with thirty odd we have left out of 200—regular 25.00 and 30.00—for **20.00**

**Fairweather's**  
84-86 YONGE ST.

board of education, Parkhill, read a paper on the same subject and pointed out that the first essential in improving the schools was (1) to get more children (2) to raise the qualifications for entrance to high schools, (3) to provide consolidated schools, and (4) to continue the work. The ground work of an educational system should be a thorough training in the public schools, which would fit our boys and girls for a position in the business world. He pointed out that among the conditions that would improve our schools would be an adoption of the initiative of S. E. Brill to which the same meeting a motion was passed by the majority of the board to the effect that this department request the deputation awaiting on the minister of education this morning to ask for larger provincial grants to grade A continuation schools.

**Continuation Classes.**  
It was also resolved that clause three of the continuation school act be inserted after the word "public," where-ever the word may appear, of the words "and separate." J. H. Cunningham of Palmerston, proposed to the caucus committee of the continuation schools referred the association to the report of the minister of education that there were 21 continuation schools in grade A, who had one, two and three teachers, respectively, devoting their time to high school work and completing full junior matriculation and junior teachers' course of study. Owing to the great misapprehension throughout the country and in this department that high school teachers were inspectors, they were simply opposed to continuation schools completing this work, he wished to state that this criticism was not applicable to grade A continuation schools. As a matter of fact all high school teachers and inspectors were not opposed to completing this work, they were simply opposed to rural schools with only two or three teachers, attempting to complete this work.

**Nature in the Schools.**  
In the inspector's department in the afternoon, Principal Wm. Scott defined nature as the study of the child's acquaintance with the nearest commonest things about the child. He showed that a knowledge of common things is necessary for the full development of the child. Since it fits one for any walk of life and makes one acquainted with the things he must work with, it is a practical subject. One of the best means of introducing the subject is through gardens, either at school or at home. The teacher must be a genuine lover of nature to make a success of this work.

**Enlarge our Sphere of Influence.** Dr. Wm. Scott, in his address on "How to Enlarge our Sphere of Influence," remarked that it was surprising that public school inspectors had so little influence in shaping educational policy. The main difficulty in the schools was the lack of professional training, but a frank and appalling illiteracy on the part of the teachers.

**Why Men Don't Teach.**  
Reasons why so few men are to be found in the teaching profession were advanced by Miss Agnes C. Purves in her paper read in the public school department, in the morning on "Men or Women Teachers?" These were: (1) Inadequacy of the remuneration. (2) Few men are thoroughly fitted for such work. Boys should be taught love of country.

**An Evening at Home.**  
There are times when you prefer a quiet evening at home, "Murads" make the time pass pleasantly.

**Murad (plain tips) Turkish Cigarettes** are the latest and best achievement of Allan Ramsay, for sixteen years government censor of Turkey. During this period Mr. Ramsay's cigarettes—his alone—were the accepted brands of the dignitaries of the Turkish court. 15 cents per box.

### loyalty to the crown, indulgence in many sports, self-reliance, the leading singularity, of meanness, of tile-bearing.

"Women object to having almost the entire burden of training future citizens. Children suffer for want of paternal influence. Fathers are so absorbed in business that boys grow to manhood without an intimate acquaintance with them."

"Women can do the work, has a right to take her place side by side with man in the teaching profession. Teachers must put aside the question of sex and individuality. They are so strong in a united body. Only such could they win an adequate remuneration and professional recognition."

**Public School Taxes.**  
The trustees passed a motion instructing the standing committee to interview the minister of education, to inquire into the advisability of amending the Public School Act and the Municipal Act, so that the whole of the taxes raised by municipal councils for purposes shall be paid to the public school boards.

It was also resolved that the majority of the advisory board to be formed in the city of Toronto shall consist of those interested in public education: Public and separate school teachers, inspectors and trustees.

"The child is a valuable asset," said J. G. Elliott, a member of the Kingston board of education, in his address on "Citizen Making" at the meeting of the Ontario Educational Association, held at the Hotel Windsor, Monday morning. Care and attention should be spent upon the child lavishly. What is the ideal? A school in which the child will be taught, mentally, morally and physically.

**Manual Training Will Come.**  
That manual training is not yet fully established in Ontario is due to a prevailing ignorance on the part of the public regarding its worth as a factor in any general scheme of education.

"Such was the dictum of Charles F. Errett.

In the modern language section a paper on "The Decline of Tragedy in Modern Drama," was read by J. E. Middleton of the editorial staff of The Toronto Evening World. The author dealt with all tragedy under four classifications, the classical, the Shakespearean, the pseudo-classical, and the modern.

In the afternoon at the biological building, Prof. A. Carruthers, gave a paper on "The complete account of Mycenaean civilization in the prehistoric period, illustrated by admirable lantern slides, of various works of artistic value found at Crete, Mycenae and other points."

Prof. Ramsay Wright followed with a paper on "Victor Berard's account of the voyage of the 'Albatross'."

**The Single Life.**  
"The Literature in Dietetics," was the subject of a paper read in the evening before the home science section. The paper was read by Miss M. Lillian Massey school of Household Science. Special reference was made to the subject treated by Miss Mendenhall of Yale University, "Physiological Economy of Nutrition," wherein she proved conclusively, after many experiments, that the food requirement of mankind is much less than it is generally supposed to be. The speaker pleads for simplicity in the matter of diet, for more enlightening methods of living, and a truer appreciation of the dignity of the body.

**Physiological Economy of Nutrition.**  
A paper on "The subject introduced by H. Harcourt, professor of chemistry at Ontario Agricultural College, Guelph, at the session of the home science section.

Sufficient results, he pointed out, had been gathered to show that oatmeal and bread are the most economical and absorbed as the more expensive predigested breakfast food. It had been found that there was nearly as much nutriment in the oatmeal as in the bread, and that the oatmeal constituents from these foods, cooked for a short time as when cooked for a long time, were nearly equal.

**Home Science in Practice.**  
At the afternoon period of the home science section the chief subject for discussion was the paper read by Mrs. Hoodless, on "The Present Course of Study in Home Science."

The object of this course of study should be to sow the seed of respect for home duties and to awaken an intellectual interest in the performance of such duties. A restaurant, a hotel, and an undue attention to professional men has a tendency to emphasize such matters of all proportion to their importance. The subject should be studied as an organization, and each part adjusted on sound principles.

**Officers Elected.**  
The following elections of officers were made in several sections.

**Home Science.** President, W. H. Stevens, secretary, W. G. Chisholm, and director, T. W. Standing.

**Training department.** J. Dearness, chairman; Wm. Wind, secretary; J. P. Hoag, vice-president; J. S. Carstairs, secretary; J. S. Carstairs, co-secretary; E. J. Kyle, J. Kiellor, E. H. Oliver, J. H. Stegmann, and W. G. Chisholm, directors.

**Modern languages section.** President, S. Rogarh (Hamilton); vice-president, Miss A. E. Murray; secretary, J. Squair (Toronto); committee, Miss E. M. Bunnell (Brantford), Miss A. E. Day (Walkerton), A. E. Lang (Victoria College), A. H. Young (Trinity College).

**Public school department.** President, C. E. Kelly (Hamilton); vice-president, H. Ward (Toronto); secretary, T. E. Fraser (Toronto); and treasurer, T. E. Fraser (Toronto).

**Trustees' department.** President, C. W. Kelly (Guelph); vice-president, K. Murton, B. A. (Oshawa); secretary, treasurer, George Anson Aylesworth (Newburgh); Prof. McGilivray (Kingston), John H. Langtry (Parkhill), John Anderson (Arthur), M. Parkinson (Toronto), Fred W. Wright (St. Thomas), M. D. Tudgeop, B. A. (Orillia).

**Mathematical and physical section.** President, C. A. Chant, Ph.D.; president, W. J. Robertson; vice-president, C. L. Craswell; secretary, treasurer, R. W. Whitman; councilmen, J. W. Dickson, Wilson Taylor, Prof. De Lury.

**Gorky and His Hosts.**  
Paris, April 18.—Maxim Gorky has telegraphed his impressions of the French publication his impressions of the French States. Gorky says the Americans are the same old, the splitting vulgar people who have found their way, and that personal liberty is as much hampered in America as it is in Russia. The sooner he gets out of this wretched country the better he will be pleased.

### ONE OF CRUCIAL REFORMS DESTROYED BY AMENDMENT

New York Senate Knocks Out Recommendation to Make Policy-holders' Names Public.

Albany, April 18.—An amendment of vital importance to the "Big Bill" generally amending the insurance law, was made by the senate to-night at the close of an all-day debate.

This amendment, offered by Senator White of Syracuse, and adopted, strikes out the provision requiring national companies to expose lists of policy-holders in connection with the annual elections and substitutes a provision requiring such companies to mail to all policy-holders, during the five months prior to election, any name requested by 100 or more policy-holders to be sent.

Senator Armstrong declared to-night that the amendment destroyed one of the crucial reforms sought by the insurance investigating committee.

**Twenty-one Sure Thing.**  
Paris is Crazy Over This Seemingly Lucky Number.

New York Evening World: Eye body knows what the number 23 means—evaporate, skidoo, or otherwise, because of its lucky number. It is the only other number with the opposite interpretation. Paris is crazy over the number 21, which is rapidly becoming a synonym for a sure thing.

In that case, discontinue the lottery. It is a legitimate institution, fostered by the state. Everybody buys lottery tickets. In the drawing of Dec. 1 a humble painter of houses drew down the capital prize of \$200,000, and his number was 23,358.

Somebody with a mathematical turn of mind discovered that the various numbers on the winning ticket, added together, equaled 21. Following this discovery, the number 21 was drawn together \$20,000. In every drawing held since tickets, the numbers of which average 21 when added together, have drawn substantial prizes.

On Dec. 5, No. 103,427, won \$10,000 and on the same day No. 485,804 won \$5000. On Dec. 15, No. 230,385 won the first prize of the Paris Municipal Lottery.

Mathematicians are advertising in the papers that they will figure out numbers adding up to a commission. The situation has become acute, and it is proposed that not only the prizes but the tickets be drawn by chance.

The house painter, who started the 21 craze is spending his money lavishly at the rate of \$15 a day. He put the last cent he had in the world into that lucky ticket, and he is now ill and his brother-in-law, who lived with him, was out of a job. Now he has everything he wants. There is no moral attached to this story.

**MAD RATS ON LOST STEAMER.**  
British Steamer Reaches Land After Burning 7000 Bags of Grain

The log of the British steamship Conson records some unusual things. She ran into rough weather on the way from Portland, Ore., to Yokohama, and had to stop all her cargo when only half done with her journey. The Conson was loaded with grain and Captain Henry decided to use that for fuel. Seven thousand bags of grain had gone into the Conson's furnace, when she put in at Muroran in North Japan.

Coming back the Conson was in latitude 42°04' north, and longitude 45°52' west, on March 24 when she sighted a devil's steamship. The German steamship Calbra was near and she and the Conson tried to see which would reach the destination first.

"I never saw such a sight in my life," said First Officer Phane, as he told the story. "The wrecked vessel was the British steamship Dunmore, which was abandoned last December in mid-ocean. Her crew had been picked up and landed at Bremen. But you should have seen that ship. A she had been and there she lay in the trough of the sea with her starboard rail under water and a thousand starboard rail under water and a thousand men came up thru the companionway, falling over one another in their haste, biting and quaking."

**Caught in Syracuse.**  
A telegram arrived at the detective office last night, stating that George Wallace of Rochester, wanted in Toronto for his share in a fake wrestling bout, is under arrest in Syracuse, for another charge.

The attorney-general's department will decide in the morning whether it will be advisable to attempt to extradite Wallace.

**Knocked Down by Car.**  
A woman ran behind a northbound Yonge car and in front of one going south last night. It knocked her down, but she did not get hurt badly. Sergeant Mihal, who was in the front of the car striking her, asked for her name, but the woman refused to give it.

**DR. W. H. GRAHAM, Late of No. 125 KING STREET WEST**  
treats Chronic Diseases and makes a Specialty of Skin Diseases such as LEUCODERMA, ULCERS, ETC., ETC.  
Private Licenses, as Impotency, Varicocele, Neuritis, etc., (the result of youthful folly and excess) Nervous debility, etc., of long standing, treated by galvanism—the only method without pain and all but after effects.  
LIFE-SAVING OF WOMEN—Painful, profuse or suppressed menstruation  
125, 127, 129, 131, 133, 135, 137, 139, 141, 143, 145, 147, 149, 151, 153, 155, 157, 159, 161, 163, 165, 167, 169, 171, 173, 175, 177, 179, 181, 183, 185, 187, 189, 191, 193, 195, 197, 199, 201, 203, 205, 207, 209, 211, 213, 215, 217, 219, 221, 223, 225, 227, 229, 231, 233, 235, 237, 239, 241, 243, 245, 247, 249, 251, 253, 255, 257, 259, 261, 263, 265, 267, 269, 271, 273, 275, 277, 279, 281, 283, 285, 287, 289, 291, 293, 295, 297, 299, 301, 303, 305, 307, 309, 311, 313, 315, 317, 319, 321, 323, 325, 327, 329, 331, 333, 335, 337, 339, 341, 343, 345, 347, 349, 351, 353, 355, 357, 359, 361, 363, 365, 367, 369, 371, 373, 375, 377, 379, 381, 383, 385, 387, 389, 391, 393, 395, 397, 399, 401, 403, 405, 407, 409, 411, 413, 415, 417, 419, 421, 423, 425, 427, 429, 431, 433, 435, 437, 439, 441, 443, 445, 447, 449, 451, 453, 455, 457, 459, 461, 463, 465, 467, 469, 471, 473, 475, 477, 479, 481, 483, 485, 487, 489, 491, 493, 495, 497, 499, 501, 503, 505, 507, 509, 511, 513, 515, 517, 519, 521, 523, 525, 527, 529, 531, 533, 535, 537, 539, 541, 543, 545, 547, 549, 551, 553, 555, 557, 559, 561, 563, 565, 567, 569, 571, 573, 575, 577, 579, 581, 583, 585, 587, 589, 591, 593, 595, 597, 599, 601, 603, 605, 607, 609, 611, 613, 615, 617, 619, 621, 623, 625, 627, 629, 631, 633, 635, 637, 639, 641, 643, 645, 647, 649, 651, 653, 655, 657, 659, 661, 663, 665, 667, 669, 671, 673, 675, 677, 679, 681, 683, 685, 687, 689, 691, 693, 695, 697, 699, 701, 703, 705, 707, 709, 711, 713, 715, 717, 719, 721, 723, 725, 727, 729, 731, 733, 735, 737, 739, 741, 743, 745, 747, 749, 751, 753, 755, 757, 759, 761, 763, 765, 767, 769, 771, 773, 775, 777, 779, 781, 783, 785, 787, 789, 791, 793, 795, 797, 799, 801, 803, 805, 807, 809, 811, 813, 815, 817, 819, 821, 823, 825, 827, 829, 831, 833, 835, 837, 839, 841, 843, 845, 847, 849, 851, 853, 855, 857, 859, 861, 863, 865, 867, 869, 871, 873, 875, 877, 879, 881, 883, 885, 887, 889, 891, 893, 895, 897, 899, 901, 903, 905, 907, 909, 911, 913, 915, 917, 919, 921, 923, 925, 927, 929, 931, 933, 935, 937, 939, 941, 943, 945, 947, 949, 951, 953, 955, 957, 959, 961, 963, 965, 967, 969, 971, 973, 975, 977, 979, 981, 983, 985, 987, 989, 991, 993, 995, 997, 999, 1001, 1003, 1005, 1007, 1009, 1011, 1013, 1015, 1017, 1019, 1021, 1023, 1025, 1027, 1029, 1031, 1033, 1035, 1037, 1039, 1041, 1043, 1045, 1047, 1049, 1051, 1053, 1055, 1057, 1059, 1061, 1063, 1065, 1067, 1069, 1071, 1073, 1075, 1077, 1079, 1081, 1083, 1085, 1087, 1089, 1091, 1093, 1095, 1097, 1099, 1101, 1103, 1105, 1107, 1109, 1111, 1113, 1115, 1117, 1119, 1121, 1123, 1125, 1127, 1129, 1131, 1133, 1135, 1137, 1139, 1141, 1143, 1145, 1147, 1149, 1151, 1153, 1155, 1157, 1159, 1161, 1163, 1165, 1167, 1169, 1171, 1173, 1175, 1177, 1179, 1181, 1183, 1185, 1187, 1189, 1191, 1193, 1195, 1197, 1199, 1201, 1203, 1205, 1207, 1209, 1211, 1213, 1215, 1217, 1219, 1221, 1223, 1225, 1227, 1229, 1231, 1233, 1235, 1237, 1239, 1241, 1243, 1245, 1247, 1249, 1251, 1253, 1255, 1257, 1259, 1261, 1263, 1265, 1267, 1269, 1271, 1273, 1275, 1277, 1279, 1281, 1283, 1285, 1287, 1289, 1291, 1293, 1295, 1297, 1299, 1301, 1303, 1305, 1307, 1309, 1311, 1313, 1315, 1317, 1319, 1321, 1323, 1325, 1327, 1329, 1331, 1333, 1335, 1337, 1339, 1341, 1343, 1345, 1347, 1349, 1351, 1353, 1355, 1357, 1359, 1361, 1363, 1365, 1367, 1369, 1371, 1373, 1375, 1377, 1379, 1381, 1383, 1385, 1387, 1389, 1391, 1393, 1395, 1397, 1399, 1401, 1403, 1405, 1407, 1409, 1411, 1413, 1415, 1417, 1419, 1421, 1423, 1425, 1427, 1429, 1431, 1433, 1435, 1437, 1439, 1441, 1443, 1445, 1447, 1449, 1451, 1453, 1455, 1457, 1459, 1461, 1463, 1465, 1467, 1469, 1471, 1473, 1475, 1477, 1479, 1481, 1483, 1485, 1487, 1489, 1491, 1493, 1495, 1497, 1499, 1501, 1503, 1505, 1507, 1509, 1511, 1513, 1515, 1517, 1519, 1521, 1523, 1525, 1527, 1529, 1531, 1533, 1535, 1537, 1539, 1541, 1543, 1545, 1547, 1549, 1551, 1553, 1555, 1557, 1559, 1561, 1563, 1565, 1567, 1569, 1571, 1573, 1575, 1577, 1579, 1581, 1583, 1585, 1587, 1589, 1591, 1593, 1595, 1597, 1599, 1601, 1603, 1605, 1607, 1609, 1611, 1613, 1615, 1617, 1619, 1621, 1623, 1625, 1627, 1629, 1631, 1633, 1635, 1637, 1639, 1641, 1643, 1645, 1647, 1649, 1651, 1653, 1655, 1657, 1659, 1661, 1663, 1665, 1667, 1669, 1671, 16
