

## EFFORT TO SAVE ST. JAMES'

Toronto Conference Stirred to Take  
Action By the Fervid Appeal  
of Rev. J. W. Graham.

## WOULD INTEREST THE YOUNG MEN

Probationers May Be Allowed to  
Baptize Infants—Ordination  
Service in the Evening.

The most important matter discussed at yesterday's session of the Methodist Conference was the financial difficulty of St. James' Church, Montreal. The question was ably laid before the meeting by Rev. J. W. Graham, whose appeal was listened to with rapt interest, and resulted in the election of a strong committee to arrange for the collecting of subscriptions in Toronto towards the church.

At the morning session Rev. Dr. Briggs, the book steward, presented a report. The circulation of Sunday school papers numbered 296,016, an increase of 9643 over previous year. The Methodist Magazine had a circulation of 2726. The Epworth League Era 5165. The Christian Guardian 60,627. The total circulation for the year ending March 31 being 324,534, an increase for the year of 1927. The receipts amounted to \$529,127.50, an increase in the turnover of \$5938.20.

Rev. Dr. Withrow, editor of the Sunday school publications, in his report, stated that all the publications except The Berean Leaf showed a satisfactory increase in circulation.

Rev. A. C. Crews, superintendent of Epworth Leagues and Sunday schools, reported that there was a decrease in both the number of teachers and pupils in the past year. During the year 45,950 books were distributed, and Mr. Crews had traveled 17,000 miles. In the report of the Mission Board, Rev. Dr. Henderson stated that out of 39 districts in Toronto Conference all but four were in advance of their savings of the year previous. The amount contributed for missionary purposes will be between \$250,000 and \$300,000.

Rev. Dr. Henderson pointed out that the Stationing Committee was confronted with the difficulty of supplying the churches in the nearer districts, owing to the dearth of young men. He suggested a reorganization of the districts. According to the report of Victoria College the receipts of this institution were \$34,882.53 and the expenditure \$34,882.50. There were 411 students enrolled, 271 in Arts and 140 in Theology.

**Reports of Methodist Colleges.**  
After opening the afternoon session Rev. R. Y. Warner, principal, presented a report from Alma College, St. Thomas. In this institution there were 138 students, an increase over the number last year, while the debt has been reduced by \$10,000. Among the contributions received was a bequest of \$500. The report from the University of Toronto, which is memorialized for permission to take women on the College level.

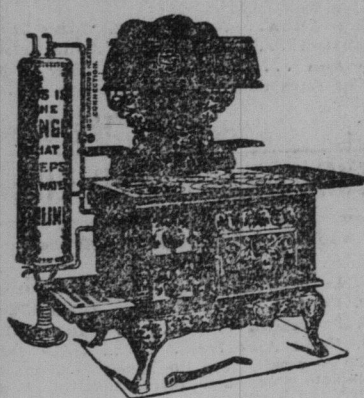

In the absence of the principal, Dr. Dwyer, the report of Albert College, Belleville, was read by Rev. Dr. Chalmers. It gave the number of students as 338, including two classes of domestic science, of whom 170 were boarders. The college was reported to be doing an excellent work, several new departments having been opened during the year and a new athletic field secured.

**Rev. J. W. Graham's Appeal.**  
It was the masterly address of Rev. J. W. Graham down to the conference to take action in the matter of St. James' Church, Montreal, which is burdened with an enormous debt.

The church property, he pointed out, was worth \$375,000, while the debt had increased until it now reached \$400,000. He presented a business proposition to the effect that the church would be saved if the offer of the Standard Life

## FINE BRIDES

Do you realize the importance of  
making a good start in housekeeping?

You will get most comfort and  
satisfaction by using the

Assurance Company not to fore-  
close if \$1800 could be raised by  
June 1, 1903, could be ac-  
cepted. Continuing, he showed how  
large sums of money were being spent  
in carrying the debt, and urged the  
Toronto Methodists to do something  
to aid the church. Montreal Metho-  
dists had raised \$50,000, while six To-  
ronto men have subscribed \$75,000,  
which will make \$125,000. The  
\$180,000, leaving \$55,000 still required  
by June 1, 1903. He declared that un-  
less "you knock a big chunk out of  
the principal you cannot save it." He  
paid a high tribute to those "princes of  
finance" who have come forward and  
given their support, and mentioned one  
case in Montreal where a young do-  
mestic, who had saved \$60 with which  
to take her back home to England,  
had given the entire amount towards  
the church, denying herself the visit  
to her native land. The young people  
of Montreal had given \$1200, and not  
giving "pink and white socials." In  
conclusion, he said: "As I looked out  
from the mountain at Montreal and  
saw St. James' Church and realized  
the good work it can do, my blood  
boiled up my teeth, and said we  
will hold it!" [Applause.]

## St. James' Church Day.

Rev. Mr. Ockley moved a resolution  
which was carried, setting apart the  
third Sunday in October as St. James'  
Church day, on which collections will  
be taken up in aid of the overburdened  
church. The following committee was  
appointed to arrange for the work of  
aiding the church: Revs. James Allen,  
Dr. Chalmers, J. A. Rankin, Solomon Cle-  
ver, T. E. E. Shore, and Messrs. C. D.  
Massey, Senator Cox, A. E. Ames, Tim-  
othy Easton and J. W. Graham.

Rev. Dr. Potts was glad to see that  
daylight was dawning on St. James'  
Church, a church that has a noble  
record. The best investment Metho-  
dism could make, he said, was to free  
the church of debt. Several others ex-  
pressed their pleasure at seeing the  
possibility of the church being saved.

Rev. T. E. E. Shore was appointed  
treasurer to receive the collections. The  
church property, he pointed out, was  
worth \$375,000, while the debt had  
increased until it now reached \$400,000.  
He presented a business proposition to  
the effect that the church would be  
saved if the offer of the Standard Life

**The Young Man Problem.**  
An interesting discussion took place  
on the young man problem. It was

introduced by Rev. George W. Kerby  
of Montreal Conference, who is associ-  
ated with Rev. G. R. Turk in evangelis-  
tic work. Mr. Kerby recommended  
that steps be taken to increase the  
interest of young men in the work by  
handing them together under a com-  
petent leader, to hold early evening  
services during the winter months, and  
to hold a conference for young men  
once a week in the church parlors or parson-  
age. Rev. Mr. Turk wanted the sug-  
gestions sent on to the General Confer-  
ence, but Rev. Dr. Potts saw danger  
in this. He thought that there were  
enough organizations already, and any  
more would only serve to discount the  
Epworth League, which is still in an  
experimental stage. Rev. C. O. John-  
ston had found it necessary to organize  
a young men's progressive league in his  
church, and it was doing good work.  
It was finally decided to refer the  
matter to the Epworth League Com-  
mittee, who will discuss the suggestion  
and prepare them for presentation to  
the General Conference.

Permission was granted Rev. G. R.  
Turk, conference evangelist, to fill an  
engagement to Port Elgin on Sunday.  
Revs. Turk and Kerby will conduct  
conference service in the Metro-  
politan Church on Sunday, but Rev.  
W. J. Hunter will take the ser-  
vice.

**Notices of Motion.**  
Among the notices of motion that  
were referred to the committee was  
that the probationers be allowed to  
baptize infants and administer the Lord's  
supper, changing the phraseology of the  
ritual governing baptism; that minis-  
ters on entering the church be admitted  
to the full conference at the same  
time.

Reports of the Supernatural and  
General Conference Funds were pre-  
sented. The Rev. Richard  
Whiting of Mitchell, J. P. Rice of Blen-  
heim and Henry H. Smith of Toronto  
who have been transferred to Toronto  
Conference, were introduced to the  
meeting.

**Band Concert in High Park.**  
The Royal Grenadiers' band will play  
this afternoon from 3.30 to 5.30 o'clock.  
March—White Rats. . . . . Percussion  
Concert Valise—Bal Blanc. . . . . Percussion  
Selection—Canadian Airs. . . . . Barwood  
Intermezzo—Cupid's Pleasings. . . . . Vokler  
Selection—The Merry Widow. . . . . Percussion  
Gavotte Caprice—Southern Girl. . . . . Kieffer  
Trombone Solo.

**Andante from Surprise Symphony.**  
Popular Medley. . . . . J. Waldron

**Special Peace Service.**  
To-morrow at St. Peter's Church,  
Carleton and Bleeker streets, special  
services to celebrate peace in South  
Africa will be held. There will be  
appropriate music, decoration of  
altar, etc. Miss Selway, the well-known  
contralto, will sing, and Rev. Carey  
Ward, the rector, will preach morning  
and evening, making reference to the  
war.

**Boer Prisoners Glad.**  
Hamilton, Bermuda, June 6.—The  
Boer officers who have been living in  
the prison camps on the island near  
St. John's have been allowed their  
parole. Generals Cronje, Wessels,  
Botha and others were extremely re-  
luctant, but they said they were glad the  
war was over.

**Challenge to a Duel.**  
Rome, June 6.—As a sequel to a heated  
discussion in the lobby of the Cham-  
ber of Deputies on the subject of the  
Italian East Africa invasion, Signor  
Franchetti, a member of the Cham-  
ber, has challenged the Foreign  
Minister, Signor Prinetti, to fight a  
duel.

**Five Men Drowned.**  
Gijon, Spain, June 6.—A boat contain-  
ing eight Spanish artillery officers was  
lost in the Gulf of Gijon, and five of  
the officers were drowned.

**To Go to U.S.**  
Madrid, June 6.—Senor de Ojeda, the  
former Spanish Minister to Morocco,  
has been gazetted Minister of Spain at  
Washington.

ELECTRIC BELT  
DYSPEPTIC MEN.

Men with varicose, drains of vital strength, nervous  
debility; you can be cured by

## Dr. McLaughlin's Electric Belt.

Give me a man broken down from excesses, dissipa-  
tion, hard work or worry, from any cause which has sap-  
ped his vitality. Let him follow my advice for three  
months and I will make him as vigorous in every respect  
as any man of his age.

This refers to men who ought to be strong and have  
lost their physical strength. Any man who has been  
strong can be again. Age is no barrier. I deal in vitality.  
I have made men of pigmies.

Give me one of those broken-down men, worn out with  
pains in his back and joints. I can pump a stream of  
ELECTRICITY into his body for a few hours every  
night and soon he will feel as strong and as light-hearted  
as he did at twenty.

Herbert E. Reid, Barrie, Ont., writes:—I received great ben-  
efit from the use of your Belt. I have been free from all aches and pains  
and have been greatly strengthened every way. There is no doubt but  
that is the right remedy for all weaknesses in men.

I sometimes wonder how people can be skeptical as to the power of  
my belt to cure them, when the thousands of testimonials and the  
troubles in a want of sufficient vitality in some part of the body, and it  
will take a sensible man only a minute to see that the vitality of the body is electricity. So, get that back, as I  
give it, and you are cured. My patients are the people who have made a study of their own cases. When  
they do they appreciate my remedy.

Frank Major, Monte Bello, Que., writes:—I had been troubled with kidney trouble for eighteen  
years, and had tried all kinds of drugs and plasters without relief, when I placed myself under your care.  
After wearing your Belt and following your directions and advice for two months, it gives me great pleasure  
to tell you that I am completely cured. I never felt so well as I do now. My neighbor, who has lately begun  
your treatment, is much pleased with the results.

Give me a man (or woman for that matter) who has been sick and suffering for years and taken medicine  
until the system is all run down and debilitated, the stomach unable to digest the food and the nerves shat-  
tered. My Electric Belt will give new life to every organ, drive out disease and restore to health and vigor.  
Have said who have been cured. "It has no equal."

Dear readers, I could fill this paper with letters from grateful people whom I have restored to health and  
strength during the last twenty years. If you are suffering from any of the ailments mentioned in my  
Illustrated Book. This pocket edition of the Key of Health is of great value to any one, and explains my  
method of treatment.

For the benefit of those who are skeptical regarding the merits of my method, I know there is no better  
way to prove my confidence in the wonderful curative power of my Belt than to cure you before I ask you to  
pay for it, and as I DO KNOW that it will restore strength in every instance I am willing to cure first and  
ask my pay afterward. So if you are weak, breaking down, or sick in any manner come to me, tell me your  
trouble, and let me cure you. When you are cured you can pay me. This offer is open to any man who will  
secure me. All I ask is that the man or woman asking me to take their case under these terms give me evi-  
dence of their honesty and good faith. They may use the Belt at their risk and

## PAY WHEN CURED.

I have sold electric belts for twenty years and keep pace with the times in making improvements. The  
Belt I offer you today is recently patented, and is a new and improved model. It is a fine  
regulator and cushion electrodes, a current that feels like glowing warmth all over your body. There is a free  
electric suspensory with each Belt. It is nice to wear and quick to cure. If you have another kind that does  
not satisfy I will take it in trade.  
It is curing your neighbors. Don't you think you ought to give it a trial? Saves doctor bills.  
**FREE TEST**—Any man who will call at my office may test my Belt free and satisfy himself of its great power to cure. I  
will enough.

**Dr. M. & McLaughlin, 130 Yonge Street, Toronto, Ont.**

## THE PAVILION FIRE.

Loss Was \$32,000. With an Insur-  
ance of \$28,650.

The fire which early yesterday morn-  
ing destroyed the Pavilion in Allan  
Gardens occasioned damage to the ex-  
tent of about \$32,000. The Pavilion,  
contents and appliances were in-  
sured for \$28,650, as follows: Pavilion,  
\$15,000; furniture, \$750; heating ap-  
paratus, \$1000; greenhouse and heat-  
ing plants, \$1000; greenhouse and con-  
tents, \$400; palm house, \$3000; palm  
house plants, \$1000; palm house ap-  
paratus, \$1500.

The Lehigh Band had been reserved for  
the fire. The band was not in the  
Pavilion at the time of the fire. The  
band was not in the Pavilion at the  
time of the fire. The band was not in  
the Pavilion at the time of the fire.

Cater George S. McConkey states  
that his loss will probably amount to  
\$2000, upon which there is \$5000 insur-  
ance in the Liverpool, London & Globe  
Company. Only the silverware was  
saved. The decorations for the banquet  
were destroyed. They were insured for  
\$400 by John Kay & Son.

The Lehigh Band had been reserved for  
the fire. The band was not in the  
Pavilion at the time of the fire. The  
band was not in the Pavilion at the  
time of the fire. The band was not in  
the Pavilion at the time of the fire.

There was no talk around the City  
Hall yesterday of reconstructing the  
building. The feeling was in favor of  
applying part of the insurance money  
to building substantial greenhouses for  
the city plants. The Pavilion has been  
costing \$1000 a year to maintain, and  
has not been yielding much revenue.

The Pavilion has been reserved for  
the fire. The band was not in the  
Pavilion at the time of the fire. The  
band was not in the Pavilion at the  
time of the fire. The band was not in  
the Pavilion at the time of the fire.

9 to 15.  
County Orange Lodge convention, July 6 to  
7.  
W. C. T. U. convention, July 20.

**EDISON'S STORAGE BATTERY.**  
Hamilton Herald: If Edison can sub-  
stantiate his claim, which he makes  
in behalf of his new storage battery,  
his invention will prove to be one of  
the most important of the age. It is  
of electrical science to practical ends.  
He has been for three years at work  
upon this subject, and he has now  
discovered that he has solved the prob-  
lem, overcome every difficulty, and so  
perfect his invention that it can be  
used in place of the lead battery.

The difficulty with electric storage  
batteries used for purposes of loco-  
motion was the weight. They were too  
heavy. The lightest of them have been  
not far short of 200 pounds for every  
horse-power. The new battery is much  
lighter. It weighs only 80 pounds for  
every horse-power. It is a great im-  
provement. It is a great improvement.

The new battery is much lighter. It  
weighs only 80 pounds for every horse-  
power. It is a great improvement. It  
is a great improvement. It is a great  
improvement. It is a great improve-  
ment. It is a great improvement.

## "GOING! GOING! GONE!"

The very commonness of Dandruff is its curse. Most people fail to  
realize that these little silvery flakes mean more than discomfortableness,  
untidiness and uncleanliness. They should be impressed with the fact that  
MORE PEOPLE BECOME BALD FROM DANDRUFF THAN  
FROM ANYTHING ELSE. They should note the lustreless, scrawny  
appearance of their hair and learn that it is "going, going," and will soon  
be "gone"—all from the dreadful disease of Dandruff.

Why suffer  
Dandruff  
when this

**ROSE HAIR CROWER** will cure  
and prevent it

and at the same time stimulate the natural secretions of the hair—start  
healthy growth right at the roots—build up vitality until the hair be-  
comes soft, glossy and luxuriant.

**COMMUNICABLE, NOT INFECTIOUS.**  
Dr. Knopf, a Strong Advocate of  
Sanitarious Food Consumables.

Dr. S. A. Knopf, the eminent author-  
ity on tuberculosis, visited this  
city on his recent tour of the  
Sanitarium Association at Gravenhurst.  
He addressed the patients and staffs of  
the two institutions. The doctor holds  
strongly to the opinion that there is  
no specific climate that cures consump-  
tion. Climate is a help-mate, but not  
the cure. The patient cured in his own  
home climate has one hundred times  
greater chances of staying well than  
if cured in Colorado or California. The  
patient does not need to travel long  
distances to come under favorable in-  
fluences for arresting and curing this  
disease. What is needed is the estab-  
lishment of sanitariums for the special  
treatment of the disease. Dr. Knopf  
says that no chronic disease is so cur-  
able as consumption. Only in rare in-  
stances is tuberculosis transmitted  
from parent to child. The disease is  
communicable rather than infectious.  
It is not dangerous. It can be cured.  
Dr. Knopf is an earnest and untiring  
advocate of the establishment of sani-  
tariums for the poor, and urges that their  
wealth to sanitariums for the cure of con-  
sumption. He says: "The poor should  
be placed in sanitariums where tuber-  
culosis is alone treated by competent  
physicians. There they should receive  
proper food, fresh air, sunshine and  
good nursing, which would be enough  
to cure many and would improve the  
condition of a very large percentage."

**How is Your Watch Running?**  
It is right one day and  
wrong the next; or is it wrong  
all the time? If it ever kept  
good time it will do so again if  
you get it thoroughly repaired here.

Clocks, too, are just as care-  
fully looked after.

**W. J. Mitchell & Co.,**  
JEWELLERS  
Successors to Ammon Davis,  
176 QUEEN ST. EAST  
Open Till 9 p.m.

**PARQUET FLOORS**  
THE ELLIOTT & SON COMPANY, Limited  
MANUFACTURERS  
97 King Street West, Toronto, 138

**TO BE MADE K.C.B.**  
London, June 6.—The Hon. Michael  
Herbert, recently appointed  
British Ambassador to the United  
States, in succession to Lord Paunce-  
foot, will be made a Knight Comman-  
der of the Bath before starting for  
Washington.

**Toronto to New York—To Europe**  
Via New York.  
The best route via Lehigh Valley  
Railroad. Secure your rail tickets  
that way. The Lehigh Valley has  
three stations in New York City. The  
only line from Toronto landing pas-  
sengers near all European steamship  
docks, saving passengers for Europe a  
long and expensive transfer. Call for  
pocket map of New York City, giving  
valuable information, Robert S. Lewis,  
passenger agent, 33 Yonge-street, Board  
of Trade Building.

**Good Digestion Should Wait on Appetite.**  
Have the stomach well fed to have the  
nervous system well fed. Very delicate are  
the digestive organs. In some sensitive  
persons they are so sensitive that they  
are they that atmospheric changes affect  
them. In some cases the stomach is  
better regulator is preferable than Par-  
me's Vegetable Pills. They will assist the  
digestion so that the heavy entry will suffer  
no inconvenience and will derive all the  
benefits of his food.

**Thru the Tunnel.**  
Samia, June 6.—To-morrow the Lon-  
don conference will take a trip on the  
G.T.R., thru the tunnel. Only routine  
business was done to-day.

**Rev. B. W. Merrill President.**  
Galt, June 6.—Rev. B. W. Merrill,  
Guelph, was elected moderator of the  
Guelph Association of Baptists to-day.
