Senator McMullen had had a little experience of a bill of this sort in Missouri. There they had a bill of this kind. In one factory his hands threatened to strike unless he stamped "union labor product" on all his goods. He refused and the men went out. He could sympathize with a strike for better wages, but a strike for such a cause was a gross injustice. He had no objections to men uniting for their own immediate benefit, but the minute they went beyond that they went too far. One Step Higher on the Ladder

Growth, Progress and Expansion the Significant, Facts Concerning This Store.

Moving Day Postponed Only by the Time Necessary to Clear Out \$150,000 Worth of Goods.

The ambition of this Store is embodied in the word PROGRESS. We want to offer the greatest possible service to the greatest possible number. It is a worthy ambition, and one that is itself steadily growing. For with each success, fresh possibilities open up, new opportunities, wider fields, better methods, offer themselves. And we will always find it so, for when a limit is reached that store is dead.

It is characteristic of this store that we find it necessary to add another floor to our selling area. The stock room now on our top floor must go. Space is too valuable on the southwest corner of Queen and Yonge to be used for warehouse purposes.

We are going to move upstairs as soon as we can. But first, we must sell the goods now in the stock room, and that's where our customers may, much to their own advantage, render us the greatest of assistance. All we ask is that our readers take advantage of the wholesale reductions we are making in order to clear \$150,000 worth of goods with the least possible delay. And the sooner we can do it the better store this will be when it is done. So come to-morrow. Values like these couldn't be duplicated.
