

COBALT—City of Cobalt

Drives Against Minor Stocks Are At Present Successful

Dividend-Paying Stocks Are Firm, But the Smaller Priced Shares Are Active and Lower.

World Office,
Tuesday Evening, March 9.
Local mining exchanges to-day showed numerous fluctuations, but brokers reported that outside orders were not much in evidence.
Beaver had a natural recovery after the slump of yesterday, but declined after the rally. Temiskaming was heavy in spite of the declaration of the quarterly dividend.
The main feature of the day was the great strength shown by Nipissing, which sold as high as \$11, as compared with \$9.25 last Saturday. La Rose was also strong, selling at \$4.85.
The reported find on the northern limit of Nipissing is considered of great value to Chambers-Ferland, but liquidation in this stock showed that no modification of this had been received by those who were selling. Chambers-Ferland is now in the position of being surrounded by properties which have producing veins on the borders adjoining this property, which is of extreme importance.
The position taken by the public to-day was apathetic, the dealing during the day being mostly professional and only a few outside holdings coming on the market.
Several drives were made against the smaller priced issues during the day, and in the absence of investment purchases there was little difficulty in holding prices down to the low figures.

OTISSE ORE

Sensationally Rich Samples Have Arrived at Toronto.
A quantity of ore from the Otisse mine arrived in the city yesterday. It is from the 25-foot level of the main shaft, where the big strike was made a few days ago. The ore is sensationally rich. Large chunks of it are literally saturated with silver. It was pointed out that this sack of ore was not picked samples, but the run of ore as it comes from the vein. Within an hour of its arrival the Colborne street, west, Gowan and Co., 4 Colborne street, were crowded with people inspecting the wonderful ore. It was estimated by mining men who saw it that this ore, taken from the three-inch vein, would run from \$50,000 to \$100,000 to the car. But in addition to the bonanza ore from the vein, there is silver in rock and small pieces of high value, which make the shipping body from three and a half to four feet wide. Work at the Otisse is going on with double shifts, driving the shaft down with all possible speed.
The news from the mine will be watched with the keenest interest from now on.

Dividend Declared

Wallace & Eastwood received over their private wire from Cobalt to-day the news that the City of Cobalt Mining Co. have declared a quarterly dividend of three per cent, payable on April 1st, the books will be closed on April 15 to April 15.

GOWANDA HELPS GROCERIES.

The editor of The Canadian Grocer says:
Wholesalers report a good volume of business during the week, made up of smaller orders possibly than at other times. This, however, they consider favorable, as the accounts when small, are met more promptly. Travelers report an improvement in the grocery trade in the country, with the prospects always becoming brighter for a good season. The financial depression of the previous year is considered somewhat of a blessing, as it has had the effect of making business men more careful in what they do. The opening of the new silver district at Gowanda has been a great stimulus to the grocery trade. The week reports that some 70 cars of groceries, provisions, etc., were awaiting to be unloaded at Charlton, a distance of 30 miles to Gowanda.

FORCED SELLING CONCLUDED

Several Cobalt Stocks Strong on Investment Buying.
The conspicuous strength in the leading Cobalt dividend payers gives a good deal of confidence to the Cobalt market. Crown Reserve was strong yesterday, holding all of its advance of the previous day, and making a further gain in Montreal. In the morning Nipissing showed marked strength, and during the day went up sharply to \$11. La Rose was strong, selling up to \$4.85 in New York. Kerr Lake gained strength and in New York \$15 was bid for it, as compared with \$10.50 the previous day. Renewed buying of Hargrave set in, which absorbed some profit taking sales and closed the stock strong. Nova Scotia also had a better tone in fact, the good properties are showing strength, that is most encouraging. Some good judges of the market are now feeling more bullish on the general situation, and predicting a gradual advance from the present low level, which has been reached through months of liquidation. One important reason for this opinion is that the

This valuable property has been systematically and thoroughly mined during the past three months and several promising veins have been uncovered. One of the best engineers in the Cobalt camp, who has had several years' experience, and has a thorough knowledge of the various formations in the Kerr Lake District, advised the management to sink a permanent shaft. A. Himmelman, and work was commenced. The additional record of the work. Day and night shifts will be employed, so that there will be a continuous work, 18 feet by 35 feet, camp and kitchen, will be completed in the course of a few days, and will afford ample accommodation for the men, in addition to the other buildings on the property.
Great things are looked for in the Eastbourne, as it is situated in the heart of the Kerr Lake and Temiskaming district. The Hargrave mine adjoins the Eastbourne on the north, and that mine, together with Kerr Lake, is the talk of the Cobalt camp. Who consider them the richest properties in Coleman Township.
The Eastbourne Cobalt Mining Limited, have issued a complete map of the Kerr Lake and Temiskaming district, giving the names and capital of the various incorporated companies, as at present on record, and of which may be made an application at the offices of the company, 15 Toronto street, Toronto.

LOTS FOR SALE
