

The Plus Mark

Personal feeling

I Semi-ready Tailoring offers you all the advantages of the made-to-measure Clothes plus (+) the fact that you can know just how it will suit you when it is made up. You can't know this in the web of cloth.

¶ Plus again +. Up to the moment that it is exactly right the Semi-ready tailor can add to and substract from the garment, and make corrections until he and his customer are both satisfied. He can build up the sunk-in spots, straighten a stoop, accentuate chest, diminish corpulency-for our physique type system is founded on the proportions of anatomy, and he has the secret of the true art in the craftsmanship.

I Semi-ready Suits can be finished in two hours—and the man who has to wear them feels that his suit has been designed and made for him.

When the Suit is sent home it is shaped right, and the right shape stays. for it is wrought into the garment by men tailors who have grown expert.

That is why Semi-ready Garments are not only satisfactory at the outset, but up to the last days the garments are in use. 'Tis why we can put a real guarantee in the pocket of every Suit we make.

If the way of to-day saves you \$5 to \$15, wouldn't you just as soon join the throng who know now.

> This is the Modern Custom Tailoringfor we study your every interest in every way

FreeUntilCured

The Dr. Sanden Electric Belt gives New Strength and Vigor to Men and I Ask no Pay Until Cured

The highest mental and moral development, the greatest possible success in life, either financially or otherwise, can best be attained when the organs of the body are in a normal state of health—when the ambitions and efforts are backed by rugged, manly vigor.

The man who is weak, who lacks nerve force and energy, is certainly handicapped to a greater or less degree in every undertaking where a clear brain and an abundant reserve fund of nervous energy and vitality are essential-and these qualifications are required at the present day more than ever before.

I have devoted my entire life to the minute study of the causes and effects of nervous debility and those weaknesses of men which sap the vital energy. In nearly every case the trouble can be traced to some tax on the nervous system in former years, such as overwork, hard study, dissipation, indiscretions, etc., for all these things lower the vital forces and rob the constitution, and what is still more unfortunate, they generally do so at that delicate period of life when youth is merging into manhood. when Nature should be most assisted in her work of perfect development.

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, because science tells us that electricity and nerve force are one and the same thing. I apply it through the famous Dr. Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep. My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary heads.

to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of ur case, on trial, not to be paid for until you are cured, and I only charge the regular list price. If you are not satisfied with the results, you can send the Belt back to me, and that ends the transaction. . Isn't that a fair offer? If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing this morning sentenced, to serve four years in Kingston Penitentiary by helds crave sunshine and warmth. In the great and sublime effort nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will.

This book, profusely illustrated, contains valuable advice for men,

MY BOOK IS GIVEN FREE TO and outlines the proper course to pursue for the greatest possible ALL WHO CALL OR WRITE development of the physical and mental powers. Write or call for it to-day. It is sent free, sealed, by mail.

DURHAM COUNTY'S PAST RIVALS GLENSARRY

Anecdotes From the Early Times of Darlington and Cartwright Are Full of Pathos and Humor.

"Let some gifted fellow collect the story of the settlement of Durham, and you will find that the men of Dur-ham will outclass anything that ever flourished in much-vaunted Glengarry, as regards heroism and stress under early difficulties," said Auctioneer L. A. W. Tole of the Pelican Club of Bowmanville to The World on Wed-

Continuing in his inimitable strain, Mr. Tole became reminiscent of the early day, and as his father cut down the first tree on the site of Bow-vanville, and lived with his family near Enniskillen for four years without having a neighbor nearer than the front, he, perhaps, has a right to glory in the pioneer days of this exception-ally well-blessed county on the Ontario

The farms of Durham are good ones The land is of a good texture and the buildings and crops all testify to the buildings and crops all testify to the sterling worth of the county. Mixed farming is generally carried on in the whole county and of late years the townships of Darlington, Clarke and Hope, which are at the front, have gone into dairying. Large herds of dairy cows of grade Holstein, Shorthorn, Larges and Ausshire as well as horn, Jersey and Ayrshire as well as several pure bred herds with a reputation, are to be found here. At the little station of Darlington on the G.T.R. more milk is shipped to To-ronto than at all the immediate sta-

general agricultural prosperity by at-tending the annual fall fair at Bowmanville, when, last year, there were nearly 200 entries of cattle alone, wille horses, sheep and pigs were of high merit and in large numbers, altho there was not a stable on the grounds. This will be remedied next year when the new grounds are opened. But the casual visitor to Durham County is struck with the fine class of driving horses generally owned by the farmers. Several stables such as Beith's have contributed to this result, and it only emphasizes the benefits to be derived from such breeders in a vi-cinity. Clydesdales, Percherons, Hackneys, standard breds, and thorobreds are found here, a grade Percheron filly foal sold at Trull's sale on Wednesday for over \$100.

The Humorous Side Many stories can be related of Durham folk in the early days. These pioneers are rapidly passing away, and a valuable egacy to future Canadians. minion.

Just now, while the government is Asket taking active steps towards refores-tation in this and an adjoining county, Mr. Rogers said, "No, we are simply Well do I remember," said our en-

WATER TANKS DYNAMITED

Many Others Injured and Many Houses Wrecked and Danaged-Water Famine Imminent

PARKERSBURG, W. Va., March 19. -Two persons were killed, three others probably fatally injured, and many more slightly hurt, and ten or more houses completely wrecked and forty more badly dalfaged, when the two large water tanks supplying the city with water burst early this morning. The immense stream of released water rushed down Prospect Hill, sweeping everything before it. One whole family were carried down a street 75 yards, their house being split almost into ribbons, yet all escaped injury except one girl, who suffered s roken collar bone.

The two tanks contained the entire city supply of water and a famine is now imminent. The damage will amount to nearly two hundred and fifty thousand dol-

together to clear Jones' big 50-acre titled to a position of full sisterhood almost completely demolished, but among the other provinces. mong the other provinces.

"We are prepared to accept the same

> to have been caused by some miscreant who dynamited them, as two explo sions were heard.

WRECK VICTIMS BURIED. Streets Crowded as Sad Corte e Passed

MONTREAL, March 19 .- All Point St. Charles, the railroad centre of Montreal, mourned to-day, and thousands of railroad families turned out to pay their last tributes of respect who met such a tragic ending at the Windsor-street station, whither they had gone to meet and welcome their father. About the hearses of the little boy and girl were members of their Sunday school classes, and behind came hundreds of men of the neighborhood, anxious to show, by their presence, the great corrow they felt at the loss that had been sustained.

All along the way the streets were growded, and every inch of space in the large church had been taken when the pastor, Rev. Mr. Timberlake, opened the funeral service.

All of the victims of the wreck, who are still in the hospital, were reported to be making good progress this morn be any further additions to the list o

The engine was taken away from the debris this morning. All of the disabled parts were removed, and she temporary track, which had been laid down. She is now in the repair de-partment of the Angus shops, and

If the tramp theory is to be con-sidered this is certainly the man, as the beard and started to run away with the crowd in pursuit. But as doughtly Col. Sam Hughes would say the Cadds were only "luring" them on. After

Gentleman Will Send It Confidentially. Free and Sealed, to Every Weak and Unable Man Who Writes for It.

Is have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains or the follies of vouth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly should have a copy. So I have determined to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from

This prescription comes from a physician, who has made a special study of men, and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor-failure ever put together.

I think I owe it to my fellow men to send them a coty in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what. I believe, is the quickest acting, restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and, so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 2323 ck Bidg. Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge. prescription comes
